THE NEW YORK TRIBUNE.

WEEKLY—ENLARGED.

ON the 14th of last April *THE DAILY TRIBUNE*, having completed its twelfth year, was enlarged more than one fourth, or to the size of *The London Times* making it considerably larger than any other cheap Daily published in this country or in the world. No change in price was made in consequence of this Enlargement—the paper being still afforded to Mail Subscribers at $8 per annum and sold to Carriers and to Agents ordering it by Express or Mail for distant sale at $1 50 for one hundred copies, or $15 per thousand copies, payable in advance. At these prices, our aggregate receipts for our entire Daily edition do not exceed the sums we pay for Paper and Ink, leaving all other expenses to be defrayed from our receipts for Advertising. In other words, we return to each purchaser of our paper from us, his money's worth in the naked sheet we send him, looking for the reward of our own labor and the heavy expenses of Telegraphing, Correspondence, Reporting, Composition, Printing, Mailing, Book-keeping, Rent, &c., to our Advertisers alone. We do not think it now possible to cheapen newspapers beyond this point; if it ever shall be hereafter, we intend to be even with the foremost in demonstrating the fact.

Our *SEMI-WEEKLY, EUROPEAN* and *CALIFORNIA* editions were enlarged simultaneously and equally with the Daily, and will go without any increase of price. We respectfully solicit a comparison of our Semi-Weekly at $3 per annum, [two copies sent a full year for $5, and ten copies for $20,] with any at or $3 that is published, and will cheerfully send copies for this purpose upon directive post-paid application.

THE NEW YORK WEEKLY TRIBUNE entered on its thirteenth year on the 3d of September, it was enlarged to the size of the Semi-Weekly and Daily, adding more than one-fourth to its capacity—also without increase of price. This Enlargement adds at least $20,000 per annum to our expenses, in addition to the previous cost of our Daily Enlargement already effected. All our subscribers from the 1st of September appeared in entirely new and beautiful type, prepared expressly for this paper. Our Steam Cylinder Presses are not surpassed by any in the world. Even though our Weekly Edition should be rapidly run up to 100,000 copies, we are prepared to print and mail every copy on the day (Thursday) that the form is put to press, without interrupting or retarding the regular issue of our three Daily editions, amounting to Twenty-odd Thousand copies. We stand ready to adopt any improvements, however expensive, which will enable us to disseminate intelligence more freshly and effectively, and shall especially hail, as we labor to effect a radical improvement in the celerity and reliability of the Mails.

THE TRIBUNE has not now its character to make or to proclaim. It has not been and never can be a mere party organ. It has supported the Whig party because the distinctive principles of that party appeared to favor the great ends which it has laboured to subserve; it never has advocated a measure because it was proposed or sustained by the Whig party. It holds itself at all times as free to condemn unsound principles, unwise measures or corrupt acts should the two former be propounded or the latter perpetrated by Whigs' as though they had emanated from the hostile camp. In so far as Peace, Liberty, Education, Temperance, Universal Enjoyment and Industrial Development may be subserved by acting with the Whig party, it must continue to be, as it has been, Whig.

Though never acting with any Abolition or other one-idea party, *THE TRIBUNE* is and must be the relentless foe of Human Slavery, as of whatever else tends to degrade Labor and to debase the intellectual and social development of any portion of mankind. Were it able to perceive that a vote in New-York could subserve Liberty in Virginia, it might attach itself to some one of the expressly Anti-Slavery parties: lacking that light, it declines to abandon the substances for the shadow of political good. But while it does not, its way is clear to avoid effective Political action against Slavery in the States which now cherish it, it regards the defeat of whatever effort to extend or perpetuate that accursed blot on our Union, or to obstruct by its power the progress of Abolition in other lands, as among the most urgent and sacred of public duties, not to be subordinated to any party consideration whatever. And while it does not propose to make Anti-Slavery the basis of Political action, other than defensive, it will neglect no opportunity, even in the Free States, to diffuse Light and Truth as to render the continuance of Slavery impossible in a land irradiated by the sun of Christianity and boasting itself the great exemplar of Political Justice and law-guarded Liberty.

For Temperance in all things, but especially the disuse of Intoxicating Beverages and the legal suppression of the Liquor Traffic, we shall struggle, as we have struggled, unflinchingly and untiringly. We regard the Maine Law as essentially the most beneficent statute of our day, and confidently hope to see it soon prevail universally.

