ANNOUNCEMENT

After careful study of the usage of Assurance Companies at home and abroad, and of the experience of this Society in all the varied reforms introduced by it, the **EQUITABLE LIFE ASSURANCE SOCIETY** has combined in one form of policy all the advantages and guarantees which can safely and properly be united, and now offers it to the public under the name of the

FREE TONTINE POLICY.

If you desire Assurance on your Life, you should secure one of the Equitable's Free Tontine Policies; because (1) it is

INDISPENSIBLE, and you get a Certainty instead of a Possible Law suit; (2) it is

UNRESTRICTED, and you are not, as in ordinary cases, prohibited from going where and doing what you please; (3) it is

NON-FORFEITABLE, and you can never be deprived of a just indemnity even on surrender; (4) it is

PAYABLE IMMEDIATELY after death, thus providing against even temporary embarrassment; (5) it is

PRE-EMINENTLY LUCRATIVE, in many cases providing Assurance in later life for nothing, or yielding back the whole, or nearly so, of what has been paid in by those preferring to withdraw; (6) the form of policy is

SIMPLE and shorn of needless formality; (7) the advantages offered under the policy are

NOT OBTAINABLE IN COMBINATION

IN ANY OTHER COMPANY or under Any Other Policy.

For Tables of Rates and full Explanations, apply by letter or in person to

MARK WRIGHT & CO.
Ch'town, Sept. 18, 1886.

Political Meeting at Cardigan Bridge.

The meeting at Cardigan Bridge School-house on Tuesday evening, the 26th inst., was attended by a great number of the electors in that vicinity. Wm. P. Lewis, Esq., occupied the chair and John Parker acted as secretary.

Thomas Annear, Esq., the late representative, in addressing the meeting, described the action he had taken with respect to the abolition of the Legislative Council, and asked the electors to judge whether his conduct had been satisfactory or otherwise. Mr. Annear said he had been induced to take the stand he did through the persuasion of the Rev. S. G. Lawson and other prominent members of the Conservative Party. Judging by the tone of Mr. Annear's remarks, he is not very sure whether he will pursue the contest to the end. He was not in favor of abolishing the Legislative Council, unless a property qualification was substituted in place of the present Franchise Act.

Mr. George F. Owen, the candidate selected by the Liberal-Conservative Party, referred to the action taken by the Convention held at Georgetown on the 24th August last, when he had been nominated to contest this election and explained that one of the reasons why he had been nominated was owing to the fact that Mr. Clow, the member for this district, whose term had not expired, resided in Murray Harbor, and it was considered advisable that his colleague should be a resident of the Cardigan District. Mr. Owen reviewed the action of the Government during their term of office, contrasted their record with that of the Opposition Party, and stated that he had every confidence that the measure introduced to reduce the expense of Legislation would be found to fully protect the interests of the people of this Island. If elected, he would assist the Government in carrying out this necessary reform.

Mr. John G. Scrimgeour, the Opposition candidate, appealed to the electors neither as a Liberal or as a Conservative, simply as a representative of property holders, but he told the meeting that when the time came he would always be found supporting the Brits. It was, no doubt, advisable that Mr. Scrimgeour should make this assertion, as his record in the past had been "unvariable or without the shadow of turning." He endeavored to impress on the meeting the desirability of maintaining the Legislative Council as it now is, but would consider a measure to reduce it if property holders were protected against whom the protection was desired did not appear, but some vague allusions were made to a floating population. Cyrus Shaw, Esq., M. P. P., thanked the electors who had so handsomely supported him at the General Election, and in an eloquent address of considerable length discussed the question of the abolition of the Legislative Council in a masterly manner. He showed the causes that led to the formation of that body; he traced its history from its inception to the present time, and concluded by saying that as the Legislative Council had been no safeguard for the property holders in the past, we had no reason to conclude that it would be of any usefulness in the future. It was simply an unnecessary expense that could be very well done without. Mr. Shaw's scathing criticism of the Opposition and their shifting policy on this and other questions evoked hearty applause, and his allusion to Mr. Scrimgeour as the sacrificial ram of the Opposition party created considerable amusement.

Dr. Robertson, being present, was called upon to address the meeting, and gave it as his opinion that the Government were not sincere in their efforts to abolish the Council, nor did he think that even if Mr. Owen were elected would that body be done away with. He referred to the abortive efforts made during the past eight or nine years to accomplish this object, but instead of obtaining his friends, the majority in the Legislative Council censured the Government because this reform had not been carried out. The doctor was evidently ill at ease, and no doubt was carefully considering what effect his words would have on the next Dominion election.

Mr. W. C. White, the rejected of Murray Harbor District, was the next to address the meeting, but said very little about the Legislative Council. His scheme was Stephen G. Lawson and his gray mare, and the wharves at Montague.

Judging by the applause that greeted the speakers, three fourths of the meeting were in favor of the Government candidate, Mr. Owen. A vote of thanks was tendered the chairman, and the meeting dispersed.

