

THE DAILY EXAMINER

AUGUST 31, 1895.

MR. LAURIER AND THE SCHOOL QUESTION.

The result of the Westmorland election and the evidence it affords that little or nothing in the way of political capital is to be made out of the Manitoba question, has apparently influenced Mr. Laurier to take a more decided stand in respect to the school difficulty than he has heretofore done.

A few days ago, in reply to a question, he is reported to have said that his views "as leader of the party on the school question were not represented by Mr. Joseph Martin, and that he would support the Government's policy if favorable to the Catholic minority." It is stated that a citizen present asked Mr. Laurier whether, in case the Bowell government brought in a remedial legislation bill at the approaching session, Mr. Laurier would support the measure.

Mr. Laurier, "I will support it." Mr. Laurier continued by saying that "as a Catholic and a French Canadian he could not do otherwise than give to the Catholics of Manitoba the same justice that the Catholics of Quebec gave the Protestant minority in that Province." This, as the St. John Sun remarks, does not quite tally with Mr. Laurier's position as stated at Salisbury by Mr. Davies, who declared that Mr. Laurier was opposed to the coercion of Manitoba. It is, however, significant as an early settlement of the difficulty—that is unless McCarthy and Martin and Davies should withdraw their allegiance from the Liberal Leader and persuade the Greenway Government to keep the question open.

But such a course, in defiance of the terms of the law as stated in the decision and order of the Privy Council, under the hand of our Queen, and contrary to the peace and quietude of the whole country as well as to the dictates of justice and Christianity, will not probably be pursued. If Mr. Laurier will but adhere to his latest position like a man, his party will stand by him. Both parties, then, will unite to protect the guaranteed rights of the minority in Manitoba in the way prescribed by the Constitution and pointed out by the judicial committee of the Privy Council.

In this situation Mr. Greenway and his supporters will naturally be inclined to listen to reason and comply with the law governing the Province in respect to schools. A reasonable proposition will then be made and accepted, and the vexed question will be settled. We have no doubt that the question would have been settled ere this but for the seeming prospect that Mr. Laurier might, by assuming a non-committal attitude, in the meantime attain to office and win a lease of power for his party. But that prospect is now dashed. The position hitherto occupied by Mr. Laurier in respect to the Manitoba question is seen to be contemptible. It has had the effect of lowering Mr. Laurier in the estimation of both Protestants and Catholics. There is nothing to be gained by it, and Mr. Laurier has, if the report be true, withdrawn from it. The prospect of a peaceable and satisfactory settlement of the Manitoba question is decidedly brighter than it has been.

THE COMMANDER-IN-CHIEF.

It has been explained that the new commander-in-chief of the British army will be responsible for the commissions, promotions, honors, etc., and also for the military formation, distribution and mobilization of the force. He will be the principal officer of the Secretary of State for War, and will give general, as distinct from departmental, advice upon all questions affecting the military policy of the country. The Commander-in-Chief, with the other heads of the departments, will act as a board to discuss matters referred to it by the Secretary of State for War, and promotions and appointments above the rank of major will always be submitted to the board. The Commander-in-Chief will perform the duties of Chief of Staff, or they will be performed under his direction.

ENCOURAGING.

The prospects of the proposed Central Creamery and Cold Storage Company are brighter than its promoters anticipated. We learn that a member of the Committee received this morning, unsolicited, an offer for stock to the amount of one thousand dollars from one gentleman and two hundred and fifty dollars each from two others. It seems that in view of a good investment, beneficial alike to investors and the country, there is no lack of money. We have little doubt that the promoters of the Central Creamery and Cold Storage Company will be successful. They have taken hold of the matter in a business like way.

THE DOCTORS AGREE.

The physicians of Canada are fraternizing at Kingston, Ontario, where a meeting of the Canadian Medical Association is being held. It is noteworthy that an octogenarian, Dr. Bayard, of St. John, is the presiding officer, and that in the course of his opening address he denounced alcohol, Sir James Grant, also, assailed alcohol as a curse. More than that, he "maintains that excessive education is damaging the race." Dr. B. Mackenzie declared for physical training, and Dr. Sayre said a nation depended on its physical condition, and this should be systematically fostered.

At Edmonton a few days ago Sir McKenzie

Bowell expressed himself surprised at the progress shown by the Indian pupils and farmers and the general excellence of the country. Certain intelligence and aptitude displayed by the Indian children of the Northwest is wonderful.

We have a few more of that celebrated flannellette

shirts at 20c each. Get one at J. B. Macdonald & Co's.

PUBLICLY THANKED.

We notice by the Moncton Times which came to hand this morning that at Dorchester on election day Mr. Powell, the member elect, took occasion to thank Mr. Davies and Mr. Fielding for the service they had rendered him in the late contest. Mr. Powell said "The returns showed increased majorities for the Conservatives in the districts where Davies and Fielding had spoken, and thought if they could only have spoken a few more times in the county his majority would have been 2,000 instead of nearly 800." Grouping all the liberal speakers together he said he hoped that "the same success which attended their efforts in the past would attend their visits to this country in the future." Mr. Killam, the opposition candidate, also spoke. He did not thank either Mr. Davies or Mr. Fielding!

