*Holloway's Ointment*—All varieties of ulcerations, bad legs, sores, wounds, and eruptions, can be cured by the diligent use of this cooling, soothing, and healing Unguent. The old and often-failing fashion of strapping the edges of ulcers together with plaisters has entirely given way before the more reasonable treatment of Holloway's Ointment, which builds up from the bottom with sound and healthy granulations; these gradually grow till they reach the level of the surface, then contract, harden and immediately become covered with a new and wholesome skin. The proper application of this Ointment diminishes the inflammation, causes the unhealthy discharge first to grow thick, then to cease. The Pills should be taken so as to act in unison with the Ointment.
