

Bilingualism, Myth or Reality

PRESIDENT, STUDENT UNION
UNIVERSITY OF P.E.I.

Dear Madame:

From May 4 to 8 a conference on "Bilingualism in Atlantic Canada: Myth or Reality" will be held at the Universite de Moncton. This is a project of ten students from Mount Allison University and the U.de Moncton, working as a student Christian Movement group.

We are planning for approximately sixty delegates with an even number of anglephones and francophones. We hope that you will distribute these application folders among interested students so that the University of Prince Edward Island will be represented. We are extending an invitation to all Atlantic universities.

The delegates to the Conference will enter a study,

guided by experienced and informed people, of the bilingualism situation in Atlantic Canada, which will encompass the historical, legal, socio-economical and educational aspects. The implications of Maritime Union for the Acadians will be discussed on the final day.

A cultural program will be an important part of the conference with singers, theatre, and "La Soiree Acadienne".

We hope that these activities will provide the opportunity for respective cultural groups to practice the languages and to come to a clearer understanding of the difference in life philosophies. With this understanding, the fear associated with Bilingualism will diminish and, hopefully, disappear.

More reading material will be sent to the delegates upon receipt of the application form. Each participant

and ten dollars for registration. Preparation by reading and discussing ideas is encouraged. The conference is being financed by a Social Actions Grant from the Secretary of State and private donations.

We ask your serious consideration of this project.

Yours truly,
Marylea MacDonald

Registration forms are available in the Student Union Office, Basement of Memorial Hall, for anyone interested in this conference.
