N. B. and P. E. I. Conference.

CONFERENCE SAYINGS AND DOINGS.

(Special Correspondence of The Examiner.)

MONDAY, JUNE 24.

Conference opened with devotional exercises. Several communications and memorials were read to the conference.

Rev. Dr. Stewart was present, having arrived from Liverpool from the N. S. conference, which had presented him, as Dean of the University, with a valuable gold watch and chain.

Rev. Dr. Latham was also present, and brought the report of the Wesleyan and Halifax Book Room.

The report showed a total increase in sales in the Book Room of \$3,554.34, and in the Wesleyan an excess on the previous year of \$120.20.

The reduction in the price of the Wesleyan from \$2 to \$1.50 has been fully justified by the enlarged circulation during the past year, and from the fact that it has been self-sustaining.

The report of the general conference was read, received and adopted.

Rev. Job Shepton was elected Treasurer of the fund for the ensuing year. It was resolved that this collection be taken up in August, and forwarded at once to the Treasurer.

Doctor and Ineh, Principals Borden and Davis were invited to the platform, and addressed the conference upon matters relating to the Educational Institutions.

Dr. Ineh, in the course of a very beautiful address, in which he compared the work of the preacher and teacher, said that during the past year 275 pupils had been in attendance at the institutions, under the tuition of twenty professors and teachers.

These pupils were under the best educational, social and religious influences. He was proud to know the interest in these institutions was steadily and largely growing. The source of income was three-fold: students' fees, income from the Education Society, and the Endowment fund.

Bro. R. Brecken had, during the year, donated a sum, the interest of which is for the assistance of needy students. Our education is a settled policy, without danger of agitation or confusion, such as has overtaken our brethren in the west.

Bro. Principals Borden was glad to meet the Conference, and reported a pleasant and successful year. The attendance of students at the Ladies' College last year was 176. The moral tone of the college was high. The educational work is established, he said, upon Christian culture.

During the past few weeks he had been visiting some of the Ladies' Colleges in the United States, and felt that it was imperative that we should make rapid strike in advance as to appliances and re-furnishment, especially a suitable building for our noble musical staff. The conservatory projected must have as a beginning an endowment of \$10,000. \$5,000 have already been promised.

Principal Davis, of the Male Academy, said that they had made considerable advance during the past year, as to refitting, appliances, etc. \$800 of the standing debt had been paid off. Eighty students had been in attendance last year. He was assured this institution was growing to be one of the first in the Provinces. The moral and religious interest during the year had been very healthful. Rev. Dr. Stewart, Dean of Mount Allison University, addressed the conference. His remarks re the theological and religious interest of the institutions, were of an exceedingly encouraging character. One of their young men had been called away during the year for the foreign work in Japan. This young gentleman is Mr. Ayers, of Union Road, P. E. I., and he leaves in July for Tokio.

A public temperance meeting, at which the different orders appeared in full regalia, was held in the Centenary to-night. Rev. Dr. Stewart presided, and some vigorous speeches were made.

WEDNESDAY, JUNE 26.

After the opening of the session, Bishop Foster, M. E. Church, was introduced to the Conference, and spoke from the platform. His address occupied about an hour, and was listened to with great attention by the Conference and a large number of visitors present. Dr. Gould, M. E., of Cambridgeport, was also introduced and delivered a short address.

Resuming business, the Conference received the various statistical reports. The net increase in membership for the N. B. & P. E. I. Conference during the past year was forty-five.

Resolutions of thanks were presented to the Secretaries of Conference, to the press for their reports, and to the Railway Co. and Steamship Co's. for reduced fares to delegates. A hearty vote of thanks was presented to the pastors of the city churches to be presented to the kind friends who had entertained the delegates during the sitting of Conference.

A resolution of gratitude was expressed in re the attainment of its 50th anniversary by the Centenary Church.

The report of the Contingent Fund Committee was received again and discussed. One of the claimants upon the fund donated the amount of his claim, \$40, to the Committee. It was resolved that a special effort be made in August and April, to augment this fund so as to pay off its indebtedness.

A committee of five members and five laymen was provided to meet a similar committee for the N. S. Conference, in order to investigate the business of the supernumerary fund, and also to confer upon the prospect of a union between the three Maritime Conferences.

The station sheet was read informally. The principal changes were H. Sprague, D. D., and W. Tippet to the Centenary Church, and James Crisp, Marysville.

A ministerial session of the Conference met at 7.15.

The election of district superintendents

will take place to-morrow, after which Conference will probably close.

Bishop Foster delivered his famous lecture upon "The Scriptural forces of the Universe," last night, in Centenary Church.

Address.

The following address from leading merchants and shippers of this city was presented to Capt. Ferguson, on Thursday afternoon, on board the M. A. Starr:

DEAR SIR,—We, the undersigned, hearing that the S. S. M. A. Starr, of which you have been the popular commander for the past ten years, is about to be withdrawn from the route between this port and Halifax, to be replaced by the S. S. Princess Beatrice, desire to express our appreciation of your courteous, affable and obliging demeanor to shippers doing business with your line.

