MILL BURNED.—On Thursday last, Coffin's Grist Mill, formerly owned by W. S. McGowan, at the Head of Souris, was burned to the ground. It is thought that the fire was the work of an incendiary. It is hoped that the guilty one will be brought to justice. The loss of this mill will be much felt by the people of North Side and Souris River. We have not heard whether there was any insurance or not.

THE Proprietor of the "Lorne" Restaurant warns all those indebted to him (railroad men and Government officials in particular) to come to the front and square their accounts, if they want to spare themselves the mortification of seeing their names published in the city papers. He is in earnest and means it. [Oct 1w]

MR. STUART ROGERS.—The Montreal Daily Witness, says:—Mr. Stuart Rogers made his first appearance at the Queen's Hall last evening. Mr. Rogers is an exceptionally good reciter, with good looks and carriage, and a very expressive and powerful voice; every character in which he speaks is natural, and that is the best that can be said of any reader. The programme was divided into two parts, the first consisting of five recitations which gave opportunity for the most varied tones and expressions, and in none of them was anything deserving hostile criticism. Mr. Rogers' character sketches in the second part were also very successful. The extravagance and occasional vulgarity, which are the stock in trade of some entertainers, were entirely absent. The changes in costume were so slight that Mr. Rogers did not need to leave the platform to make them. He first character was a poor-fiddling tramp, whose story of how he had been degraded by drink, was pathetically and naturally told. "Gus Fitz-fuddle" was a capital take-off of the brainless lady-killer. "Miss Amaranthis," the quick-minded lady, who had been induced to leave her home in Rehoboth, New Hampshire, to see the Centennial Exhibition, well brought out the qualities to which we have referred. "Tommy Grindle" was excellent, and brought a very pleasant evening to a close. Mr. Rogers will appear at the Academy of Music, Charlottetown, on Wednesday night only on Wednesday, October 15.

TELEGRAPHIC NEWS.

Charges against British Troops—An Officer's remarks—British Troops relieved of Police Duty—Fanatics at Tintah.

The Joint Control.

Special to the Examiner.

LONDON, Oct. 8. News has been received here from the Cairo correspondent to one of the daily papers declaring that the wounded Egyptians in the trenches of Tel-el-Kebir were murdered by the British troops long after resistance had ceased. The report causes much excitement here, and has not yet been officially denied. There appears another communication on the subject from one of the officers of the 42nd Regiment. He states that orders were given to bayonet everyone of the enemy regardless of anything. The affair causes quite a flutter in military circles and is eagerly pounced upon by the anti-Wolsey clique. News published here says that Wolsey has relieved the British troops in Egypt from police duty. The native force is now considered sufficient to ensure order. The Greek residents at Tintah have seized several of the leading men at Tintah and accused them of exciting the populace to rebellion, and also to massacre all strangers, as soon as the English troops leave the vicinity. The report that the Joint Control would be abolished has produced excellent effect.

Poor Arabi Pre-judged.

HIS DEATH DEMANDED.

Special to the Examiner.

ALEXANDRIA, Oct. 8. The English Consul sent to defend Arabi will be denied access to him and to the court of law for pleading. The Egyptian government consider English aid unavailing as the pleading must be made in Arabic. The Khedive has again determined that his authority cannot be upheld, nor can the honor of his administration be vindicated unless Arabi dies. The Khedive says that the death of the rebel is essential to the peace of Europe. Arabi feels his pre-judged position keenly and has again made complaint of the manifest unfairness of the situation. He has telegraphed to London for addition of legal aid.

Germany Arming.

CAIRO, Oct. 6. Sultan Pasha has received a gift of £10,000, as a reward for his loyalty.

HAVANA, Oct. 6. Planters generally predict a late sugar crop because of the drought.

LONDON, Oct. 6. The Daily Telegraph says in consequence of the failure of the Council of India to sell bills, business in silver is completely disorganized.

The prospectus of the new Indian loan of £2,000,000 sterling at four per cent. interest was issued here last evening.

NEW YORK, Oct. 6. Patrick Ford, of the Irish World, has just called Patrick Egan, treasurer of the Land League at Paris, the sum of \$17,424.44, making a total of \$342,548.56 sent to the League. With this issue the Irish World closes the fund. Ford's reason for this action is that there is no longer a Land League in existence and that it has been supplanted by the Mansion House relief committee.

TORONTO, Oct. 9—10 a. m. Moderate winds, fair weather, stationary or higher temperature.

Supreme Court—Prince County.

SATURDAY, Oct. 7.

The Court closed here at two o'clock to-day. The last jury case was Nickerson and another vs. Giffin. An action on a promissory note for \$161. The defence was that the note had been altered by adding words carrying interest. After the jury had returned with their verdict, but before it was rendered, Mr. F. Peters for plaintiff, anticipating an adverse verdict, asked for a consent which the court granted. Peters & Howe, for plaintiffs. Hodgson, Q. C., for defendant.

The Court postponed the Breach of Promise case, owing to the Brecken Jenkins election case being set for hearing Monday.

NOTICE.

THE Charlottetown Gas Light Company have imported a fresh supply of Bray's Patent Burners, especially made to consume only three feet of Gas per hour with the tapered full on. These Burners are intended for use in Halls, Bedrooms, Kitchens, and other places where a light from a small consumption of Gas only is required. By regulating the tap, the Gas consumed can be reduced to any desired quantity less than three feet per hour. These Burners are so scientifically made that they will give a light equal to about ten candles at a cost of three quarters of one cent per hour. The price of these Burners to consumers of Gas will be ten cents each. [In 10 and pat]
