

AGUINALDO HAS PROCLAIMED HIMSELF

Dictator of the Philippine Islands

AND ESTABLISHED MARTIAL LAW AT MANILA.

There will Probably be a Row There Very Soon.

[SPECIAL TO THE EXAMINER.]

WASHINGTON, July 23.—A despatch received here from Colonel Anderson at Manila says that Aguinaldo, the leader of the insurgents in the Philippine Islands, has declared a dictatorship and established martial law.

The natives, the despatch adds, expect to secure their independence.

WILHELM'S VERDICT.

NEW YORK, July 22.—A special despatch to the Journal from Berlin says: Emperor William has turned against Spain. The despatch reports the Emperor as saying to a number of British naval guests aboard the royal yacht a few days ago that Spain deserves to lose her empire because she cannot shoot straight.

BLANCO FIRES BLANK CARTRIDGE

In the Form of a Proclamation.

SAYS SPANIARDS ARE EAGER TO FIGHT

And will Show the Americans who are the Better Men.

[SPECIAL TO THE EXAMINER]

HAVANA, July 23.—General Blanco has issued a proclamation announcing the capitulation of Santiago, and closing as follows:

The Spanish army is intact and eager for glory.

It is willing to measure arms with the Americans, and in this army the King of Spain, Spanish Government, and the whole country places its trust. This army is sure to be triumphant and victorious at the last, in spite of so many dangers and impediments, and to show once more indomitable Spanish character and well known military talents of our people.

A FALSE REPORT.

Lieut. Colwell Writes that Foreign Trained Men are not Wanted in the American Army.

LONDON, July 21.—Geo J. Goschen replied in the House of Commons to Thomas Gibson Bolles, who asked whether there was any truth in the statement made by Cunningham Graham in a letter to the St. James Gazette, saying the excellent gunnery shown by Admiral Dewey's squadron was due to the fact that most of the gunners were Englishmen, decoyed from the British Chinese squadron by promises of \$500 monthly. Mr. Goschen said no one at the admiralty had heard such a rumor. Continuing, he remarked: "I may add, with reference to the alleged enlistment of Signalman Matthews, by the commander of the United States steamer Somers, that I have received a letter from Lieut. Colwell, the United States naval attaché, in which he writes:

"That any officer of the United States navy would induce a man of a friendly power to desert I distinctly deny, and in nearly thirty years service I have never known a deserter from a foreign service knowledgely enlisted in my service. Foreign-trained men are not regarded favorably in the United States navy, and for several years a law existed absolutely forbidding the enlistment of any but citizens of the United States or aliens who had already taken steps to become naturalized."

NEW YORK'S GREAT WHEAT CROP.

Buffalo, N. Y., July 21.—The harvest of the wheat crop in western New York is about finished, and the farmers find their barns filled to the roof with wheat and stacks of it are in the fields. Such a wheat crop as the one that has just been gathered has not been grown in this state in many years.

A COWARDLY CHARGE.

General Toral and the Surrender—He is to be Court-martialed—the Times Speaks Out.

MADRID, July 21.—A semi-official note has been published here explaining the circumstances from a Spanish standpoint of the surrender of Santiago de Cuba. It declares that the letter which General Toral is alleged to have written to General Shafter is apocryphal as the telegraph version, "contains a statement which it is impossible for General Toral to have made, because it is untrue that his government authorized him to capitulate." The note continues: "What happened was that the War Minister received two telegrams from Captain-General Blanco. The first described General Toral's position, which was most pitiful because of the want of provisions and ammunition. It also detailed the enemy's proposals. In the second telegram Captain-General Blanco gave the terms of the capitulation and requested instructions. The War Minister replied to both by telling Captain-General Blanco to leave every initiative to General Toral, for it was impossible to recommend any other line of conduct. General Toral accordingly acted as he thought advisable, and will explain before a court-martial the motives which induced him to capitulate."

