THE TUNNEL SCHEME, if brought to a successful issue, will be no doubt a great boon to P. E. Island. But as great a boon, and one that will and must come in the very near future, is free trade relations with our cousins across the border. Election times, people generally get excited. A remedy for this is to keep the blood cool by eating a stalk of celery once a day. This prescription is free. The celery is to be procured at Gays' stalls in the Market, at 10c per bunch. Price for large lots sent on application. Address J. J. Gay & Son, Pownal. month 31 pd

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup has been used by millions of mothers for children teething for over fifty years with perfect success. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as bright as a button. It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. apl1890ygodwkyly

Dyspepticure—Is not a palliative, but a cure; it first relieves, then controls and finally entirely subdues the irritation and inflammation of the stomach that causes indigestion and dyspepsia.

NOTICE.

THE time for receiving Tenders for the Estate of James McCarthy, of Mount Stewart, Merchant, has been extended to February 28th, 1891. feb17

PUBLIC NOTICE.

IN FUTURE the Government Steamer "Stanley" will run during the winter months between Charlottetown and Picton, and between Picton and Georgetown, and return trip each day, commencing on the 1st December. If however, the Company's boats cannot keep up daily communication between the Island and mainland before the 1st December, the steamer "Stanley" will commence running earlier than the 1st December, so as to keep up daily communication. When the steamer "Stanley" cannot make return trips between Charlottetown and Picton, she will then run between Picton and Georgetown, and make daily trips, if possible. When the ice becomes so heavy that she cannot make return daily trips, the ice boats will carry the mails between Cape Traverse and Cape Tormentine, so as to give a daily mail to the Island throughout the winter, weather permitting, and the "Stanley" will then run between Picton and Georgetown for the purpose of carrying passengers and freight, making only one trip each day, leaving Picton on Monday, Wednesday and Friday mornings, at 7 o'clock, and leaving Georgetown on Tuesday, Thursday and Saturday mornings at the same hour. Notice of her arrival at Georgetown will be made public by the Agent of the Marine Department at Charlottetown each day, and also the hour of her intended departure from Georgetown. As soon as the "Stanley" begins making a return trip between the mainland and the Island in the early part of the year, the Iceboat Service at the Cape will be discontinued, so that as far as possible a daily mail each way will be conveyed between the mainland and the Island during the winter. The "Stanley" will remain on the route until the 1st May in each year, and will continue longer than that date if the Company's boats were not able to keep up daily communication with the Island.
