Here We Are Again!

—(x)—

McLEOD & McKENZIE,

STAR MERCHANT TAILORS,

The Original and Peerless Artists of Our Day.

—(x)—

THE ABOVE HAS BEEN A SETTLED FACT FOR YEARS, and to keep before the public what is so well known to every good dresser in this Province, may seem superfluous. But as a good dinner tends to give a quietus to the disturbing influences within the inner man, so a thorough knowledge of our capabilities will give a quietus to anyone who may have had the good fortune of being dressed by us. The sun rises and sets, and it appears to the ordinary judgment that the sun revolves around the earth instead of the earth revolving around the sun; so we, through the immense strides we have taken in our art, would appear to the uneducated to be moving around our many friends, instead of they moving around us; like the sun imparts its warm rays to revive drooping nature, so we are the benefactors of our people, by aiming high and attaining to a STYLE and FINISH in our Garments, which cannot but commend us as the MERCHANT TAILORING PHILANTHROPISTS of our day.

Are you anxious to test the foregoing? Come in, then, and see our line of Goods, which are superior, in every sense of the word, and we will fit you out with a Suit which will doubtless draw the loving remark from your best girl that she has "the best dressed young man in town." Call early, if you must have it before 1st July.

Local and Other Items.

WARM WEATHER.—The thermometer registered 85° in the shade at Woodstock on Friday and at Bangor it reached 98°.

PHYSICIAN FOAL.—Mr. James Birch's valuable mare dropped a superb foal after Physician, at Alberton, on the 11th inst. She has been named "Mary Walker."

Fret not your life away because your hair is gray, while young, as you can stop all grayness and can beautify the hair with Hall's Hair Renewer and be happy.

A BAD RECORD.—An exchange reports that no less than eighteen deaths from diphtheria were reported to the St. John's, Nfld., Board of Health during the week ending May 4th.

Mamma (to her little boy). "Now, Bennie, if you'll be good and go to sleep, mamma 'll give you one Dr. Ayer's nice sugar-coated Cathartic Pills, next time you need medicine. Bennie, smiling sweetly, dropped off to sleep at once.

THUNDERSTORM.—A terrible thunder and lightning storm swept over Prince County between West Point and Cascumpec Harbor on Friday. Several persons were prostrated by the lightning, one woman losing her sight for 24 hours.

ELECTION.—The Lieut.-Governor-in-Council has appointed the Hon. R. B. Reid and Geo. R. Montgomery, Esq., two of Her Majesty's J. P.'s for Prince County to define the limits of the proposed corporation of Alberton. The elections will be held in short.

THE PIGS IN CLOVER.—A church in Southern Illinois is about to have a fair, in which one of the features will be the pigs in clover, with real pigs. A large fac-simile of the toy will be built in the hall, and a prize will be given to the man who pens the porkers.

Rheumatism is caused by an acid in the blood; therefore, external treatment affords no permanent relief. To eliminate the poison and make a thorough cure of the disease, nothing is so efficient as Ayer's Sarsaparilla. Give it a trial. Price $1. Worth $5 a bottle.

ASTRAY IN A FOG.—The Halifax *Herald* reports that Wm. Dowell and John Grant, two of the crew of the American schooner John G. Whittier, were landed at Low Point on the night of the 10th. They lost their vessel in the fog and had been drifting about for three days in an open dory. They were cared for at the signal station, and proceeded to North Sydney.

A BLIND MAN'S SUCCESS.—Toronto advices state that a young man named Stewart, who was stricken with small pox during the Montreal epidemic, has been lately admitted to the Bar, having passed his examination with the highest honors. He had to be taught entirely by ear, and the questions were read to him by a child and answered by him on a type-writer.

A PLEASANT EVENING.—The employes of the firm of James Paton & Co., dry goods merchants, and their friends, were entertained at supper by James Paton, Esq., at his residence on Prince street, last evening. After spending an enjoyable evening in social intercourse, the singing of "Auld Lang Syne" brought to a successful conclusion one of the best "all wool" times they have had for quite a while.

A SHOWER OF FROGS.—A Jamestown, Dak., despatch reports that at that place, on Monday night of last week, a small black cloud, hanging rather low, was noticed to move rather queerly. Suddenly the cloud was lost sight of and a precipitation of frogs was seen. There were several hundred of them, and they could be seen hopping up in the street a block away. The theory of some is that the frogs were caught up from some slough in a whirlwind.

