RENOUATION OF CAPTAIN MURCHISON.—The Guardian of this morning reports that Capt. John J. Murchison, chief officer of the Stanley, has resigned his position, and says: "Capt. Murchison has been for a long time in the government service, having entered as chief officer of the Northern Light in 1884, and has since held the like position on the Neptune and the merchant service, his first captaincy being in 1877. In his time as second mate, mate and captain in succession he has rounded the Cape of Good Hope, and seen extensive service in foreign waters. His present change is made, it is understood, in order to better his position by taking charge of a steamer. The travelling public will, we are sure, regret the loss of the able and popular first officer of the Stanley. We hope his resignation was not, even in the most remote degree, due to the fact that there has been a change of administration, and that he is a local Conservative as well as an efficient seaman. Captain Murchison will, we understand, take charge of the steamship Elliott."

MARRIED In this city, on the 3rd of August, by Rev. Dr. Morrison, Ronald B. Steele, of Tracadie, to Mary Lafferty, widow of John Lafferty of this city.

THE CANADIAN ARTILLERY. Contest at Shelburne was opened on Monday — The Canadians cheered.

SHOOTING. Aug. 3.—The competition of the artillery volunteers commenced today. In a difficult competition of dismantling and mounting of 64 pounders in the competition of the artillery volunteers, the maximum time allowed was fifteen minutes.

The Canadian artillerymen were loudly and heartily cheered as they marched to their positions, clad in their new jerseys, embroidered with the maple leaf. They set to work in a business-like fashion, and it was remarked that each man knew his work perfectly.

Despite the fact of a slip of the gun from the temporary sleigh during the shifting of the gun, they did the operation with eleven seconds to spare. But for the accident they would have beaten all competitors. The result will not be announced tonight. The Canadian artillerymen also took part in the disabled ordnance competition with a 16-pounder. The result will be known to-morrow.

The First E. S. was won in the 64-pounder group, for the firing and ranging competition, with 22 points. The Canadians scored 68 points, made up of 44 out of a possible 48 for firing and discipline, and out of a possible 48 for effectiveness.

PATENT REPORT. Below will be found the only complete weekly up to date record of patents granted to Canadian inventors in the following countries, which is prepared specially for this paper by Messrs. THE GALVANA ASHORE.—It is announced by the Halifax papers that the steam collier Galvana, from North Sydney for Halifax, went ashore on the northern end of Big Ledge, White Point, near Cape Canso, at 1 o'clock on Sunday morning, and will probably be a total wreck. She had one hundred and fifty tons of coal on board. The Galvana left North Sydney on Saturday morning. Fog probably put her out of her course. The steamer was built in 1878, and was owned in this province at one time.

AN EMPTY TREASURY.—The City of Niles, Mich., is in a very peculiar dilemma. The treasury does not contain a cent, the city owes about \$15,000 interest on bonds, which is due, and not a cent can be raised to pay the amount. A special election was held to vote \$30,000 bonds to meet expenses, but the citizens voted down the proposition. Now the common council is powerless to do business, and the Mayor and aldermen threaten to resign.

THE SCOTTISH GATHERING.—The Scottish Gathering at Orwell Brush wharf, on Thursday, 13th August, from what we can learn, will be one of the largest of the season. The grounds selected for the occasion are close by the brush wharf. Two excursion cars will be used for the trip from Charlottetown and return for the accommodation of visitors and guests.
