AGRICULTURE.

[From the American Stock Journal]

MANGE IN CATTLE.

This is a troublesome and a disgraceful disease. It argues bad management in some way or other. An occasional cause is overfeding, especially with hot, stimulating food. A more frequent one is starvation in the winter, by which the animal is so much debilitated that he cannot support the change in diet when the flush of grass comes on, and nature, overloaded, relieves herself by this eruption on the skin. A third cause is filth, and in the cow-houses of many little farmers it is not an unfrequent one. The last cause I shall mention is contagion: mange is highly contagious, and if it gets into a dairy will often run through all the cows.

When there is not much eruption, the disease is recognized by the hide-bound appearance of the animal; the dryness and harshness of the hair; its readily coming off; the beast continually rubbing himself; and a white scurfiness, but not often much scabbiness, being seen on various parts.

Medicine alone will be of no avail here. The beast must be dressed. There is no occasion to use anything poisonous for their purpose, as cow leeches are too much in the habit of doing. The corrosive sublimate and hellebore and tobacco should rarely be suffered in the dairy. They have destroyed hundreds of cattle.

The most effectual application is an ointment of which sulphur is the principal ingredient. Some mecurial ointment, however, must be added, but in no great quantity, for cattle will lick themselves, and salivation may ensue. There is nothing so injurious to the milk, or to the fattening of the beast, as salivation, even in a slight degree.

MANGE OINTMENT.—Take flower of sulphur, a pound. Strong mecurial ointment two ounces. Common turpentine, half a pound. Lard, a pound and a half. Melt the turpentine and the lard together, well stir in the sulphur when these begin to cool, and afterwards rub down the mecurial ointment on a marble slab, with the other ingredients.

This should be well rubbed in with the hand daily, wherever there is manage, the hair being carefully separated where the affected part is covered by it. No possible danger can happen from the prolonged use of this ointment if the animal is not exposed to severe cold.

Alterative medicine will materially assist the cure. The following may be given without injury to the milk, and without any precaution being needed:—

ALTERATIVE DRINK.—Take flower of sulphur, two ounces. Black sulphuret of antimony, one ounce. Æthiop's mineral half an ounce. Nitre, two ounces. Mix, and divide into four powders, give one every second morning in a little black gruel. Turning into a salt marsh will be an excellent auxiliary.

Connected with mange, generally accompanying it, and often producing it, are *lice*. The presence of these vermin argues extreme negligence, and is an absolute disgrace to the farmer. They rapidly spread from cow to cow; the slightest touch transfers some of them from one beast to another; they are crawling continually in the stable or on the pasture; and although they are never originally bred in the skin of a diseased animal, yet in one that has been half starved or mangy, and whose coat clings to the skin, and will not come off when nature usually sheds it, these vermin find too favorable a shelter. They are both the consequence and the cause of mange and other affections of the skin. Myriads of them are sometimes found on the poor beast, teazing it almost to death.

The mange ointment above recommended will often be effectual in destroying them, or should it not be sufficiently powerful, a weaker kind of mecurial ointment may be applied.

MERCURIAL OINTMENT FOR VERMIN.—Take strong Mercurial ointment, one ounce. Lard, seven ounces. Mix them well together, and rub the ointment well on wherever the lice appear.

Some prefer a lotion, the best is:

LOTION FOR VERMIN.—Take corrosive sublimate, two drachms. Rub it down in two ounces of spirit of wine, and add a pint of water.

This is strong enough to kill the vermin, but cannot possibly injure the beast. An ointment, however, is best, for it can be more thoroughly rubbed among the hair, and into every lurking place which the vermin may occupy. A portion of the liquid is often lost in the act of applying it. The ointment or the lotion should be used daily, and three or four dressings will generally remove the nuisance.

Scotch snuff has been dusted on the beast with partial good effect, the animalculæ have been thinned, but not extirpated. The snuff cannot possibly reach half of them.

While the lice are attacked, the condition of the animal should, if possible, be improved. Poverty and bad condition are bad encouragers of these pests. The alterative drink just recommended may be advantageously combined with tonics.

INFLAMMATION OF THE LUNGS IN CATTLE.

When common catarrh has been neglected, it will sometimes run on to inflammation of the lungs, or the beast may be attacked with this disease withouth any of the previous symptoms of catarrh. This is a very serious complaint, and requires the most prompt and decisive treatment.

The symptoms are dullness, shivering and cough that is particularly sore; the ears, roots of the horns, and legs are sometimes cold, but not invariably so, as the quantity of celluler membrane about the legs is often sufficient to keep them warm in spite of the nature of the complaint; the breath and mouth are hot; the mouth is generally open, and there is a ropy discharge from it; the beast will often lie down, and can scarcely be induced to move; the flanks heave very laboriously, and the head is protruded, showing the great difficulty of breathing. The pulse is not always much increased in number, but is oppressed, and can sometimes scarcely be felt.

Inflammation of the lungs is caused by the perspiration being obstructed from sudden and great changes of the weather, especially when accompanied with wet. Cattle that are driven long distances, and then exposed to the cold and damp air of the night, are particularly liable to it. In most cases it can be traced to the cattle being imprudently exposed to cold; but when the cause is not so apparent, it oftenest attacks those that are in good condition.

Young cattle, and particularly calves, are more subject to this disease than older ones; and in them it must principally be attributed to their being in a state of plethora, that is, having a redundancy of blood in their systems.

Sometimes the membrane covering the lungs and lining the chest is the part principally attacked; the disease is then termed *pleurisy*, and is in this form often complicated with rheumatism, but it is more usual for the substance of the lungs to be affected in common with their envelopment.

Copious bleeding is the remedy most to depended on for subduing the inflammation and should be had recourse to as soon as the disease is discovered. The beast should be put into a cool cow-house well littered, and immediately bled. If the difficulty of breathing and other symptoms are not much relieved in six or eight hours after the first bleeding, it should be repeated. A third or fourth bleeding may in a bad case be requisite. In this disease, more than any other, the person who attends the cattle should be present when the beast is bled. It is impossible, by looking at the patient, and considering the symptoms, to say what quantity of blood should be taken away; but as a general rule, and especially in inflammation of the lungs, and in the first bleeding, the blood should flow until the pulse begins to falter, and the animal seems inclined to faint. The faltering of the pulse will regulate the quantity of the after bleedings. Little bleelings of two or three quarts, at the commencement of inflammation of the lungs, can never be of service; from six to eight quarts must be taken, or even more, regulated by the circumstances that have been mentioned, and the blood should flow in a large full stream.

A seton should be set in the dewlap immediately after the first bleeding, and a purging drink should be given. Four drachms of nitre, two of extract of belladonna, and one of tartarized antimony, may afterwards be administered twice a day in a drink.

In very severe cases the chest has been fired and blistered with advantage.

Warm water and mashes must be regularly given two or three times a day.

When the beast has recovered, it will be proper, as much as possible, to avoid all those causes which induced the complaint. The animal should for a short time be housed during the night, and, if the weather is very unsettled keep up altogether, or turned out for a few hours only in the middle of the day.

Meeting of the Legislature,

COLONIAL SECRETARY'S OFFICE, December 17, 1868.

WHEREAS by a resolution of the House of Assembly, passed on the 14th day of April, 1863, it was resolved that the initiation of all Money Votes should be with the Executive.

Notice is hereby given that all applications for Money Grants for Roads, Bridges, Wharves, &c., and all Petitions for grants in aid of any object whatsoever, which parties may desire to submit to the Legislature at its next annual Session, are required to be sent into this Office on or before the 1st day of FEBRUARY next.

By Command,
GEORGE COLES,
Colonial Secretary.

INK! INK! INK!

CARTER'S COMBINED WRITING & COPYING INK!

THIS COMBINATION INK has been awarded the HIGHEST PREMIUMS over all others in the United States and pronounced by the most celebrated Chemists the best Ink ever offered to the public

It is used by many of the largest Commercial Houses, Banks, Railroads and other Corporations and gives perfect satisfaction.

The Advantages of this over other Inks are:

FIRST—It flows freely from the pen, and does thicken by exposure to the air.

SECOND—It will give a perfect and instantaneous copy.

THIRD.—It will not mould.

FOURTH.—Being equally as good for Copying as for Book-keeping it entirely does away with the use of two kinds of Ink.

FIFTH—It is more permanent than common Inks

SIXTH—The color, when first written is a beautiful dark green, but in a remarkably short time it changes to a BRILLIANT JET BLACK—not a brownish black

SEVENTH.—It is admirably adopted to the most delicate writing, and ALWAYS "makes its mark" *This Ink is warranted to flow as freely as any other Writing Fluid now in use; to give as perfect a copy as any Copying Ink; and not to mould.*

This ink is for Sale at

HARVIE'S BOOKSTORE,

Oct 26, 1868. Queen Street

Wool Wool.