REAL ESTATE SALES.—On Monday, May 20th, at 11 o'clock, noon, a good dwelling house, barn, &c., on Grafton Street, near the Athenæum. On Wednesday, May 22nd, at 12 o'clock, noon, seven building lots on and near Upper Queen Street. On Thursday, May 23rd, at 12 o'clock, noon, the Brighton Tannery and premises, and building lots adjoining the same, fronting on Brighton Road. For plans and further particulars apply to A. McNeill, Auctioneer.

AN OVERHEARD CONVERSATION.—1st Dude—"Aw, Fweddie! wheah aw you going to spend the Queen's Birthday?" 2nd Dude—"Why, deah boy, I'm going to Pictou to see the Abegweits play football, of course." 1st Dude—"Bah jove, yaas! I had quite fawgotten. It would nevaw do to miss that. The sail ovaw will be enchawnting; and to see those boys scwimmage the ball, and wun in and touch it down, will give one an appetite, even if the wataw be a little wough."

A NARROW ESCAPE.—We learn from an exchange that Mr. James Vanstone, of Chatham, came nearly being gored to death by a vicious ox the other day. Had it not been for his fleetness of foot he would have been killed. He was thrown up into the air on the animal's horns, and when he landed the animal went for him viciously. The ox was captured by a rope being thrown over his horns, after which he would not move. A pair of horses were hooked to the rope without effect. He threw himself down on the road and would not move, when it was decided to haul the brute on a sloven to the slaughter house, which was done.

GOLD MINING.—The Hant's, N. S., *Journal* says: The result of the operations for April at the Northup Gold Mines shows that the mine is still booming—a handsome brick of gold, weighing 250 ounces, and valued at $5,900, having been deposited at the Commercial Bank early this month. At Ardoise Hill, says the *Critic*, the Ardoise Gold Mining Company's 10-stamp mill is reported as completed and at work. Mr. Pushie has contracted with the Windsor Foundry Co. for a 20-stamp mill, which is to be delivered at the mine by the end of May. The mill is to be running by the first of June, and in the meantime Mr. Pushie is continuing mining operations and taking out large quantities of ore.

Grave Robbers at Work

THE BODY OF JAMES JOHNSTON, OF ANNANDALE, STOLEN FROM ITS LAST RESTING PLACE IN THE CEMETERY AT LOWER MONTAGUE—NO CLUE TO ITS WHEREABOUTS, OR TO THE GUILTY PERSONS.

SOME four years ago, James Johnston, a well-known resident of Annandale, died, after a long and severe illness, of sciatica. His body was laid to rest in the cemetery at Lower Montague.

Shortly after the interment, it was noticed that the grave had fallen in considerably. But nothing wrong was suspected, and it was filled in again.

A few weeks ago, some of the friends of the deceased, while visiting the cemetery, noticed that the grave had again fallen in. One of them drove a stick through the earth down into the grave, but could not touch anything that sounded like a coffin.

Suspecting that all was not right, the relatives of the deceased had the grave opened up, when the horrible discovery was made that the grave was empty—that both casket and body had mysteriously disappeared!

Up to the present writing no clue has been obtained as to the whereabouts of the missing body, nor to the reasons for its being stolen.

It is a great pity that the guilty person or persons cannot be found out and punished.

Westmorland Notes.

Mr. Thomas U. Canfield, son of William T. Canfield, of this place, is home visiting his friends. He shipped as carpenter in September last on board of a large ship from a port near British Columbia for France, and arrived there on February 19th, after a passage of one hundred and fifty-six days, and after discharging cargo they sailed for Philadelphia, arriving in April, after a passage of thirty-nine days. It is very interesting to hear Mr. Canfield relate the account of those long voyages.

Mr. Edward McVitie, of Westmoreland, has sold his Royal Harry mare, 4 years old, to Mr. Essery for the handsome sum of two hundred dollars. I hear that Mr. Essery remarked, after hitching her to the carriage, that he had the best driver on Prince Edward Island.

The weather here is delightful, and the farmers have half the seed in the ground, and in two weeks more we will be ready for tea parties and picnics.

Westmorland, May 13, 1889.

News Notes.

A company has been formed at Stellarton, N. S., for the manufacture of lubricating oil.

It is believed that the budget about to be presented to the Italian Parliament will show a deficit of $10,000,000.

It is reported that a six feet seam of coal has been discovered a little west of the Acadia boundaries at Stellarton, N. S.

The temperance men of Fredericton and vicinity are taking active steps to prevent the repeal of the Scott Act in that city.

May.