CHEILD.

What True Merit Will Do.

The unprecedented sale of *Boeck's German Syrup* within a few years has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of Coughs, Colds and the severest Lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a Cough and leave the disease still in the system, but on the contrary removes the cause of the trouble, in a purely healthy condition. A bottle kept in the house for use when these diseases make their appearance, will save doctor's bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price 75 cents, large bottles.

The weaker sex are immensely strengthened by the use of Dr. R. V. Pierce's Favorite Prescription which cures all female derangements and gives tone to the system. Druggists.

LETTERS TO THE EDITOR.

The Riel Cry and Other Cries.

Sir,—A correspondent in the *Patriot* of the 22nd inst., who signs "Lot 67," seems quite jubilant because of "a great victory," as the result of the late Provincial election at Quebec, which caused "the ignominious defeat of so many 'boodle skeletons.'" If the writer had just kept himself, if but for a little, before making such a desperate rush into print, he might probably have come to the conclusion that so far as party is concerned he had neither the right nor the title to claim for his admirers any victory whatever out of that election, unless that he wished to class them with the traitors of that Province, who fought so bravely for Riel's commutation, but failing to acquire this, asserted and maintained a power which has been fully carried out, and it is to this and this alone the victory—if victory it is—is due. But I suppose, "as Betty and I killed the bear," the one who did the least will presume to take the most credit. Probably the writer is one of those whose sympathy was with Riel and his associates during the rebellion, and, such being the case, we should not be surprised at his anxiety to fly his true colors. So far, however, as the result of the Quebec election was concerned, it certainly did not require the spirit of prophecy to divine the result; the element was the pressure which did the business, so that "Lot 67" and the Liberal party generally, so far as influence or popularity is concerned, have very little to crow over. The Riel cry did all.

I also find a West Indian elector at his level best against Mr. Campbell. What a pity it is to have so many disappointed toadies on the stampede! Elector no doubt is one of many in his direction who feels galled and disappointed because the loaves and fishes are not distributed to meet his peculiar views, that the lion's share did not fall to him, and that he was not awarded a certain contract at his own price. The Commissioner of Public Works thinking differently, and ever ready to subserve the best interests of the people, refuses to pander to the necessity of a few harpies who are ever ready to abuse and vilify those who won't see as they do. They must now take a back seat, because he so jealously guarded the best interests of the Province against the flagrant impositions attempted by some contractors. Had he allowed this he would still be the white-headed boy, and the contents of the satchel as acceptable as ever; nor would he be asked to move out and give place to a Yellow Knight of Sir John Wise's manufacture and election. That Mr. Campbell has done some things objectionable is not to be wondered at, when we take into consideration the multiplicity of his duties; but that the work is done to the satisfaction of the people and to the very great credit of the government which he serves has to be admitted all around the board, and for this very reason he will be returned at the forthcoming election with a good majority, nor will Lot 67 be found wanting in its duty on that day.

Lot 29.
October 26, 1886.

Where Are the Scott Act Inspectors?

Sir,—I understand some time ago that the Local Government appointed license inspectors for each County, for the purpose of enforcing the Canada Temperance Act. If this be so, I would like you to inform me and the public what are the duties of those inspectors, and what amount of yearly salary they receive, and also to whom are they responsible if they fail to enforce the law; or is it left to their own discretion what to do and who to prosecute? I am not aware whether the persons appointed are true temperance advocates or friends to the liquor dealer; but if they are the latter, I can quite understand why the traffic is carried on to such an extent in some of the villages not many miles from here, and no attempt whatever has been made to bring the offenders to justice. This is a matter of great importance to the taxpayers of this Province, and they will most certainly hold those responsible accountable, as they cannot understand the necessity of appointing and paying officials to do nothing. We have noticed of late that the Prince County Inspector has been exerting himself a little in the western part of the County, and in our opinion there is much yet to be done before the traffic is stamped out in that County. But we fail to learn of the Queen's County official having even made an attempt to enforce the law, and are at a loss to know under what pretensions he will endeavor to draw his salary. It will certainly not be for services rendered, unless he decides to turn over a new leaf and do better for the future. If not the appointment should be cancelled immediately, and a proper person given the position, who would do his duty regardless of everything.

Knowing THE EXAMINER to be an earnest exponent of temperance principles, and always ready to expose double-dealing no matter by whom perpetrated, I trust that you will throw some light on this subject, and expose those temperance officials who shirk their duty.

I remain yours, &c.,
TEMPERANCE.
Springfield, Lot 67, Oct. 27, 1886.

Horsford's Acid Phosphate.

ONE OF THE BEST TONICS.

Dr. A. Atkinson, Prof. Materia Medica and Dermatology, in College of Surgeons and Physicians, Baltimore, Md., says: "It makes a pleasant drink, and is one of our best tonics in the shape of phosphates in solution form."