THE STANFIELD WOOLLEN MILLS at TRYON, having been thoroughly reconstructed and enlarged by additional Machinery and Steam Power, will continue to manufacture Cloth from custom wool as heretofore and at the usual rates. Having doubled their facilities for manufacturing, and procured skilful operatives for every department, the Company feel confident of giving their customers greater satisfaction generally, by manufacturing a better quality of Cloth, and making quicker returns for Wool left with them. In addition to the various kinds of Cloth previously made, they are manufacturing several new styles for men's wear, and full width blanketing

☞ Wool, which must be clean washed, free of mats and coarse locks, and of good quality, may be left at Hon. H. J. Calbeck's, Charlottetown, or at the Mill.

STANFIELD WOOLLEN CO.

Tryon, May 18, 1868.

RARE CHANCE

FOR

Ship Builders or Merchants.

THE SUBSCRIBER OFFERS FOR SALE that well-known FREEHOLD PROPERTY, the

Ureka House and Premises,

situate at the HEAD of ROLLO BAY, with a front of Ten chains on the Main Post Road, leading from East Point to Charlottetown and Georgetown, about four miles from the flourishing village of Souris, comprising about TWELVE ACRES of LAND, with a good convenient DWELLING HOUSE thereon, having a Parlor, Sitting Room Bed Rooms for Seven beds, Kitchen, Wash House, and a never-failing Pump of Water at the door.

ALSO, a NEW STORE, fitted up for a Shop and Bar Room, with Offices attached; a large Room above with Two convenient Bed Rooms petitioned off. The whole finished complete and in good repair. There are attached to the Shop a Waggon House and Shed, for feeding travelling horses in a splendid grove of tree ssheltered from winds and storms. Stables for horses, Cow Houses, &c., likewise a Grainery capable of containing 10,000 bushels of Oats. Meat and salt House, with Sail Loft above, and two other Houses for lumber, or can be rented as tenements, all situate on the aforesaid Road side. The Post Office is kept there, and the Charlottetown Mail passes two and fro twice each week. On the Shore, fronting Rollo Bay, is a site for Ship Building, where a number of splendid vessels have been built, with Blacksmith's Forge a large and convenient building for working in, with a Mould Loft above, Saw Pits, and other requisites for carrying on an extensive building business, with a lot of plank and timber in the yard, well piled and free from decay. A splendid Spring of Water at the bank—in fact the whole premises are surrounded with all the requisites for carrying on an extensive Mercantile trade or Public Hotel, well worthy the notice of persons intending to enter into Trade or Ship Building with a small capital. The whole will be disposed of by Private Sale, with a good and sufficient title.

Any further particulars respecting the above Property and title may be had on application to W. R. WATSON, Esq., Druggist, Charlottetown, or the Subscriber on the Premises,

JAMES A. DAVIDSON.

Rollo Bay, Aug 31, 1868.

September 7,

PROSPECTUS

OF THE

Publications of John Dougall & Son

MONTREAL.

THE phrase "GET THE BEST" has passed into a proverb, and all will agree that the best Family Paper is one that has something interesting and profitable for every member of the family, not excluding the children, and which includes within its scope all the best interests of humanity, temporal and eternal. Such a paper the MONTREAL WITNESS has aimed to be from its commencement 23 years ago; and that the country was prepared for such an enterprise is shown by its success The WITNESS in its three editions—"Daily" "Semi-Weekly," and "Weekly"—issues about 16,000 copies; and, consequently, reaches probably Eighty Thousand readers; but what are they out of a population of four millions, all of whom we desire to reach?

Our publications are as follows, and we respectfully call attention to their cheapness as well as quality, and ask all the friends of interesting and wholesome literature everywhere to aid us in extending their circulation. Nor will their circulation interfere with that of local papers, which are a necessity in their respective localities, and which are, generally speaking, very meritorious

1.—The DAILY WITNESS contains as much reading matter as the ordinary Dailies, and of a choice quality, at about half the price viz. $3 per annum Besides being a first-class Family Paper, it is especially valuable to business men on account of its abundant commercial intelligence, prices current, &c.

2.—The MONTREAL WITNESS Eight Pages, Semi-Weekly, $2 per annum, contains all that appears in the Daily, except part of the purely city matter and advertisements.

