Following the reception the happy couple left amid showers of confetti for a short honeymoon trip through New Brunswick and Maine. Mr. and Mrs. Beaton will reside in Alexandria where the bride is engaged. Her groom is a member of the Women's Institute. Prior to her marriage the bride was given a shower by her girlfriends in Charlottetown at Mrs. Bill Garbun's. Another shower was given her by her friends and neighbours at North Rustico and she received many beautiful gifts. Again following their marriage the friends of Alexandra and Pownal met in Pownal hall where the bride's table was decorated with white and became the recipients of many more lovely gifts.

WINIFRED ANNE MacMILLAN

### Island Girl Tells Of Camp In Switzerland

Miss Winifred Anne Macmillan, daughter of Mr. and Mrs. A. H. Macmillan, has been kind enough to give us an account of her exceptional experience at a past summer in Switzerland. The following is Winifred Anne's graphic description. The one hundredth anniversary of the birth of Lord Baden-Powell of Gilwell, the founder of the Girl Guides, is being celebrated throughout the world during this year of 1957. Four World camps, held in the Philippines, England, Switzerland and Canada, were the outstanding marks of the Centennial year. I was most fortunate to be one of the forty Canadian Guides chosen to attend the camp in Switzerland. A total of one hundred Guides, Rangers, C.A.E.T.s, and Guides sailed from Montreal for the Empire of Britain for the two-week camp. We had a glorious five days on the boat and it was hard to realize that in another week we would be roughing it in the mountains. The facilities of the ship provided amply for the slightest whim of English and every passenger. There was a swimming pool (especially removed by the Martinis), orchestra dances, movies, horse racing, and a better known to the English as "chess-house". Our games which included shuffle-board, tennis, and tennis. As a group the Guides were taken on a tour of the whole ship which was a most interesting experience where we saw all the steering and radar equipment. The "chess-house" was a special dinner later in the evening and singing. A costume parade with the passengers' imaginative characteristics showed through. A group of Guides picked the favourite and the Captain was on hand to a ward the prizes. The Empress docked in Liverpool in the late afternoon and we took the night train to London. Here the groups going to the two camps split up and those going

to Switzerland went to Benham Hall which is part of London University. We had only six days in which to see all of London and our schedule was a bit crowded. We were allowed to break off into small groups for sight-seeing and shopping. Our tours included Buckingham Palace, Hyde Park, Westminster Abbey, the Parliament Buildings, St. Paul's, and the Tower, to mention only a few. On the occasions we saw London's night life, one at the theatre and the other at the Ballet Festival. Our only excursion outside of London was to Stratford-on-Avon where we were guests of the Stratford Guides for lunch. We saw Shakespeare's birthplace and the church where he was buried. In the afternoon the Mayor of Stratford received us all for afternoon tea. The greatest difference that we found in England were the money and the cars driving on the left of the streets. The sight-way was really wonderful. After a strenuous week of sight-seeing we crossed the English Channel on our way to Switzerland and spent one crowded night on the train. Our first
