

### Quality, Design And Price Are Top Needs In U. S. Field

By FORBES REUDE  
TORONTO (CP)—Quality, design, price and aggressive salesmanship are the competitive tests Canadian producers face as they lay their goods before American buyers.

If they can meet these tests and especially if they can come up with something "different," large sales probably await them in the United States.

### Dog's Heart Is Replaced With Plastic

CLEVELAND (AP)—A five-man team of medical researchers at the Cleveland Clinic Foundation has successfully replaced a living heart on a dog with one made of plastic and driven by compressed air.

Dr. Robert S. Steadman, who led the team, said the dog was able to perform all normal functions — barking,

drinking water and response to petting — when the artificial heart was used.

MEN, WOMAN REHEADED  
MANILA (AP)—Mountain tribesmen beheaded two men and a woman in the north-eastern Luzon hills near Raler, the Philippine news service reported Thursday. A third man was missing and believed captured by the headhunters. The pagan tribesmen are said to prevent the Christian heads to their brides.

He said plastic heart experiments will start soon on calves. "After the artificial heart is applied, we will be away ahead of the kidney work," Dr. Koff predicted, "because the heart is inside the body whereas the artificial kidney is not."

### Hardships Are Revealed Of Federal Survey Team

By JOHN E. BIRD  
OTTAWA (CP)—The story of a federal survey team which operated last month in the frozen Yukon wilderness under hardships similar to those experienced by early Arctic explorers came to light here today.

The 10-member team travelled 200 miles by dog sled over rugged, remote terrain between Fort McPherson, N.W.T., and Dawson City, Yukon. Twice it was isolated by blinding snow storms with temperatures dipping to 46 degrees below zero.