3.—The WEEKLY WITNESS, Eight Pages, $1 per annum, contains the greater part of the News, Contemporary Press, and Editorials of the Semi-Weekly with a portion of the Family Reading and Prices Current.

4.—The CANADIAN MESSENGER containing Eight Pages, is published twice a month, at the very low price of 37½ c. per annum. Postage paid; or Seven Copies for $2 to one address. It contains Religious Temperance, Agricultural, Scientific Educational matter Stories for Children &c. &c. This paper is recommended to the public generally and it is hoped that its adaptation for circulation through schools will greatly extend its usefulness It has at present upwards of 20 000 subscribers, representing, probably, 100 000 readers, but at the very low price (namely, 25 cents per annum, Post paid, if 100 copies are sent to one address) it is hoped that its circulation will greatly increase,

5.—The NEW DOMINION MONTHLY is a handsome Monthly Magazine containing a rich selection of original and copied articles every month, together with one or more choice pieces of music, and pictorial illustrations. Price $1 per annum, Postpaid. This Magazine has been favorably noticed by nearly the entire Press of the Dominion.

The terms of all these publications are necessarily CASH IN ADVANCE, and the periodicals are invariably discontinued when the subscription expires.

Any one who will kindly make up a club for the above publications to the value of $8, and remit the same Post paid, in Bankable funds, will receive, if asked for at the time, the WEEKLY WITNESS or the NEW DOMINION MONTHLY gratis, and One Dollar's worth of our Publications for every additional Eight Dollars remitted for them in P. O. Money Order or Canadian Bills

N. B.—Postmasters are authorized and requested to receive individual subscriptions in Silver (but not Club Subscriptions), and convert the same into Bankable funds at our expense

To the Traveling Public,

THE SUBSCRIBERS would respectfully inform their friends and the public generally, that they have opened out, in this city a

FIRST CLASS HOTEL

to which they have given the name of the

UNION HOUSE,

This Hotel is pleasantly and conveniently situated on the corner of

Queen and King Streets, Ch'town, P. EI.

(The stand is well known as having been in the occupation of Mr J. G. Eckstadt)

It is the intention of the Proprietors of the UNION HOUSE to furnish First Class accomodation to travellers, and do all in their power to render a stay in Charlottetown pleasant and agreeable

A First Class Ice Cream and Oyster Saloon, and a Barber Shop, are kept in connection with the House.

The Union House is pleasantly situated near wharves, and steamboat landings, and will be found convenient for travellers in all respects.

All matters pertaining to the wants and convenience of Guests will be promptly attended to by the Proprietors.

O'NEILL BROTHERS.

Ch'town, Sept. 28, 1868. tf

Valuable Freehold Property

AT

SOUTHPORT FOR SALE.

THE Subscriber being about to remove to Charlottetown, offers for sale his COTTAGE and GROUNDS, situate at Southport. The Cottage is a neat building well finished, and the Grounds on part of which it is erected, has a frontage of 100 feet on the Street, and runs back the distance of 200 feet. On the premises are Stables and Coach House and other out buildings. A Good Well of Water, and a Garden well stocked with Fruittrees. This property is a desirable residence for a family wishing to retire from the City, and may be had on reasonable terms. The Tannery will also be let if required. Apply to the owner on the premises.

JOHN RENDLE.

Cook, Box and Franklin Stoves,

which will be sold on the usual terms.

R.J. CLARKE.

The Most Reliable Friend.

Holloway's Ointment,

Its Searching & Healing Properties are known and recognized throughout the World.

The number of years this invaluable Ointment has stood the test of public opinion, (and the longer known the better appreciated) is a testimony of itself more convincing than anything that could be written in praise of its truly wonderful healing properties. In the cure of bad legs, bad breasts, sores, wounds, and ulcers, its effect is marvellous. For ring-worm, scald-head, scrofula, and diseases of the skin generally, there is no remedy to be compared to it. When assidiously rubbed upon the skin (previously well bathed in warm water) this Ointment is quickly absorbed into the system, and cleanses, in its passage, every part to which it is applied.

Glandular Swellings, Mumps, Bronchitis, Quinsey, Sore Throats and Diptheria.

In any of the above diseases, immediate and permanent relief is obtained by effectually rubbing this detergent Ointment, twice a day, upon the neck, chest and back. Its acts upon the very mainsprings of life; for through the glands pass all new matter required for the body's reparation and all old particles detrimental to its preservation. The Ointment, used conjointly with Holloway's Pills, will act so searchingly and certainly as to effect cures in the most hopeless cases.

