WHICH WAY WILL HE GO?

IT MATTERS TO YOU

Of course the lobster matters to you. He's your job—your living—he can mean hard times or good times for your family. But the lobster isn't a wizard. He can't protect himself. The lobster depends on you—the lobsterman—to stop waste and shortage—to make sure next season's catch is a good one.

Here is what you can do. Throw back the shorts—next season they'll be 15% longer and 50% heavier and so bring you a better price. Let the "berried" lobsters reproduce so there'll be lobsters to trap in the future.

Do this—and you'll be helping the lobster industry along the path that begins with conservation, leads to a good living for you, and greater prosperity for the Maritimes.