NOTES AND COMMENTS.

In accordance with the policy of the Government, for some years past, the Dominion Savings Bank has been transferred to the Post Office Department, and will be conducted as a Post Office Savings Bank.

Through the efforts of Dr. Jenkins a new post office is to be established at St. Patrick's, with Mr. John Goodman as postmaster. This is a want long felt in the community, and Dr. Jenkins is to be congratulated on the success of his efforts on behalf of the people.

The Government of Quebec has dealt generously with agriculture, that being about the only branch of the public service in which the appropriations have escaped the pruning knife. The Montreal Gazette reports that the results accomplished appear to fully justify the expenditure, the farmers of Quebec having made marvellous progress in methods and diversification of agricultural pursuits in recent years. But the Government of P. E. I. land—what has it done for agriculture.

The Financial District Meeting was held at Charlottetown on Wednesday, Aug. 28. Rev. G. M. Campbell, Chairman of the District, presided. Under the head of Miscellaneous Business the following resolutions were passed unanimously: 1. That Rev. G. M. Campbell, H. R. Baker, M. A., W. Lawson, W. J. Kirby, B. A. and A. D. McLeod be a committee to arrange for a District Sunday School "Rally" in connection with the ensuing Provincial S. S. Convention.

Visits from Revs. Dr. Lucas and John Head were very cordially received, and their brief addresses were listened to with interest.

GENERAL TELEGRAPHIC NEWS.

OTTAWA, Aug. 29.—The charge of piracy against Labrador fishermen has been clearly proven. Report says that they not only robbed the wreck of her cargo and provisions, but unbut her sails and looted the officers' effects, including nautical instruments.

LONDON, August 29.—In the House of Commons today Joseph Chamberlain, secretary of state for the colonies, introduced a bill for the removal of any doubts as to the validity of the act establishing the Dominion of Canada. It was explained, and that the bill was merely a formal measure which was introduced at the request of the Dominion Government. Bill passed its first reading.

OTTAWA, August 29.—The separate school difficulty is over for the present, and the schools will be opened on Tuesday next by the Christian Brothers as a teaching staff. A meeting of the Separate School Board was held to-night, at which, after a good deal of discussion, the following resolution was carried by a vote of ten for to two against: "That, owing to the shortness of the time this board has had at its disposal to provide teachers for the boys of French schools, that the secretary is hereby authorized to notify the brother directors of Lasalle, St. Jean Baptiste and Brebeuf schools to open their respective classes on Tuesday, September 3rd, 1895, on the condition that they make such changes as to comply with the regulations of this board and of the province of Ontario by December 25th, 1895; and, if not complying with the above request, then ipso facto their services be in no case required after the scholastic year 1895-96."

MONTEAL, August 29.—A. V. Roy, French Canadian engineer, arrived home to-day from the Yukon country. He left Seattle May 7th and reached head waters of the Pelly and Yukon rivers by Chilkoot Pass, going through Alaska from east to west, sailing down Yukon river two thousand miles to St. Michaels, and back via Seattle. Roy says that 600 miners entered the country this year, but not more than 100 winter there. The miners get \$10 per day but only work sixty days in the year, and the result is that the saloons at the mines, where whiskey is sold at \$1 per glass, get all the gold. We came down the Yukon—2,000 miles in the snow, on a steamer drawing three feet of water.

LONDON, August 29.—In the house of commons to-day, Sir J. Kennaway, asked what information the government had in regard to the reported appointment of Lin Ping Chang as Chinese high commissioner to investigate the circumstances of Cheng Tu outrages. George N. Curzon, under foreign secretary, said the government had received no information that Lin Ping Chang had been appointed as alleged. The report of his appointment, he said, does not appear to be true.

PHILADELPHIA, Aug. 29.—The news from Indianapolis that the supposed body of young Howard Peitzel, the only unaccounted for link in the mass of evidence that is expected to prove a series of murders, had been located in a chimney in a house in the suburbs of the city was conveyed to Holmes in his cell by his attorney this afternoon. The latter had a long conference with the attorney in relation to this new phase in the case and states that Holmes did not waver in his claim that Howard Peitzel had been left in the care of Hatch and Minnie Williams on October 10th last. The lawyer says his client is now so accustomed to hearing of startling developments in the famous case and has been frequently accused of being a skeptic that it would have been of no special importance for him to have committed the finding of a few human bones has not the slightest effect upon him. Mr. Shoemaker will take no steps in the near future until the prosecution makes a move.

BOSTON, Aug. 29.—To-day's session of the Knights Templar grand encampment opened this morning at 10 o'clock in the Masonic Temple. The business of meeting officers was begun at once by Right Eminent Sir Warren LaRue Thomas of Marysville, Ky., received 297 votes out of 301 for the office of the grand master. He was declared elected amid tumultuous applause, and he feelingly thanked his fellow Knights for the honor.

At the close of Grand Master Thomas' address it was announced that the committee on time and place had reported in favor of Pittsburgh, Pa., as the place for the convocation of 1898. Their action was unanimously ratified, and the time agreed upon is the second Tuesday in October.