Rheumatism, Lumbago, Contracted and Stiff Joints.

Many thousands of martyrs from the above complaints have found life almost unsupportable; yet, if Holloway's Ointment be briskly and perseveringly rubbed upon the parts affected, ease may be safele guaranteed, especially if the pores of the skin by previously opened by fomentations with warm water. The gross humors require expulsion from the system; it is therefore necessary to have recourse to Holloway's admirable Pills, which, by purifying and strengthening the system, greatly assist the opreation of the Ointment and facilitate and confirm they cure

Bad Legs, Bad Breasts, and Ulcerations of all kinds.

There is no medicinal preparation in the world which may be so thoroughly relied upon, in the treatment of the above ailments, as Holloway's Ointment. Nothing can be so simple or safe as the manner in which it is applied, or its action on the body, both locally and constitutionally. The Ointment, rubbed around the part affected, enters the pores just as salt enters meat. It quickly penetrates to the source of the evil and drives it from the system.

Erysipelas and Scrofulous Sores.

In all irritations of the skin, sores, ulcers, burns or scrofulous enlargements of any kind, Holloway's Ointment presents a ready and easy means of cure. It manifests a peculiar power in restraining inflammation, removing stagnation, cooling the heated blood, and checking all acrimonious and unhealthy discharge.

Diseases attendant on Childhood.

Diseases incident to early life fall more under the management of the mother than the medical man. Holloway's Ointment should therefore be regarded by her as a "Household Treasure," as it never fails in bringing out the rash in measles and scarlatina; and for the removal of all skin diseases its effect is miraculous. In cases of whooping cough and croup, this invaluable Ointment should be rubbed twice a day upon the throat and chest, and the youngest invalid will derive therefrom the most soothing relief. Two or three of Holloway's famous Pills, reduced to a powder, will augment the curative powers of the Ungent.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Corns (soft)	Rheumatism
Bad Breasts	Cancers	Scald Heads
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions		Sore Throats
Bite of Moschetoes and Sand Flies	Elephantiasis	Skin Diseases
	Fistulas	Scurvy
	Gout	Sore Heads
Coco bay	Glandular Swellings	Tumours
Chiego-foot		Ulcers
Chilblains	Lumbago	Wounds
Chapped Hands	Piles	Yaws

EXCHANGE.

EXCHANGE on Boston, and GREENBACKS bought and sold by

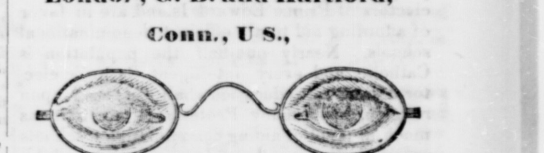
I. C. HALL.

Water Street, Charlottetown, September 21, 1868.

LAZARUS & MORRIS,

Practical Oculist & Opticians,

London, G. B. and Hartford, Conn., U S.,



HAVE APPOINTED

W. R. Watson, Chemist & Druggist

CHARLOTTETOWN,

Sole Agent for the Sale of their

CELEBRATED PERFECTED

SPECTACLES,

Which have been extensively used in Great Britain and the United States, the past eight years and for which they claim the undermentioned advantages over those in ordinary use, the proof of which may be seen in their constantly increasing business during the past eight years.

1st. THAT from the perfect construction of the lenses, they assist and preserve the sight, rendering frequent changes unnecessary.

2nd. THAT they confer a brilliancy and distinctness of vision, with an amount of ease and comfort not hitherto enjoyed by spectacle wearers.

3rd. THAT the material from which the Lenses are ground is manufactured specially for optic purposes, and is pure hard and brilliant, and not liable to become scratched.

4th. THAT the frames in which they are set, whether gold, silver or steel, are of the finest qualities and finish, and guaranteed perfect in every respect.

They are the only Spectacles that preserve as well as assist the sight. And are cheapest, because the best, always lasting many years without change being necessary.

☞ One of the Firm will visit Charlottetown, at the Store of their Agent every six months, for the purpose of fitting those having difficult sights, when any spectacles sold by their agent during the interval, will be exchanged free of charge if not properly fitted.

☞ WE EMPLOY NO PEDLARS. ☜

☞ SIGHTS fitted by correspondence.