The Congressional Reports and Washington Correspondence will, as heretofore, be both reliable and satisfactory.

The Markets for Grain, Cattle, Cotton and other products of the country, will receive proper attention, and be reliably reported in *THE TRIBUNE*.

On our correspondence with the most important points throughout the world we need not here dilate. Of the fact that our Associate, *BAYARD TAYLOR*, is now on the other side of the globe, sending us advices from the seat of war in China, and expecting soon to depart for our readers the physical, moral and social characteristics of [golong-gaufeed Japan, the public is already aware. He will probably return by way of Australia and California, in both of which we have several correspondents. Briefly—we shall spare no expense to keep our readers well advised on every subject of interest, and doubt not that the same generous measure of patronage hitherto accorded us will continue to repay us for our outlays.

Any friend who believes he will do good by increasing the circulation of *THE TRIBUNE* is authorised to solicit and receive subscriptions; and, on due proof, money has been and will be mailed and post-paid to our address, we take the responsibility of its safe transmission. Specimen Copies will promptly be sent without charge to those wishing to examine; and we trust many friends will be moved to ask their neighbours and acquaintances to join in making up a Club to commence with our Enlarged Sheet and New-Type on the first of September, or at any time thereafter.

A limited amount of space in the *WEEKLY TRIBUNE* will be appropriated to advertising.

GLEASON'S PICTORIAL.

ON the first of January next, *Gleason's Pictorial* will commence its *sixth volume*, and will appear vastly improved in every respect, with handsome new heading, new type and dress throughout, and will be printed upon the finest paper. As the proprietor of the *Pictorial* has purchased the entire good will of Barnum's New York *Illustrated News*. and has merged that journal in the *Pictorial*, the public will reap the advantage of this concentration of the strength of the two papers upon one, both in the artistic and the literary departments. The same brilliant host of contributors and artists will be engaged on *Gleason's Pictorial* as heretofore, and a large addition is also made to the corps, both in talent and number. The most liberal arrangements have been completed, and such as will enable the Proprietor to produce for the finest illustrated journal yet published, and much superior to the present issue of the paper. The columns of the *Pictorial* will be enriched by all that can please and instruct in art and nature, and its literary department will fully sustain the high reputation it has so long enjoyed.

The pages of *Gleason's Pictorial* will contain views of every populous city in the known world, of all buildings of note in the eastern or western hemisphere, of all the principal ships and steamers of the navy and merchant service; with fine and accurate portraits of every noted character in the world, both male and female. Sketches of beautiful scenery, taken from life, will also be given, with numerous specimens from the animal kingdom, the birds of the air, and the fish of the sea, and will present in its embellishments an elegant specimen of art. It will contain fifteen hundred and sixty-four square inches, giving a great amount of reading matter and illustration, and forming a mammoth weekly paper of sixteen octavo pages.

The Wonder of the World!

Devines' Compound Pitch Lozenge.

THE Great Remedy is at last discovered, and COUGHS, COLDS, ASTHMA. COSTIVENESS AND CONSUMPTION now lose their terror, and vanish as as if by magic before this Sovereign remedy. Was it ever before known that, *Hopeless cases of Consumption were cured for less than* $5? Truly, if any thing deserves to be prized, and needs sympathy, it is the Consumptive,—always expecting to get well, and yet the painful evidence of decay almost "makes the inner soul shrink within the outer flesh."

"Some bloom as roses bloom,
And live as roses live,
A single morning space!"

While others, in more mature life,—by some imprudence and a slight cold neglected,—in the hectic flush, the painful cough,

"The prints of their parting steps appear"

All we ask is this one request:—If you have got mucous membranes, or any other members of the body that are "heirs to ills,"—are you not interested in this *great remedy*, DEVINES' COMPOUND PITCH LOZENGE.

LIVER COMPLAINT,

DYSPEPSIA, JAUNDICE, CHRONIC OR NERVOUS DEBILITY, AND DISEASE OF THE KIDNEYS, AND ALL DISEASES ARISING FROM A DISORDERED LIVER OR STOMACH;

Such as Constipation, inward Piles, Fulness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Flattering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the sigh, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin & Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of evil, and Great Depression of Spirits, can be effectually cured by

DR HOOFLAND'S CELEBRATED GERMAN BITTERS,

Prepared by Dr. C. M. JACKSON, *No.* 120 *Arch street, Philadelphia.*

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skilful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and Stomach, they are among the most searching powers in weaknes and affections of the digestive organs, they are, withal, safe, certain and pleasant.

