[SPECIAL DISPATCHES TO THE EXAMINER.]

THE RIEL REBELLION!

Settlers Flooding from the Country.

A Fearful Time Predicted for Col. Otter.

BURNING HOMESTEADS.

A Battle Imminent.

WINNIPEG, May 7. A despatch from Edmonton announces hostilities to the North and East in numerous bands. All the Indians west of Battleford are in war paint. The settlers have all fled.

John Watkins, Haw and Albert Harkness, both from Ontario, were killed by Big Bear's band about a week ago. Their wives, and the wives of two missionaries, are prisoners.

Scouts from the Northwest say Col. Otter will have a fearful time of it. Pound-maker, Little Child and the rest are on the war path. A number of half-breeds are directing them. There is a perfect panic in Eleanor district. Scores of homesteads have been burned.

It is stated that Captain Stewart, who is in command of 200 mounted Rangers, in Cypress Hills district, near the American frontier, has offered a reward of \$1,000 for the capture of Riel, if the latter should attempt to escape across the boundary.

OTTAWA, May 7. Capt. Palliser, of the Royal Navy, leaves Ottawa to-morrow for Fort Edmonton to take a position on the staff of Gen. Strange, in command of the troops there.

An official of the Interior Department who is acquainted with the condition of the country in the vicinity of Battleford, says that the scene of Saturday's fight was located in a sandy track where many small gullies which would afford excellent facilities for ambush prevail. A battle of Gen. Middleton's force with the half-breeds at Batoche is imminent.

THE RUSSIAN WAR.

War Preparations Continue.

A PEACEFUL AND HONORABLE SETTLEMENT EXPECTED.

ST. PETERSBURG, May 7.

There is no appearance here of any abatement in war-like preparations. The mobilizing of rifle battalions in Finland continue. It is reported here that Gen. Komaroff has instituted a municipal administration under his own supervision at Bulikhisti and Palmatun.

LONDON, May 7.

A despatch from Tirpud, dated 3rd, says: Floods due to bursting of dams, north of Saksha, seriously impeded the route to Marr. It is necessary to avoid checking in any way the confidence which Sir Peter Lumsden had inspired the Afghans, and to avoid lessening his influence over them. On Tuesday the Boundary Commission will march a few miles up the valley.

LONDON, May 7.

The progress of the negotiation between Earl Granville and Baron DeSael, tends to a simple declaration by Russia, that she is ready to submit to arbitration, failing concord in the interpretation of the convention of March 17th. The probability of actual reference to an arbitrator is remote.

MELBOURNE, May 7.

Negotiations have been opened with the admiralty at London, in reference to the formation of an Australian navy.

LONDON, May 7.

There seems little doubt but that a peaceful and honorable settlement of affairs will soon be concluded between England and Russia. The Russians deny that they ever intended to advance on Herat.

Weather Bulletin.

Probabilities for the next 24 hours for the Maritime Provinces.

TORONTO, May 8-10 a. m.

South-east and northeast winds, mostly cloudy, with occasional rains towards evening; stationary or lower temperature.

"First-Class Goods."

in which merit is at once recognized, are now, and always have been, imitated, especially the manufactured article. After years of labor, and the expenditure of a fortune, in perfecting and placing before the public that which people appreciate and demand, some one who never had an original idea offers a counterfeit or substitute to compete with the genuine. Curtis Davis & Co., makers of the "Welcome Soap," find the above true in their case at least, the excellence of whose productions are everywhere acknowledged as the "standard" of quality, being imitated in every way that competition can suggest. But in the use of their goods, the consumer realizes the full benefit of value received. Welcome Soap confirms and sustains the great reputation.

The brandy that is drunk nowadays, becomes, through the sophistries of strange vocabularies, *can de vie* and *agua vite*, it should rather be called *can de mort* and *agua mortis*.

Local and Other Items.

The Herald office, North Sydney, and five adjoining buildings were consumed by fire on Thursday morning.

The ladies who sold tickets for "Pinafore," will please account to the chairman or secretary, to-morrow.

