

Baby Literature.

SHE NEVER LEAVES HIM.—Look at the career of a man as he passes through the world; at man visited by misfortune!

COURTESY.—A lover should be treated with the same gentleness as a new glove. The young lady should pull him on with the utmost tenderness at first.

EARLY RISING.—There is no time equal in beauty and freshness to the morning, when Nature has just parted with the gloomy mantle which night had flung over her.

Many young ladies lose the chances of marrying men of true worth because of their extravagant ideas in regard to an establishment. Any man of common prudence will hesitate about marrying a woman whose conversation betrays a foolish love of dress and showy furniture.

During a thunder storm, a little girl, not three years old, said "O mamma! somebody shooting!" Her mother took her upon her lap and explained the cause of the noise which attracted her attention.

Some one praising the conjugal peace enjoyed by a gentleman in the neighborhood, who had not had even an argument with his wife for more than thirty years, appealed to Paley whether it were not admirable as a domestic example.

LONG SINCE.—A lady who was very modest and submissive before marriage was observed by a friend to use her tongue pretty freely afterwards.

Sergeant Cockle, a rough blustering fellow, once got from a witness more than he gave. In a trial of the right of fishery he asked a witness, "do you like fish?"

A teacher of vocal music asked an old lady if her grandson had any ear for music "Wal! said the old woman "I really don't know, wout you take the candle and see?"

A lady was seen intently gazing upon a piece of brocaded silk displayed in a window. A passer-by observed that it was Satan tempting Eve.

Why is William, while suffering from corporeal punishment, like a certain spring bird?—He is whipped, poor Will, (whip-poor-will).

"Is't there an awfully strong smell of pigs in the air?" asked Smith of Jones. "Yes" replied Jones, "that's because the wind's from the south-west."

A FORTUNE IN A WIFE.—There is said to be a lady in London the tones of whose voice are so silvery that her words pass for shillings.

Patience is good, but perseverance is better. While the former stands as a stoic under difficulties, the latter whips them out of the ring.

Who lives to nature rarely can be poor who lives to fancy, never can be rich.

How all of us would hate and despise the man who should misuse our gifts as we misuse those of heaven.

The man that forgets a great deal that has happened has a better memory than he who remembers a great deal that never happened.

Courage consists, not in blindly overlooking danger but in seeing it and conquering it.

"I'm a 'ticer friend to you," as the snuff said to the nose.

"You'll put me out of temper" as the knife said to the obstinate oyster.

Why is an oil speculation like a hurricane?—Because it is a great blow and nothing to show.

What is the difference between a hen and an idle musician?—One lays at pleasure and the other plays at leisure.

Why is a rooster standing on a fence like a silver half dollar? Because it has a head on one side and a tail on the other.

Agricultural.

TOBACCO FOR LICE ON ANIMALS AND PLANTS.

A correspondent writes to the Country Gentleman on this subject as follows:— MESSRS. EDITORS,—In your paper of April 4th, a correspondent writes, "What is the best method of killing lice on calves and cattle, and will the same thing kill fleas on dogs?"

I have found by experience that a strong decoction of tobacco will destroy vermin on either animals or plants. I have used it extensively during many years, for destroying ticks on sheep and lambs; have dipped thousands of them in tobacco water, made by boiling coarse, damaged, cheap tobacco, or stems and waste, in water, and have found it an effectual cure for the scab, which disease is caused by the working of an insect or mite in the skin of the sheep. It is a new sovereign remedy for the blue lice on cattle and horses.

Tobacco water will destroy the aphids, or plant louse. Gardeners find their greenhouse plants need to be submitted to a deluging of this wash occasionally, to place them in a condition to become healthy and vigorous. When applied to fruit trees, if coarse waste tobacco is used, add one pound of coppers to five gallons of the wash. Plug tobacco contains coppers in quantities sufficient to kill any animal, who has not accustomed himself, by slow degrees, to its use.