Read and be Convinced.

The "Philadelphia Saturday Gazette," says of Dr. Hoofland's German Bitters.

"It is seldom that we recommend what are termed Patent Medicines, to the confidence and patronage of our readers; and therefore when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after they have done their guilty work of gulling the dupe, but of medicines established, universally prized, and which has met the hearty approval of the faculty itself."

"Scott's Weekly," said, Aug. 25—

"Dr. Hoofland's German Bitters, manufactured by Dr. Jackson, are now extensively used by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon a weak system."

MORE EVIDENCE.

J. G. Moore, Esq., of the Daily News said, October 31st:—

"Dr. HOOFLAND'S GERMAN BITTERS.—We are trying the renowned medicine for a stubborn disease of the bowels, and can with truth testify to its efficacy. We have taken the contents of two bottles, and we have no doubt a perfect cure will from the experiment than we derived previously from years of allopathic treatment at the hands of our first physicians."

Hon. C. D. Hineline, Mayor of the City of Camden, N. J., says:

"HOOFLAND'S GERMAN BITTERS.—We have been using Bittersin one of this county, and the source from which they came induced us to make inquiry respecting its merits. From inquiry we were persuaded to use them. We have found it a specific in its action upon diseases of the liver and digestive organ, and the powerful influence it exerts upon nervous prostration, is really surprising. It allays pain and restores the nervous energy them into a state of repose, making sleep refreshing.

If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach, liver and nervous system, the great majority of real and imaginary diseases emanate. Have them in a healthy condition and you can bid defiance to epidemics and every form of disease. In medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family, as no other medicine can produce evidences of the same merit."

In this mammon-worshipping Age, it is rare to find a man place his usefulness to the public, before his interest. During a late visit to the City of Spindles, we were presented by a professional friend, to the celebrated Chemist, Dr. J. C. AYER, whose name is now perhaps familiar to every household as the bedside of sickness, in this country. Knowing the unprecedent popularity of his medicines, and the immense sales of which we expected to find him a millionare, and rolling in wealth. But no, we found him in his laboratory, busy with his laborers, among his crucibles, alembics, and retorts—giving his then personal care to the compounds, or by virtues of which, thousands hang for health. We learned, that notwithstanding his vast business, and its prompt remittance to him, the moment a dose is sold, he persists in making his preparations so expensively, that the nett profit is small.—*American Farmer, Phil.*

That the periodical press, representing so great a variety of religious and political opinion, should have so generally noticed them, and that too with high commendation, is a circumstance exceedingly rare, if not altogether unparalleled. They have charms for the merely literary taste, and they will obtain a hearing for evangelical truth in a degree to which the world otherwise be excluded.*"]—*Kitto's Journal.*

"HOOFLAND'S GERMAN BITTERS.—We have been using Bittersin one of this county, and the source from which they came induced us to make inquiry respecting its merits. From inquiry we were persuaded to use them. We have found it a specific in its action upon diseases of the liver and digestive organ, and the powerful influence it exerts upon nervous prostration, is really surprising. It allays pain and restores the nervous energy them into a state of repose, making sleep refreshing.

If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach, liver and nervous system, the great majority of real and imaginary diseases emanate. Have them in a healthy condition and you can bid defiance to epidemics and every form of disease. In medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family, as no other medicine can produce evidences of the same merit."

In this mammon-worshipping Age, it is rare to find a man place his usefulness to the public, before his interest. During a late visit to the City of Spindles, we were presented by a professional friend, to the celebrated Chemist, Dr. J. C. AYER, whose name is now perhaps familiar to every household as the bedside of sickness, in this country. Knowing the unprecedent popularity of his medicines, and the immense sales of which we expected to find him a millionare, and rolling in wealth. But no, we found him in his laboratory, busy with his laborers, among his crucibles, alembics, and retorts—giving his then personal care to the compounds, or by virtues of which, thousands hang for health. We learned, that notwithstanding his vast business, and its prompt remittance to him, the moment a dose is sold, he persists in making his preparations so expensively, that the nett profit is small.—*American Farmer, Phil.*