VICTORIA LODGE, A. F. & A. M. will meet to-night at their Lodge Room, on Water St. for business, on the 1st and 2nd degrees.

A NEW lot of fresh clover, timothy, and mixed pasture seeds; also, garden and flower seeds, just in at R. K. Bruce's, warranted fresh.

At the Stipendiary Magistrate's Court, this forenoon, one drunk was disposed of, a Scott Act case was dismissed, and two others were adjourned.

A cow was gently feeding on the fresh grass of Queen Square, opposite the Provincial Building, at nine o'clock this morning—looked quite picturesque.

The steamer Carroll, Capt. Brown, sailed for Boston on Thursday evening with a cargo consisting of 329 drums of oil, 650 cases eggs, 7 barrels caustics, 12 barrels dextrine. She also had the following passengers:—Mary Callaghan, John Nicholson, Archibald Nicholson, Charles Hammersley, Mrs. Hammersley, John Connolly, J. W. Robertson, Michael Cullen.

OUR Sacrum was invaded lately by an aspiring spring-poet, and tempted by the balmy atmosphere which always prevails there, unburdened himself of the following "poem":

This is the time that poets sing
And write their verses on Early Spring;
But something more must yet be done
Before the summer time will come.

Our machine-poet being around, cruelly sat on the intruder into his department in the following lines:—

The fellow's whose ear is so out of gear
As to rhyme the word "d" with
"come,"
Should rightly steer from all verse-making
clear,
And not venture beyond a brass drum.

THE parade of militia and fire companies last evening was creditable to all concerned. It showed how willing the men are to assist in the praiseworthy work of encouraging those who have gone to the front, by helping the dear ones they left behind. A pleasant feature of the parade was the first appearance of the Salvage Corps in uniform. Their uniform is very pretty, consisting of navy blue cap and shirt and white pants, similar to man-of-war sailors. On each shirt breast, neatly worked in white silk, is the name of the corps, while the corp's silver badge is pinned on the left side. The caps are man-of-war sailor style, and bear the name of the corps in silver letters. Capt. Robins' suit is of blue doeskin, tastefully trimmed with gold lace, with cap to match. The corps is composed of smart and active young men. They presented a fine appearance last evening, and are no doubt a valuable addition to the fire department.

A NEW INVENTION.—Our ingenious friend Mr. Chrales Morrison, of Alberton, has invented a Goose Boat on the principle of a Russian torpedo. It is about 15 feet long, and differs from the ordinary goose boat in this respect that the propelling power is in the centre of the boat. The man sits in an upright position within a moveable box, which can be raised and lowered as necessity requires. The boat is very light of draught, but the principal feature of her construction, and chief recommendation to the hunter, is her torpedo build which enables the sportsman to sail entirely under water, leaving nothing above the surface but a small pipe to admit the air. Although we cannot but admire the ingenuity of the inventor, we must say that it is hardly dealing sportsmanlike with the birds.

HOTEL ARRIVALS.

OSBORNE HOUSE.

May 6.—J P McLaren and wife, Boston; Geo. Muttart, Summerside; John P. Breunan, St. John, N. B.; Henry Lee, do; P. McDougall, Rockland, N. S.; W. McDonald, Westville, N. S.; Jas. Williamson, do; Wm. McLeod, Boston; Bella McLeod, do; Mrs. Jas. Martin, do; Harry Wood, Summerside; A. Grady, Kensington; G. Anderson, do; J. W. Hughes, County Line; J. Johnston, Mill Vale; J. McLaughlin, Souris; A. J. in which merit is at once recognized, are now, and always have been, imitated, especially the manufactured article. After years of labor, and the expenditure of a fortune, in perfecting and placing before the public that which people appreciate and demand, some one who never had an original idea offers a counterfeit or substitute to compete with the genuine. Curtis Davis & Co., makers of the "Welcome Soap," find the above true in their case at least, the excellence of whose productions are everywhere acknowledged as the "standard" of quality, being imitated in every way that competition can suggest. But in the use of their goods, the consumer realizes the full benefit of value received. Welcome Soap confirms and sustains the great reputation.
