### ALIVE IN THE GRAVE

Most of us have a lingering love of life, and the thought that there is just the barest possibility of being buried alive sends a shudder through us.

Medical men know that the human body in time of illness and at other times, too, is liable to assume all the outward appearances of death without the final separation having actually taken place. There are the coma, cataleptic and other forms of the unconscious state, each one bringing in its trend the very simulation of death itself.

"Happily, a medical man nowadays," said a physician to a reporter, "experiences no difficulty in declaring his patient to be dead, as a general rule, but it may perhaps happen once in his lifetime that he may have a doubt, in which case conviction either way follows upon his findings, which are simple and conclusive, and in which he cannot be mistaken.

"It is unfortunately true that there are thousands of nervous people now walking about in fear of being buried alive, this morbid conviction coming about through reading of an isolated case happening here and there, where perhaps some one has had a narrow escape of being subjected to a living burial. "These 'escapes' greatly outnumber those of the actual occurrence itself. The cataleptic usually show signs of life just in the nick of time to disappoint the undertakers and to relieve sorrowing friends.

"Of course, much of the evidence on which the allegation of premature burial is based depends on the fact that bodies on exhumation have been occasionally found distorted, thereby festering the notion that this or that occupant of the coffin has died from suffocation, a theory which is supported by the favorable condition of other exhumed bodies.

"But the idea is altogether wrong, in fact and in principle. It is well known among those who have made it a study that the apparent distortions, instead of demonstrating a living burial, purely depend upon natural causes brought about by decomposition, the influence of which is sufficiently strong enough to bulge out, and even burst, leaden coffins. This phenomenon does not happen in every case, but it does in a great many.

"No, no! I shall not go so far as to

Many persons cannot take plain cod-liver oil.

They cannot digest it.

It upsets the stomach.

Knowing these things, we have digested the oil in Scott's Emulsion of Cod-liver Oil with Hypophosphites; that is, we have broken it up into little globules, or droplets.

We use machinery to do the work of the digestive organs, and you obtain the good effects of the digested oil at once. That is why you can take Scott's Emulsion.

50c. and \$1.00, all druggists. SCOTT & BOWNE, Chemists, Toronto.

say that a premature burial has never taken place, but it has not occurred so often as is thought. I dare say it may occur in times of plagues and pestilences, where the presumed dead are buried within a few hours of death. That is where much mischief lies. But when panic prevails where does thought come in?

"In plagues, such as cholera, the state of collapse is so profound that it may perfectly simulate death itself, but the custom of burying the dead on the day of death is fortunately on the wane, even during advanced epidemics. It is probable that in the absence of medical aid in panic times in country places abroad it has led to living burial—indeed it must have done. But the last end of all under such conditions is merciful, for it must not be forgotten that if you are 'unconscious' only while being hermetically sealed in your coffin you will never again experience voluntary motion or sensation.

"However, where the doctor can be consulted, living burial is impossible even in a cholera panic, for there are certain bodily movements which generally occur after death from cholera, in the absence of which a medical man would hesitate to certify for burial.

"In ages gone by and in uncivilized countries still it is possible that unconscious cataleptics, or persons drugged to apparent death, may have been and perhaps still are occasionally buried alive, but I do not believe that in our own country or in any civilized land such events are possible.

"In Vienna the custom prevails of taking a body to the mortuary on the eve of burial, where it is 'tested.' Thimbles are placed on the fingers of the dead, to which are attached wires connected with the mortuary bells.

"Have the bells ever rung? Yes, once. "It is impossible for a doctor to mistake unconsciousness in its varied forms for death.

"Some time ago it was suggested that a law should be passed making it compulsory for a medical man to test bodies before giving a certificate of death. Testing by electricity was thought of, but it is an open question yet whether electricity kills or only stuns. At all events, we in this country are not convinced that such a test would be satisfactory or afford sufficient evidence of death, although it has its value. On the other hand, I don't think legislation of this kind is necessary. It would certainly reflect upon the medical profession.

"The Viennese custom is a wise one, and I should like to see it more generally adopted."—Pearson's Weekly.

### The Poor Editor.

Bill—Did you read about that fellow writing a poem on a \$50 bill?

Jill—No. The editor kept it, of course.

"No. He returned it."

"What, an editor return a \$50 bill?"

"Yes. He didn't know what it was." —Yonkers Statesman.

We presume everyone would like to know where they can get the best value for their money. Call to the new blue store, Sunny-side.—W. P. Colwill 211 dytd&wky 2wks.

Send sketch, model or photo for free advice. W. A. TAYLOR & BROTHER, Experts, New York Life Building, Montreal, and Atlantic Building, Washington, D. C.

### SIBERIAN PRISONS

The Rev. Dr. Lansdell publicly stated, after a thorough visit to Siberia, that should he ever have to change from clerical to convict life, he would choose Siberia and not Millbank or any other English prison, as the scene of labor. I have no hesitancy to say that personally I prefer prison life in Siberia to Sing Sing, and to set the stamp of my approval upon the prison, following the kindly invitations of the chief of police, I was about to transfer my baggage from the hotel of the rich Chinaman to the jail. However, though the prison tempted me by its superior comfort, better food and bathtubs, I had to give up the project. Interesting things were to be seen in the town and upon the great river every minute of the day, so I remained with Tai Phoon-Tai, only visiting the prison for my tub every day. As upon my first visit I was always allowed to walk about the place and visit all the prisoners, and I saw nothing to change my opinion of the cleanliness and the humane condition under which they lived.—Stephen Bonnell in Harper's Magazine

## Hood's Pills

Are gaining favor rapidly. Business men and travellers carry them in vest pockets, ladies carry them in purses, housekeepers keep them in medicine closets, friends recommend them to friends. 2c.

## TENDERS.

Tenders will be received by the undersigned, at 12 o'clock noon, for the whole or any portion, of the estate of the late firm of McDonald & McEachern of Souris.

An inventory of the estate may be seen at the office lately occupied by the said firm, at Souris, aforesaid.

A certified cheque, payable to the order of the undersigned, equal to 20 per cent. of the amount of the tender, must accompany the tender, which cheque will be forfeited, if the tender be accepted, and the person tendering fails to complete the purchase of the property tendered for.

In case tender be not accepted, the cheque will be returned.

The estate consists, amongst other things of safe and shop furniture, a house and lot at Souris East, 50 acres of land at New Harmony, a lot of land at Souris, a farm, known as the Flannigan Farm, book debts, promissory notes, judgements in the Supreme and County Courts.

The highest or any tender not necessarily accepted.

Dated at Souris this 1st day of October, A. D., 1898.
