

# Reading Kills

It kills ignorance. It kills hunger and poverty. And it kills feelings of despair and hopelessness for millions of men, women and children around the world.

CODE's literacy programs make a difference in developing nations. So help kill the problems of illiteracy. Support CODE.

**YOUR SPRINGBOARD TO SUCCESS IN THE NEW ECONOMY.**

You've got a university degree. But you know you could be doing so much more with it than you are right now. You'd like a challenging, well-paying job with a future. If this sounds familiar...you owe it to yourself to look into ITI.

Information Technology Institute – or ITI – offers a unique 11-month program that takes university grads from a broad range of backgrounds and gives them the information technology training that today's companies are looking for.

It's an intensive program that has helped many Canadian university grads with little or no background in computers begin satisfying careers as information technology professionals. At ITI, you'll learn from certified instructors in a completely modern facility. You'll work with the latest hardware, software and network technologies. And you'll get individualized career counselling, work term and job placement services.

It's a proven program. Find out more about it today.
