

rises upwards of 50 feet. At low water there- fore, the wharfs have a very singular appearance, and the current at the Falls will be nearly as much rapid. The water at the bridge must be very deep for the whole river St. John pours through this narrow defile in the wet weather. The water in the river, the St. John has many branches larger than our Killbuck, after heavy rains or freshets, and it is to be seen that the Falls will not take weeks often elapse before it falls to its usual level. At no great distance from the Falls is situated the Lunatic Asylum, an institution worthy of the name, and well conducted by Dr. and Mrs. Waddell. We were shown through the principal portion of the building, which we found kept in perfect order and with scrupulous neatness. It is well conducted by Dr. in the building for a large number of patients—workhouses, bath room, &c., properly furnished with every requisite—a small steam engine in the cellar pumps water into the highest rooms, a moderately sized farm is attached to the premises, where a number of the patients are employed in useful labour and everything seems to be conducted with admirable skill and forethought. The scenery of the river St. John from the front of the building is very fine, and as it is to be seen by the Falls, it is to be said it has left a deep impression on our mind of the exquisiteness of the view.

A description of several factories visited must be deferred to another number, as we are unwilling to trespass on the patience of our readers.

The Mats.—The Steamer Lady LeMarchant brought the usual Colonial Mats on Wednesday and Friday, by the latter trip we have one week's later news from Britain, by Telegraph from New York. We will see that the Lady LeMarchant has somewhat changed her arrangements and makes only one trip to Sheldiac.

GLORIOUS NEWS FROM THE CRIMEA

KERTCH CAPTURED.

One hundred and twenty Russian ships destroyed. The Russians driven beyond the Tchernaya.

By the arrival of the Steamer Lady Le Marchant, yesterday morning, (Friday June 15), we have received the following glorious news from the Crimea.

EASTERN CHRONICLE OFFICE,
Thursday 2 p. m.

The following highly important despatch has been received from New York, via Halifax, by gentlemen in this place, who has kindly placed it at our disposal. The news is by the Collins Steamer at New York.

The Russians are driven beyond the Tchernaya.

Kertch is captured—three thousand Russians killed.

On 23d May, 4 Steamers, 24 transports, and 100 merchantmen were taken and destroyed in the Sea of Azoff.

The Allies every where victorious.

HALIFAX, June 13.

The American Steamship Atlantic arrived this morning at New York. News most important since Battle of Alma.

The Allies have gained Three Victories. Desperate engagements on nights of 23d and 24th before Sebastopol. French and retained an important position of defence.

8000 Russians killed and wounded; the Allies made rapid advances and retained the Russian lines on the Schernia—Russian retreating to the Hills—Allies took Kertscha and command of Azoff.

The British and English nations further conference at Vienna—hopes of peace revived. Consols for money quoted at 92 1/2. Money market easy.

TO THE EDITOR OF HASZARD'S GAZETTE.

Mr. Editor:

A very successful Surgical operation was performed yesterday at the Harbour's Mouth which deserves to be mentioned for the skill and rapidity with which it was performed, and the entire recovery of the patient. It afforded the patient by the inhalation of Chloroform.

It was the removal of a fearfully diseased leg of the thigh, and was effected in 1 min. 50 sec. by the use of the knife of the late Dr. Jos. Bell of St. Eleanor's. As a friend of the sufferer, I watched his actions carefully, but besides a few incoherent sentences, he was in a high state of insensibility, and not a muscle seemed to move, but he calmly slept through the whole operation of seizing up the arteries, and forming the stump, which occupied 10 min. The patient expired at the age of 50 months, the patient exclaiming when he awoke, "Well Dr. when are you going to begin," and when assured it was "all right,"

adding "what a pleasant trip I've had to Newfoundland." Surely this is the strongest recommendation of Chloroform as an anæsthetic that could be desired by any one, and the whole operation reflects great credit upon the Surgeon in attendance. The patient (one Stewart) died at 10 o'clock, and was buried at 11 o'clock, and seems as cheerful as if he was thankful for the efficient aid rendered him.

W. R. WATSON, Agent for P. E. Island.

The relaxing hands of summer leave behind them long train of evils. The most universal of these are general debility, and its sure attendant, loss of spirits. For these we can recommend a speedy remedy, in the shape of Hood's German Bitters, prepared by Dr. C. M. Jackson, Philadelphia. It is, in our opinion, a medicine superior

to—unapproachable. It seems to reach the fountain head of the difficulty in the digestive organs, and by its action on the secretions and the blood of the matrices, morbi, or the cause of disease. Its tonic properties give vigor to the membranes of the stomach, and promote the secretion of the gastric juice, which dissolves the food, while its cordial, soothing, and alterative influence imparts energy and strength to the action of the secretive organs, and seem to fortify the constitution. Such is our own experience of its efficacy, and we believe confirmed by the evidence of all who have tried it, or had a competent witness in their operation. For sale by Dr. Jackson, 120 Broadway street. See advertisement.

GILMAN'S HAIR DYE.

The article ever used, as hundreds can testify in this city and surrounding country. Read GILMAN'S LIQUID HAIR DYE *instantaneously* restores the hair to its natural color. It does not Brown, which is permanent—does not stain or in any way injure the skin. No article ever invented which can compare with it. We would advise all who have grey hairs to buy it, for it never fails.—Boston Post.
