THIS WEEK AT SDU

Hordes of Fresh Hit Campus; Met With Special Welcome

By CHARLEY McMILLAN
Hordes of Freshmen and Freshettes arrived on campus for their first look at the campus, a place which will be "home" for most during the next eight months. They asked questions, sought answers, and formed opinions of their own. They received schedules, timetables, offered price lists, directions, and commands. They picked their courses, scheduled their classes, and selected their roommates. They were the influx of new students...

HOW TO OBTAIN DESIGN BOOK

The latest design book entitled "Canadian Guide to Home Planning and Design" is now available at the offices of The Guardian and The Evening Patriot for \$1.25 per copy. Gov't Seeks Tax Incentives For Industry In Poor Areas

By DON HARRINGTON
OTTAWA (CP)—The government is searching for "more meaningful" tax incentives to entice industry into have - no areas, reliable sources said. A decision is not expected for several months, however. Any program that is developed is that announced in Finance Minister Gordon's next budget, normally due in the spring...

Soviets Oppose Troop Landings

UNITED NATIONS (CP)—Casting its first vote in more than a year, the Soviet Union has killed a Security Council resolution deploring the landing of a Malaysian commando parachute in south Malaya Sept. 2. All of the council's 11 members except the Soviet Union and Czechoslovakia supported the Norwegian proposal which grew out of a Malaysian complaint charging Indonesia with aggression. The effect of the Soviet action was to bring eight days of debate to an end without any formal pronouncement by the council. U.S. Ambassador Adlai E. Stevenson expressed regret and surprise the veto had "prevented the council from doing its duty." He said the action was hardly designed to engender confidence in the Soviet Union's avowed desire to strengthen peace through the United Nations.

INVESTMENTS PLANNED

Evidence so far, however, indicates the companies known to be locating in these areas plan capital investments of \$200,000,000 for plants that would provide 8,000 jobs. Officials estimate these plants would create another 24,000 jobs in the service and construction industries. "As a first effort, the program has been very effective," one official said. "But we are the first to admit that there are some limitations."

Price-Fixing Charges Laid

OTTAWA (CP)—Price-fixing charges have been laid against Sunbeam Corporation (Canada) Limited. The justice department submitted the charges to a true bill on four counts involving sales of electric appliances in Toronto, St. Catharines and Vancouver. The action stems from an October, 1962 report of the Restrictive Trades Practices Commission, recommending the government seek court action to prevent Sunbeam from trying to impose a minimum resale price on its products.

CLASS OF '68

The Class of '68 registered en masse Monday and Tuesday, with the entertainment starting Wednesday. But it certainly meant a lot to a new comer to a strange university—even if it is smaller than most of the others. The whole idea of a Welcome Committee dates back two years. At that time a few of the students laid down some concrete plans that were designed to help the incoming class, and then they backed up these ideas.

Co-Op Expert Dies In West

SASKATOON (CP)—Walter B. Francis, 66, an expert on co-operative legislation in Canada, died Tuesday at his home. A native of Nova Scotia, Mr. Francis came to Saskatoon after serving in the First World War. He received his law degree from the University of Saskatchewan in 1926. St. Francis Xavier University at Antigonish, N.S., awarded him an honorary degree in 1956 as "the outstanding authority on co-operative legislation in Canada." He had been associated with the co-operative movement since 1928.

When your family is young... their security is completely in your hands. Here are two Confederation Life Plans that provide the help every young father needs: Confederation Life's Whole Life Plan... This plan protects your family at very low cost... provides the amount of money you choose as a lump sum or monthly income, or both. It builds substantial cash values and earns profitable dividends. For instance, a \$10,000 Whole Life Policy begun at age 25 will have a cash value at age 65 of \$5,640. Dividends, while not guaranteed, would provide an additional \$7,230 if left to accumulate at current scales. Together, a \$12,270 return on an investment of about \$6,100! A life plan... over and above the security it gives your family! The Family Protection Benefit This is an economical means of providing extra income for your family. You add it to a permanent insurance plan, usually for as long as your children are dependent on you. Your family receives \$100, \$200 or more per month during the period of protection you select, followed by the face amount of the policy. The premiums are low. At age 25 for example, you can give your family the protection of an extra \$100 per month for 20 years for as little as \$20.80 per year. They get maximum protection at the lowest possible cost. Talk to your Confederation Life man. He's trained to give you sound advice. He can show you how Confederation Life's insurance plans can provide money at any critical time of life. Phone him today. You'll find that a talk with your Confederation Life man is a step in the right direction. Confederation Life ASSOCIATION HEAD OFFICE-TORONTO V. F.