The birds they sing with all their hearts,
When all the world is gay,
"The month we love the best is here,
May, sweet May!"

The bashful lover on his knees
Delights to hear her say,
When he has asked if he may hope,
"Yes, you may!"

And Gaye Maries, one and all,
Beseech your gallants, pay,
To never call you Mame, but thus:
"May, sweet May!"

The Farmers' Interest.

THE DOMINION STATISTICIAN EXPLODES COMMERCIAL UNION FALACIES.

(Ottawa Citizen, May 7.)

I need hardly point out that if the farmers of the four New England States have less stock on their farms and less bushels for their harvest, combined with more acres of cultivated land, the value of their farms must have greatly depreciated during twenty years. It is not uncommon to find advertisements in the papers like this one taken from the New York *Mail and Express* of the 9th November, 1888: "For sale—Good farm lands in Massachusetts for $2 and upwards an acre." Bishop Huntingdon, in last September's *Forum*, stated, with somewhat of dismay at the state of affairs disclosed, that a farm in New Hampshire, yielding fifteen tons of hay and other crops each season, was sold, with house and outbuildings, for $52. In fact, so utterly disheartened were New England farmers that nobody wanted the farm.

Now what is the cause which has for so many years been operating to the destruction of farming in the New England States? Mr. Wiman did not tell us. But we know the reason. It is that the unhappy condition of the farmers in the New England States is due to the fact that the Western States have taken the bread out of the mouths of the farmers of the Eastern States. If that is the reason, what sense would there be in the four provinces exposing themselves to the same fatal rivalry as would be the case under Mr. Wiman's proposed scheme. The four provinces have now the rivalry of our own Province of Manitoba. Mr. Wiman in effect urges the farmers of the four provinces to expose themselves to the additional rivalry of the Western States, which has killed out the farming interest of the New England States. Our farmers in the four provinces will take care not to enter into that "spider's parlor."

Bungled Butchery.

HORRIBLE SCENES AT A HANGING IN OZARK, MISSOURI.

ST. LOUIS, May 10.—The three Bald-knobbers, Dave Walker, better known in Christian County as "Bull Creek Dave," chief of the Bald-knobbers, his son Wm. Walker and John Matthews, were hanged for the murder of Chas. Green and William Edens on March 11, 1887. They were firmly of the opinion, up to within 48 hours of the execution, that they would never be called upon to pay the extreme penalty of a life for a life. Neither of the trio had yet reached his fiftieth year, and William Walker was barely nineteen years of age. Wiley Matthews, a nephew of John Matthews, who was also implicated in the crimes and was under sentence of death, escaped from jail December 28, and has never been heard of, although there were at one time rumors that he had been seen in the Indian Territory. Every possible legal effort was made to save the condemned men, but without success.

The drop fell at 9.53 a. m. The ropes broke and the three fell to the ground, struggling. The execution was a horribly bungled butchery. The men were carried to the scaffold again at 10.10. Bill Walker struggled, groaned and was almost insensible. Dave Walker died in 15 minutes, John Matthews in 13, and Bill Walker in 14 minutes.

About Horses

Another shipment of trotting stock to the Argentine Republic took place last week, the most notable animals in the lot being the bay gelding Plano Boy, to whom Peter Johnston gave a record of 2.21¼ last season; Sentry, 2.25, a son of Grand Sentinel; and Little Walter, a Canuck trotter, with a record of 2.29¼.

The well-known English race horse Fullerton has been sold for $30,000 to go to Buenos Ayres. Minting and Gay Lad, that went from England early last season and have since had things pretty much their own way, will now have a competitor worthy of their prowess.

Buffalo Driving Park has just announced another stake to be added to her already large list of $21,000. This time it is a colt stake for foals of 1885. Entrance fee $100, payable as follows: $25 to accompany nominations May 20, at which time the stake closes; $25 June 20; $25 July 15, and $25 Aug. 3. The Buffalo Driving Park give $500 added money. This is a good stake and ought to fill well.

Knickerbocker, a son of Rysdyk's Hambletonian that has reached the ripe age of twenty-three, has been sold for $3,500 on account of the death of his former owner. He is the sire of Onward, 2.20¼, Stephen G., 2.20½, and two others with records better than 2.30. The sons of Hambletonian are becoming scarcer every year, and the blood which they bear is so overwhelmingly the best that it brings long prices whenever offered for sale.

One hundred remnants of tweed, from 1½ yards to six yard ends, suitable for boys suits. We are offering these goods at half price to clear.—John McLeod & Co. 2w eod.
