BIT OF A GAP

Veteran writer W. Arnot Craik turned out his first book of historical sketches about his native Port Hope in 1901. Now, 65 years later, the second, *Little Tales of Port Hope*, is ready. At 86, he still visits the office daily as honorary secretary-treasurer of the Canadian section of the Commonwealth Press Union. (CP Wirephoto)

Drug Maker Says Criticism Is Deliberate Mis-Statement

OTTAWA (CP) — A generic drug manufacturer says criticism of his firm by a brand-name competitor is a deliberate mis-statement of fact arising from fear of competition.

The generic manufacturer, Julius R. Gilbert of Jules R. Gilbert Ltd., Toronto, filed documents with the Common drug prices inquiry referring to submissions last October by Smith, Kline and French of Canada, Montreal, a branch-name manufacturer.

Generic manufacturers usually sell their products under the chemical or generic name of the drug. Brand-name manufacturers market a product under a brand name.

Mr. Gilbert was questioned at a committee meeting Tuesday about his submission.

Smith, Kline and French had charged that the Gilbert company and another drug firm sell the tranquillizer trifluoperazine with potency variations of such a nature that a patient may suddenly receive a 20-per-cent increase or decrease in dosage. It said prices were only slightly below those of Smith, Kline and French.

Mr. Gilbert's submission maintains that the Smith, Kline and French product is improperly labelled and that his company has received no report from the Federal food and drug directorate that the Gilbert product is either mislabelled or substandard.

Referring to the Smith, Kline and French statement about potency, Mr. Gilbert says "SKF has deliberately made a statement without basis in fact."

If any difference in potency exists, "it is because the SKF product is misbranded."

On price, Mr. Gilbert says the "SKF price is more than twice that of Gilbert."

His statement also says the Smith, Kline and French objection last October "is that we are able to market the product too soon for their competitive comfort."