Almost every tree or plant is infested with an injurious insect, peculiar to itself, which preys upon its substance, and will, if in sufficient numbers, destroy its vitality. The hop, in sections infested with the hop aphid, is frequently either wholly or partially destroyed; when, by one or two thorough applications of tobacco water, by means of a force pump or garden engine, as they commence their work, the whole aphid army might be swept away. When the vine is trained low, upon seven feet stakes and twine, a garden engine is unnecessary, as the wash can be applied as effectually, and with less waste, with a common large hand syringe.

Tobacco smoke will stupify any animal, and, used in a sufficient quantity, has a fatal effect upon all which plug tobacco will destroy. Indeed there seems to be but one animal—the chief of the class mammalia—upon which tobacco, in either shape, does not have an immediate fatal effect. However, if that animal would trichinosis be infested with insects, even trichinosis in their nature, in the mouth, tobacco will keep them away. Perhaps that is their case.

If a sheep or calf is covered with a rubber or leather spread, or thick blanket, and a smoke of tobacco is made under this covering, in half an hour or less every tick and nit will be destroyed. Curant worms may be served in the same manner. This is not only an effective remedy against vermin, but a good use for a most obnoxious weed.

TO KEEP TIRES ON WHEELS.—Hear a practical man on this subject:—I ironed a wagon some years ago for my own use; before putting on the tires I filled the felloes with linseed oil; and the tires have worn out and were never loose. My method is as follows: I use a long cast-iron heater, made for the purpose, the oil is brought to a boiling heat, the wheel is placed on a stick so as to hang up the oil, each felloe an hour. The timber should be dry, as green timber will not take oil. Care should be taken that the oil is not made hotter than a boiling heat, or the timber will be burned. Timber filled with oil is not susceptible to injury by water, and is rendered much more durable by this process.—Prairie Farmer.

PRINCE COUNTY Grammar School. THIS Institution will be re-opened after the Midsummer holidays, on MONDAY, the 5th day of August next. Parents desirous of giving their children a good education would do well to avail themselves of the facilities afforded. In addition to the ordinary branches of English education, instructions are given in the Greek, Latin and French Languages, Mathematics, &c. As it might be considered not in good taste on the part of a teacher to say anything in favor of his method of imparting instruction, I submit the following letter for publication from a gentleman who has several times visited my School, and who is well known in the community.

ALEX. McRAE, Master, Summerside, Aug. 9, 1867. My Dear Sir,—I am about removing my two sons from the Grammar School, at Summerside. I cannot, however, do so without expressing to you my satisfaction at the progress they have made while under your care. Having had several opportunities of hearing lessons taught at your School, I consider the system good, and I sincerely hope it may long prosper under your very efficient management. I remain, dear Sir, Yours, very truly, JAMES WALLBURN, Colonial Treasurer.

SAWS, SAWS!! SAWS!!! SAWS of the best quality, and at the following Cash prices, always on hand at the manufacture of the subscribers:—

A. RICHARDSON & Co. St. John, N.B. April 11, 1867.

Blanks of all kinds for sale at the "Journal" Office.

Mrs. S. A. Allen's PREPARATIONS FOR THE HAIR.

Mrs. S. A. Allen's WORLD'S HAIR RESTORER is suited to both young and old. It strengthens the Hair, prevents its falling or turning grey, and imparts to it a beautiful glossy appearance. It never fails to restore GREY HAIR TO ITS ORIGINAL YOUTHFUL COLOR.

The Restorer Reproduces and the Hair Dressing Cultivates and Beautifies. Principal Sales Office, 198 Greenwich Street, New York City. August 1, 1867.

Mrs. S. A. Allen's WORLD'S HAIR DRESSING, or ZYGLOBALSAMUM, is essential to use with the Restorer, but the Hair Dressing alone often restores, and never fails to invigorate, beautify and refresh the Hair, rendering it soft, silky and glossy, and disposing it to remain in any desired position.