LONDON, July 22.—The 'Times' editorially reproaches the Spanish Government with 'moral cowardice in endeavouring to screen its own mismanagement by pretending that Gen. Toral has betrayed his country,' and says:—"It is incredible that Spain can hope for anything from Cuba, as it is as impossible for Blanco as it was for Toral to fight against hunger; and it is unlikely that the former will have anything else to fight with for some time to come. Neither can anything be hoped for from European intervention, even if Commodore Watson's squadron comes, though its arrival would be an unwelcome spectacle to more than one European power."

MODERN MIRACLES.

Two Remarkable Cures Reported at Ste. Anne.

ONTARIO INVALIDS SAID TO HAVE RECEIVED RELIEF.

(Special to the Star)

QUEBEC, Que., July 21.—Two startling miracles were reported from Ste. Anne de Beaupre yesterday, by the members of a large Ontario pilgrimage that arrived here in the afternoon on their way home from the shrine. The pilgrimage was in two parts. Seven hundred people came from Pembroke under the auspices of Mgr. Lorrain, bishop of the place, and were accompanied by Rev. Fathers Picotte Lemoine and Latulippe. The pilgrims travelled by steamer Three Rivers. Another pilgrimage of 1,600 people from Smith's Falls, Ont., under the care of the Rev. Father Stanton, travelled by rail.

Miss Perreault, of Sheenbroke, who accompanied the pilgrimage, and who is about 20 years of age, has been unable to walk for three years, and has had to use crutches. The doctors from Montreal and Pembroke who attended her, attributed her lameness to rheumatism. Yesterday, immediately after venerating the relic and receiving the Sacrament, she sprang to her feet, and leaving her crutches behind her, walked quite easily naturally out of the church, on and the arm of a priest, and giving thanks to Almighty and to la Sainte Ste. Anne. Since then she walked freely about the boat also about the city in the afternoon.

The other case is that of a young girl named Cunningham, from Eganville, Ont., who has been almost completely blind by an affection of the eyes for about a year, and who now claims to see perfectly.

The pilgrims all appeared to be in the greatest glee over these reported manifestations of Divine power.

BRITISH TRADE.

Figures Which Show a Remarkable Decline, Except in Colonial Commerce.

NEW YORK, July 21.—The statistical department of the Swedish Administration has issued a pamphlet dealing with the trade and industries of Great Britain in relation to those of other countries. From this publication it appears that during the period between 1871-75 and 1891-95, Great Britain and Ireland's proportional share on the world's production of pig iron has sunk from 46.3 to 27.5 per cent, while on the other hand, the United States has increased its proportion of output from 16.1 to 30.9 per cent. During the period of 1871-72, Great Britain and Ireland supplied 47 per cent of the world's output of coal, but at the present time only 34 per cent; Germany 17 per cent and now 18 per cent; while the United States has advanced from 17 per cent to nearly 30 per cent. Since the year 1870, Great Britain's consumption of cotton has increased by one quarter while that of the rest of Europe and the United States has doubled. For the period of 1891-95, Great Britain's trade has increased by slightly more than 2 1-2 per cent; that of Germany and the United States, each by 15 per cent; while the trade of France has steadily declined. In the department of shipping, Great Britain fully maintains her former pre-ponderance. A comparative review of statistics shows that the commercial standing of Great Britain, outside of her colonies, has retrograded in relation to the other great nations within the last 25 years.

In nearly every important department of her industry her proportional share has much diminished. As to her shipping only in her early supremacy maintained. This condition in Great Britain's position with reference to other countries as regards wealth, occurring, as it has, within so short a period, has probably not been appreciated, except by those whose attention has been especially directed to such subjects.

It will be seen, however, from the statistics which follow that the standing of Great Britain, when considered in conjunction with her colonies and dependencies, is very different. The table gives the average annual imports and exports for the British colonies and dependencies, and the United States of America for the period in 1890-95: Imports, United States, \$306,000,000; British Colonies and dependencies, \$960,000,000; exports, United States, \$378,000,000; British Colonies and dependencies, \$1,058,000,000. Thus the sum of the imports and exports of the British Colonies and dependencies exceeds the total amount of the exports and imports of the United States by nearly one-fourth.