As the result of your judicious and careful supervision, goods have been invariably received and discharged with utmost care and promptitude.

The unbounded confidence placed in you as an experienced seaman, secured for the owners of the M. A. Starr a large share of public patronage from Island shippers, and we hope that you may continue to enjoy, in whatever station you may be placed, or on whatever seas you may sail, that well merited success which has always attended you whilst sailing on this route.

Peake Bros & Co, Carvell Bros, A Kennedy & Co, John F Robertson, Horace Haszard, Walter Matheson, Henry Longworth, A McNeill, John A McDonald, Wheatley & Sons, Longworth & Co, A J Dougan, Fred W Hyndman, Hickey & Stewart, Geo H Toombs, A A Telegraph Co, M Trainor, Daniel Davies, B Wilson Higgs, Ritchie Bros & Co, J McEachern, Rob Angus, Jas Warburton, M D, Harris & Stewart, Beer Bros, Theo L Chappelle, Auld Bros, George Carter & Co, Dodd & Rogers, Stewart & Gates, Sanders & Co, G H Haszard, Blake Bros, Jas Byrne, C C, John Byrne, D O M Reddin, jr, Connolly & Co, Wm Rattenbury, W W Clarke, F T Newbery, C D Rankin, Beer & Goff, Norton & Fennell, R Bridges, Lemuel L Poole, S P Paoli, John Lewis, J T Morris, L P Tanton, Capt John Hughes, Lemuel Wright, C Robertson.

Capit Ferguson suitably acknowledged the high compliment thus paid him, and felt proud to know that, in the performance of his duties, he had secured the good wishes of the leading business people of Charlottetown. He felt sure that they would find Captain Kelley, of the S. S. Princess Beatrice, also ready to meet their wishes to the best of his ability.

Cardigan Notes.

On the 25th June inst., the schooner Annie T. McKee sailed from Cardigan Bridge for St. John's, Nfld., with the following cargo, shipped by Jas. E. McDonald, Esq., viz.: 29 head fat cattle, 2 horses, 47 sheep, 300 bush. potatoes, 160 bush. oats and 18 packages butter, 1 wagon shipped by Alexander McKay, and five rolls leather, shipped by James N. Cogswell & Co., Georgetown. Among the fat cattle the best animals were the ox fed by Herbert Moar, Brudenell, weighing 1520 pounds, ox fed by Angus Gillis, Pisiquid, 1220, bull fed by Angus Morrison, Launching, 1230, and animals fed by John Macdonald, Launching, Michael Macdonald and Angus McLellan, Narrow's Creek, Samuel Macdonald, Dundas, George E. Goff, Woodville, P. J. D. Edmonds, Summerville, and John Praught, Vernon River. This is the third cargo taken from Cardigan Bridge by the Annie T. McKee this year, the last trip being made in the remarkably fast time of fourteen days.

LETTERS TO THE EDITOR.

A Protest.

SIR,—I think the time has come for the people of Charlottetown to rise in indignation and demand their rights. For some months past we have been patiently waiting till an arrangement should be arrived at between the City Council and the Water Commissioners, or the Fire Department and the "South End Boating Club," by which the dust nuisance should be abated, but at present we seem as far from realizing this luxury as ever. Householders and taxpayers living in all parts of the town, were led to believe, before voting for the construction of waterworks, that the water should be used for this purpose so long as there was enough and to spare; but, for some hidden reason or mysterious cause, we are still forced to put up with clouds of sand and dust, while there are thousands of gallons of water at every corner. The only attempt made by the authorities to remedy this evil is with a one-horse water-cart, which is expected to start out as soon as the dust begins to blow. We understand the Commissioners refuse to allow the hydrants to be used for laying dust, giving as their reason that hydrants are not used for that purpose in any other town. This may be a very good reason for the Commissioners, but it won't suit the people who elected them to office and pay them for their work while there. If other cities can afford to keep a complete water service for their streets separate from their fire apparatus, Charlottetown can; so the sooner we get things straightened out the better for all concerned.

We understand that the Council are willing to appoint men, who shall be approved by the Commissioners, to work the hydrants once or twice a day, if necessary; and as 1200 feet of street can be easily watered from each hydrant, why in all reason is not this plan adopted?

We are very much mistaken if the citizens will stand this order of things much longer, as persons living away from the business centre of the town have as much right to have the dust laid in the vicinity of their private residences as any other. Do, Mr. Editor, use your best endeavors, to smash up this confounded system of red-tapeism, or whatever else it is, that is so severely affecting the welfare of the community.

We only want what we pay for, and are going to try and have it.

TAXPAYER.

Local and Other Items.

ATTENTION!—If you desire a fine head of hair of a natural hue and free from dandruff, Hall's Hair Renewer is the best and safest preparation to accomplish it.