FOR LADIES AND CHILDREN, whose Hair requires frequent dressing, it has no equal. No lady's toilet is complete without it. The rich glossy appearance imparted is truly wonderful. It cleanses the Hair, removes all dandruff, and imparts to it a most delightful fragrance. It will prevent the Hair from falling out, and is the most economical and valuable Hair Dressing known. Millions of bottles sold every year.

New Triumphs of Roger's Medicines.

Run your eye over them and tell your afflicted neighbor about it. PARRSBOROUGH, CUMBERLAND CO., JUNE 22, 1863. MESSRS. ROGERS & Co.:

Gentlemen—I heroby certify that about twelve years ago, a small lump began to grow on my breast, and continued growing until 1859. It attained the size of a small hen's egg, and began to ulcerate, causing great pain, and reducing my body to a mere skeleton, rendering me altogether unable to do my work. I applied to the two resident doctors at Pugwash (where I then resided), both of whom recommended a surgical operation. Feeling reluctant to undergo the suffering of such an operation, I applied to a man who called himself an H.-S. Doctor. I used his plasters until I became satisfied that they were of no use to me. I then applied to and procured some of your medicine to take inwardly. After a few months trial, I began to get better, and the ulcer on my breast commenced healing so fast that in seven months from the time I commenced using your Ointment and medicine, I was enabled to attend to my ordinary occupation; and now I am happy to say I am hearty and well. I have no hesitation in saying that, under God, I owe my present state of health to your treatment. If this simple statement will be of any service to you, you are at liberty to make it public, as every word of it can be vouched for by those who know how I suffered. I remain your much obliged servant,

ANGUS MCGILVERLY, Master Shipwright. WALLACE RIVER, Cumberland Co., May 20, 1863.

Messrs. ROGERS & Co. I feel it a duty I owe to you, and to suffering humanity, to state that your medicine has effected a cure of a very severe case of Cancer in the breast of my wife. The cancer began to appear about five years ago, and continued to grow slowly, and during last January it began to grow very rapidly, with darting pains through it. We concluded to try your medicine, and in a few days pain subsided and it began to improve. This was about the first of last February and now I am happy to say that she is entirely cured. After using your medicine a few days the cancer ulcerated, and it continued to improve until it was cured. You ought certainly to make your medicine known to the public.

W. I. ANGEVINE. Pugwash, June 8, 1863.

Messrs. ROGERS & Co., Dear Sirs—I beg to inform you that your medicine has effected a complete cure of the Tumour or Cancer on my lip. It had existed about one year, and continued to grow worse continually, until I got your salve; which cured it in about six weeks.

I was also troubled with an ulcer on my ear which was occasioned by having my ear frozen about twenty years ago, and could never get any medicine to heal it. The doctors told me it never could be healed but your medicine cured the cancer so effectually, that I was induced to try it on my ear, and it cured it in a very short time, and has since continued well.

WILLIAM FRASER.

MRS. WINSLOW, An experienced Nurse and Female Physician presents to the attention of mothers, her SOOTHING SYRUP, FOR CHILDREN TEETHING.

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain and spasmodic action, and is SURE TO EGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and Relief and Health to your Infants.

We have put up and sold this article for over thirty years, and can say, in confidence and truth of it, what we have never been able to say of any other medicine—never has it failed in a single instance, to effect a cure, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this manner "what we do know," after thirty years' experience, and pledge our reputation for the fulfillment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescriptions of one of the most experienced and skillful nurses in New England, and has been used with never failing success in thousands of cases. It not only relieves the child from pain but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the best and sweetest remedy in the world, in all cases of Dysentery and Diarrhea in Children, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prejudices, nor the prejudices of others, stand between your suffering child and the relief that will be sure—yes, absolutely sure—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None Genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by Druggists throughout the world. Principal Office, No. 48 Dey Street, N. Y. Price, only 35 Cents per Bottle.
