IN MEMORIAM

ADAMS—In loving memory of a dear wife, and mother, Ella Maude Adams, who passed away August 19, 1956. We do not forget her, we love her to death.

For her memory to fade from our lives like a dream. Our lips need not speak when our hearts mourn sincerely. For grief often dwells where it seldom is seen. Sadly missed and lovingly remembered by husband William, and daughter Gladys.

RIX—In loving memory of our dear husband and father, Mr. Gordon F. Rix, killed August 18, 1954. It's lonely here, without you dear. And sad the weary way. Since you have gone away.

If we had all the world to give. We would give it, yes and more. To see you smile, and hear your voice. Or greet you at the door.

To those who have a father. Please cherish him with care. For you will never know the heartache. Until you find he isn't there. Sadly missed by his wife and children.

JOHNSTON—In loving memory of a dear husband and father, William J. Johnston, who passed away August 19th, 1952. Beautiful memories are all that are left.

Of one we loved, and shall never forget. A loving smile and a happy face. A broken link we can never replace. All through the years be they many or few. Will be years of remembrance always of you. Sadly missed by wife and family.

Hay Shortage In Nova Scotia

HALIFAX (CP)—The 25,000 for Nova Scotia hay shortage may be a blessing in disguise, Agriculture Minister E. D. Halliburton said Saturday. He said the shortage would mean some farmers will have to sell some livestock "and this is something they should do periodically anyway."

"There is no doubt some farmers are keeping livestock—both beef and dairy—which really do not pay their way. With a hay shortage looming this is the year when herds should be culled of all unprofitable and unproductive animals." The shortage developed after an unusually dry spring and early summer.

CONTRACTS AWARDED

OTTAWA (CP)—Defence contracts worth \$5,000,528 were awarded to Canadian firms during the last half of July by the defence production department, it was announced Friday. Defence Construction Limited awarded contracts worth \$728,740 during the same period. Largest individual contract was for \$734,307 worth of aircraft spares awarded to Canadian Flight Equipment, Cobourg Limited, Cobourg, Ont.

TRADE HIGH

Roe's Parent Company Is Also Fast-Expanding Firm

By FORBES RHUDE

Canadian Press Business Editor

If A.V. Roe Canada Ltd. causes some surprise by its rapid expansion from aircraft into wider industrial fields, its parent company is doing the same thing on a grander scale.

The parent company is Hawker Siddeley Group Ltd. of Britain, which owns nearly 85 per cent of the Canadian company and has so far put \$40,000,000 into it without to date, taking out any profits.

Thirty companies are listed as the group's subsidiaries or associates, 20 in Britain, nine in Canada — all in the Roe Canada group — and one in Australia.

Hawker Siddeley comprises the largest group of aircraft and aero engine designers and manufacturers in the Commonwealth — engaged in the design and manufacture of aircraft, jet engines, rocket motors and guided weapons.

Its wide range of other industrial interests includes the development and distribution of nuclear power.

Geoffrey Eley, chairman of Brush, speaking at a recent news conference in London, said:

"We are now on the threshold of nuclear power and in this exciting field lies tremendous development for Brush in a wide range of heavy electrical plant."

"But we cannot seize these opportunities unless we have adequate financial resources. The Hawker Siddeley Group — certainly one of the great industries and financial institutions of this country — will provide precisely that."

"The Hawker Siddeley Group's commanding position in Canada holds great interest for us."

SWEDISH FIRM

Mr. Eley also said that subject to necessary formalities, Brush had completed arrangements for acquisition from Asea of Sweden of the entire share capital of Asea Electric Ltd. of England.

This, he stated, puts at the disposal of Brush the whole market of heavy transformers and ancillary equipment.

Speaking at the same press conference, Sir Roy Dobson, director of Hawker Siddeley and

chairman of Roe of Canada, said:

"We are vitally concerned in the development of nuclear energy and the means of distributing power from it. By merging our technical energies with Brush we can take a further big step."

The Hawker Siddeley Group was incorporated in 1935, acquiring at that time the business of two groups comprising eight of the oldest-established aircraft and engineering companies.

A prospectus on Roe of Canada, issued last fall, says of Hawker Siddeley:
