THE LONESOME TRAIL

S'side Board of Trade Moves To Clear Roadside Rubbish

The deplorable situation along P. E. I. highways caused by dumping refuse was widely discussed at a regular meeting of the Summerside Board of Trade last evening held at Curran and Briggs Ltd. offices at St. Eleanors. President John S. Wright presided.

The result of the discussion was that Mr. Fred Bell, a member of the agricultural committee, was appointed to contact the Minister of Highways, Mr. George MacKay, regarding the feasibility of providing bulldozers to cover over the refuse in dumping areas well away from the highways, each suitable locations are found in each school district.

The discussion pointed up the fact that in at least some of the provinces government trucks are provided, along with several men, to patrol the highways and clean up any litter found in ditches on or near the roadside, and it was felt that this method might be employed on P. E. I. as suitable means for disposing of refuse is a real problem in many districts.

Discussions on two other unfortunate, prevailing conditions were prompted by board members, who deplore the removal of fill for construction purposes from areas in close proximity to the highways which were termed as "eyesores" and "disgraceful"; and the problem of school children running and walking across lawns in Summerside and often dropping chocolate bar wrappers, etc., in the process. In the latter, it was suggested that perhaps if the school supervisor and teachers were informed of this matter some alleviation might be forthcoming. Also it was felt by some members that parents should instruct their children in this matter, as in many areas, particularly on Upper Central Street and near the schools, shortcuts are taken every day across the various lawns and amount of warning by home owners has any effect.

TOURIST BUREAU OPENS The president reported that the Town Tourist Bureau opened as scheduled on June 1st with a new coat of paint, but that the expected increase of \$200, to cover operating costs had not been forthcoming from the government. He also informed the meeting that the boat from Newfoundland, replacing "The Blue Prince", will dock in Summerside on June 14th.

Mr. J. Frank Arnett expressed admiration of the renovated old post office which he termed "the new civic building", and said it would be a credit to Summerside as it is one of the oldest and finest buildings in the town.

A motion was approved whereby the Board of Trade will contact the Town Council suggesting someone be employed to keep the town clock in operation.

Before adjournment President Wright expressed appreciation to Curran and Briggs Ltd., for providing facilities for the board meeting.
