By Genevieve Kemble

For Tomorrow

IT is probable that some illicit, complicated or involved situation, based on bad judgment of alliances in the first place, could be brought to a satisfactory finale by some honest and forthright "getting down to cases" if these be directed into the right quarters.

If It Is Your Birthday

Those whose birthday it is, may have a situation calling for clear, honest and strategic thinking in order to bring treachery into the open. At that the mentality may be shrewd, but dubious and impetuous rather than based on logic or rationalization.

DR. WILLIAMS' PINK PILLS

Modern Etiquette

By Roberta Lee

Q. Is it all right for the guest who wins a bridge prize to open it immediately and display it to the other guests?

A. It is not only all right, but it is required. It would be an act of rudeness to your hostess if you refrained from opening the prize she has offered.

Q. Is it all right for one to address one's dentist as "Mr. Black," or should it always be "Dr. Black"?

A. The dental surgeon is perfectly entitled to be addressed as "Doctor," and it would be a lack of courtesy to address him as "Mr."

Q. When a man arrives fifteen minutes late at a dinner party, after the other guests have begun to eat, should all the men rise to greet him?

A. No. It is necessary that the host and hostess rise, but it would be too confusing for all the men to do so.

Strange But True

In so far as the Supreme Court of Canada is concerned, the word health is only a relative term. Being in good health does not necessarily mean that a person is absolutely free from every kind of ailment.

ELLEN'S DIARY

Coming to our round these mornings, it is to exclaim over the continuing fine unseasonable weather, which instead of Winter's own brand, is a foretaste of Spring. Mild and lovely. It may be calm, wrapped about in a delightful silence wherein every twig and branch is suspended silently, or with a light breeze of day already stealing in from the hills.

AMPHETAMINE SUCCESSFUL IN TREATMENT OF BARBITURATE INTOXICATION

Among the greatest drugs of modern times are the barbitol or barbiturate drugs. While their particular use is as a sedative, sleeping or quieting drug, they have revolutionized the treatment of epilepsy. Formerly, watching the diet and the use of bromine was the treatment used, but unfortunately bromides do not control attacks of epilepsy.

DOROTHY DIX SAYS—

Learning To Cook

Anyone Who Can Read Can Master Essential Skill

DEAR MISS DIX: Can you tell me where I can go to learn to cook? My mother is a good cook, but she never taught me. Always said that I had to and that she didn't know how to cook when she married. Now I am married and I am ashamed of the kind of food that I give my husband. I want to learn how to cook and make him comfortable. How can I do it? A BRIDE

ANSWER: Buy a cook book and follow directions. Read the newspapers. Almost every one of them runs a culinary department that tells not only how to prepare food, but also how to buy it, and that is invaluable to every housekeeper.

Any woman who can read and has even ordinary intelligence can make herself an expert cook in three months if she is determined to do it. There is nothing esoteric about cooking. It is an exact science. The women who are always hoping that their bread will be light, or that their cake won't fall, or that their meat won't be overdone or underdone are just cooks who are too careless or too ignorant or too lazy to have ever taken the trouble to master their profession.

The best cook I know is a woman who went from the schoolroom into business, and who had hardly ever had her foot in a kitchen until she married at middle age. Her husband was a man who was busy way of being an epicure, and so she set herself to learn how to please his fastidious taste. Today her dinners are famous. You are quite right in realizing the importance of learning how to cook, because your happiness and the success of your marriage depend more upon that than upon any other one thing. The best recipe ever given for holding a husband's love is the old one: "Feed the brute."

DEAR MISS DIX: I am engaged to a young man and we are to be married next month if I do not decide to break the engagement. Here is the trouble: He says he cares for no one but me, but he is constantly petting other girls, regardless of who it is or where we are. He has to put his arms around every girl he meets. When I get peeved over this he says he doesn't mean a thing by it, it is just a habit of which he can't break himself. What chance of happiness do you think I will have married to a man like this? UNDECIDED

ANSWER: None at all unless you are able to take a much more philosophical view of a husband's philandering than most wives seem able to attain. Unfortunately women are monopolists by nature and want to keep their husbands' caresses for themselves alone.

There are some men who never can concentrate their affections on any one woman. While this promiscuous petting probably doesn't really mean anything serious, it shows the wife just where she stands. She is also just one among many and, in reality, he cares no more for her than he does for Sally or Mary or Jane. And it also shows exactly how far his wife could trust him and how faithful he will be to her, which would be just as long as there was no other skirt on the horizon.

The man with the petting habit is a bad bet for a husband, and the worst of it is that it is pretty sure to grow on him after marriage. DEAR MISS DIX: What is a person to do when a friend comes to visit her and brings along children who wreck the house? Before my guest arrived I locked everything lockable and hid everything hideable. I gave the child toys galore to play with, but did these amuse her? Not at all. She took the cushions off the davenport, wrecked my house flowers, mused my best dress, pounded the piano, burned the rug, stood up in her chair at the table and reached across and filled her plate with the entire contents of a dish. And all that her mother said was: "Oh darling! What on earth is a hostess to do with such guests?" MRS. B. W.

ANSWER: The only thing you can do is simply to bar the door against them. DOROTHY DIX cannot personally reply to readers, but will answer letters of general interest through her column.
