Insect Spray Takes Heavy Toll Of Fish

OTTAWA (CP) — Damage to Canadian fisheries stocks from insect - control spraying programs is just as great at the moment as the damage from industrial contamination of Canadian waters, Dr. A. W. H. Needler, deputy fisheries minister, told a Commons committee Thursday.

However, in the long run probably the greatest threat of all came from industrial contamination, he said.

Dr. Needler was testifying before the Commons food and drugs committee which is conducting a special inquiry into the hazards of insecticides and pesticides.

He gave his comparison of the relative dangers of chemical pesticides and industrial wastes at the request of Eugene Whelan (L—Essex South). But he urged careful study before adopting a suggestion by Ron Basford (L—Vancouver - Burrard) for one control measure.

Mr. Basford proposed a legal requirement that fisheries authorities must be consulted before insect-spraying programs are undertaken.

Dr. Needler said such a requirement would be useful but care would have to be taken to ensure such a requirement did not become a nuisance.

Radar Is Upheld In Traffic Case

SOREL, Que. (CP) — The use of radar as evidence to support a speeding charge was upheld by a Sorel judge Wednesday for the first time in a Quebec court.

Judge P. A. Peloquin fined bus driver Gaston Deshaies $20 and costs for driving 45-miles-an-hour in a 35-mile-an - hour speed zone last May 23.

Deshaies had pleaded not guilty, claiming that radar evidence couldn't be used against him.

Provincial police began using radar in the Sorel area last May after 30 officers attended special courses on the use of the electronic device at McGill University.

BIBLE STUDIED

In Israel, study of the Bible takes up 20 to 30 per cent of the school curriculum.