A RISE IN SUGAR.—The Halifax sugar refinery advanced the prices on Tuesday 1/2 a cent. They now are: granulated, 93; 75c. y. c. 74 extra c; 74 standard extra c; in 100 barrels and upwards.

ST. PAUL ENGLISH.—St. Paul Pioneer Press.—Managing editor to new reporter: "See here, Whiffles, we never use the word 'skipped' in our paper." Whiffles: "Well, what term would be the best?" M. E.: "Say he 'skinned out.'"

SAVED.—A fine family of children were all afflicted with scrofula. Two died early, the rest would soon have followed, but for the timely and persevering use of Ayer's Sarsaparilla, which built them up into a healthy and vigorous household.

THEY SAW IT.—A telegram from Guysboro to the Halifax Chronicle says: A huge sea serpent was seen here to-day by a party of lady tourists, who were out on a boating excursion. The monster chased the boat for some distance, but by great exertions the occupants succeeded in gaining the shore.

THE MODERN IDEA.—Mrs. Younghusband—Oh, Charlie, the cook got angry this morning and left, bag and baggage. What are we going to do? Mr. Younghusband—Why, my love, I thought you attended a cooking school for seven months? Mrs. Younghusband—So I did, dear, but that was merely to learn cooking as an accomplishment!

MR. W. W. CLARKE has been offered and has accepted the agency in this city and district of the London Masonic Mutual Benefit Association, the only Canadian institution doing business amongst the Masonic fraternity throughout the Dominion. The general agent, Mr. E. C. Davies, attended the Grand Lodge here and reports very favorably on his visit amongst us. Class B is graded, and the payments are filled in such a way as not to press heavily upon the insured. Give Mr. Clarke a call; he has already begun to write applications.

NOT OLD ENOUGH.—A woman at Seranton, Pa., whose son had a toothache, took him to a faith healer. "Look at me in the eyes," said the doctor, fixing a fascinating gaze on the weeping youth. "Now your toothache has entirely disappeared. You haven't a bit of toothache about you." "You lie! I have," yelled the boy, with a fresh howl. The mother then took him to a dentist. She says christian science is intended for older people, who can grasp it.

SPECIAL PERSONAL AFFLICTION.—There was an interesting discussion in the Methodist conference yesterday afternoon, over the contingent fund item of \$173, claimed on account of special personal affliction. It appears that one brother who received \$40 funeral expenses on account of his wife's death also presented through his wife's claim for \$73 on the ground of special personal affliction. This brother has what may be termed a fat circuit, and the presentation of the last mentioned claim raised a storm. One earnest brother declared that there should be discrimination in this matter. A poor man's claim should be recognized but for men worth perhaps thousands of dollars, to come to the conference and "plead for money to soothe their lacerated feelings," did not strike him as good form. The item was referred back to the committee.—St. John Sun.

EASTERN ASSURANCE CO. OF CANADA.—Messrs. John Doull, President, and Charles D. Cory, Secretary of above company, have arrived here for the purpose of placing the portion of stock allotted to Prince Edward Island. The above company is incorporated by a special Act of the Dominion Parliament, and has an authorized capital of one million dollars, of which some eight hundred thousand has been already subscribed for by the leading merchants, manufacturers and capitalists in Nova Scotia and New Brunswick. This is the only Fire Insurance Company chartered by the Dominion Government, having head office in the Maritime Provinces, out of which very large sums are annually sent for Fire Insurance Premiums, after paying losses and agency expenses. The idea of the promoters is to keep at home for investment a portion of this money, and to build up in our midst a strong Fire Insurance Office, which, in time, will take front rank among the financial institutions of Canada. The promoters have our best wishes for their entire success, which, with such a stock list, seems already assured.

News Notes.

The Vienna Bourse is in a weak and agitated state, although there have been no symptoms of panic.

The kangaroo is in danger of being exterminated. Its skin is so valuable that large numbers of young kangaroos are killed, and high authorities are of the opinion that, unless the process is stopped, Australians will soon have seen the last specimen of this interesting animal.

Of Cartier's three vessels, the total tonnage is said not to have exceeded 220, thus distributed: Grande Hermine, 120 tons; Petite Hermine, 60, and Emerillon, 40. What mere cockboats compared with the mighty floating palaces and storehouses that now plough the oceans of the world! They have, however, a name in history which the proudest of our modern argosies might envy.

The London Standard's Vienna despatch says the Emperor Francis Joseph, speaking individually to the delegation recently, said the public and press view the foreign situation in a far more disquieting light than facts warrant either in Roumania or Servia, where good immediate prospects of peace exist. A special despatch from Vienna says Emperor Francis Joseph, after his speech to the delegations, talked individually with members personally known to him. To Deputy Demel he said: "We must not dwell too much on pessimistic views after all." Notwithstanding these efforts of the Emperor to qualify his speech the effect has been unfortunate, and depression continues to prevail at all financial centres.
