

Interesting Experiments.

A WOMAN PUT UNDER HYPNOTIC INFLUENCES—HER STRANGE ACTS.

The amphitheatre of the Charite Hospital in Paris was on Oct. 20 crowded with persons who had been invited to witness the experiments of hypnotism made by Dr. Luys, member of the Academy of Medicine and doctor at the Salpêtrière. Before introducing Mlle. Esther, he said, the Doctor showed his method of photographing the face of a subject in a state of hypnosis.

By the means of magnetic passes, the Doctor threw her into a state of lethargy in a cataleptic condition, and then into a stage of vivid somnambulism. Dr. Luys placed a tube containing ammonia on her neck, and she seemed instantly to feel the effect of the narcotic preparation. She assumed a natural air, and soon went straight toward Dr. Reclus, who was present, and proposed to preform the "Mascotte" with him. The Doctor was rather annoyed by the performance shown by Mlle. Esther, so Dr. Luys diverted her attention from him to Dr. Segond, who consented to play the part of Pippo, while Mlle. Esther took that of the Mascotte. He sat down beside her, whereupon she promptly kissed him. "Now sing," said Dr. Luys holding the tube on her neck, and she began at once, stopping short when the tube was withdrawn.

Dr. Luys then begged Dr. Reclus to place himself behind the young woman, and to put the tube on her neck and then gradually take it away. Mlle. Esther began again to sing; but in proportion as the tube was taken further and further from her, her voice became fainter and fainter till it died away entirely. She then fell, in a cataleptic condition, into the arms of the hospital assistants who were behind her.

Dr. Luys made other experiments on Mlle. Esther. By looking at her he made her follow with her eyes an imaginary bird in the air, and at last she thought she had caught it in her hands.

The most remarkable display was when Dr. Luys placed a tube containing ten grammes of essence of thyme on Mlle. Esther's neck. In a few moments her face became purple, her arms and hands stiff, and the neck swelled out in a most extraordinary manner. From thirty-one centimetres it grew, by the contraction of the muscles, to thirty-five. The suffering seemed to be intense, and when the tube was taken away the patient was two minutes at least, before returning to a stage of lethargy. Dr. Luys has for many years been studying hypnotism, and no one can for a moment imagine there is anything like charlatanism in his experiments.

A Gay Lotherio.

AND HOW HE WAS TRAPPED BY HIS YOUNG WIFE—A STRANGE-TORY FROM THE MORAL CAPITAL OF MAINE.

An A g a s t d e p e t e , o n N o v . 2 7 o f the Bangor Commercial says: Two young people were recently married in this city. They were of good family, the one an accomplished and attractive young lady, the other a young man of supposed exemplary morals and good character who brought prospects for the future. They began happily and a cosy cottage with a bay window and a shelf of plants, and conjugal felicity reigned. But after a few weeks of this life the heretofore devoted spouse began to spend his evenings away from home. This he did so frequently that the wife had her suspicions aroused. She questioned him repeatedly, as to his whereabouts when away after dark, and he pleaded business engagements or offered some trivial excuse in a joking way.

The young wife's curiosity was not allayed, however, so one evening last week she resolved to follow the partner whom she had recently wedded so trustfully. Accordingly she dogged his footsteps, but instead of being led to his place of business, the wife found herself taking an extended walk across the Kennebec bridge. The husband entered a house on one of the principal streets, and the wife remained waiting on the door steps for a while and then boldly opened the front door and entered the parlor.

The surprise was complete. Her beloved George was in close proximity to a fair-faced maiden and it required no second glance for the unexpected visitor to perceive that this couple were on very good terms. The wife was indignant. She glared at the girl and berated her with angry tongue.

After expending her wrath, the enterprising lady led her better half across the river to their nest on the west side investigation revealed the fact that the young man had been courting maiden No. 2 for some time, under an assumed name, representing himself as a single man. Their courtship had been very loving. They were engaged, and all ran smoothly until the exasperated wife swooped down upon them and ended their dream of love.

Disorder of Digestion.

All the vital functions are more or less processes of combustion, and they are subject to laws similar to those that rule in the burning of coal in our fire places. The reason why we allow our life to run to the gutter is because we

at we put on too much coal or that we allow them to be smothered in ashes. It is the child who pokes the fire from the top to break the coal and make it burn faster; the wise men pokes it from below, so as to rake out the ashes and allow free access of oxygen. And so it is with the functions of life, only that these being less used stool, many a man acts in regard to them as a child does to the fire. The man thinks that his brain is not acting because he has not supplied it with sufficient food. He takes more time a day, and beef tea to supply its wants, and he thinks, and puts in a poker to stir it up in the shape of a glass of sherry or a nip from the brandy bottle. And yet all the time what his brain is suffering from is not lack of fuel, but accumulation of ash, and the more he crams himself with food and supplies himself with stimulants, although they may help him for the moment, the worse he ultimately becomes, just as the breaking the coal may cause a temporary blaze, but allows the fire all the more quickly to become smothered in ashes. It would seem that vital processes are much more readily arrested by the accumulation of waste products within the organs of the body than by the want of nutriment of the organs themselves.—Dr. L. Lander Brunton.

C. C. CARLTON, AUCTIONEER, Commission Merchant, SOURIS, P. E. I. Oct. 3, 1887.

TANARAC

Alderman R. E. Elbeck, Kingston, Ont., says: "Tanarac Elixir" is the best medicine on earth for Coughs and Colds. In my own case it produced rapid and gratifying results. I caught a severe cold which it seemed impossible to break up, but continually became more thoroughly seated. Finally a hacking cough set in which troubled me day and night, causing soreness of the Lungs. Hearing your "Tanarac" highly recommended, I procured a bottle. The first dose eased the cough, and one bottle completely cured me. It is a splendid preparation, pleasant to the taste, and should be kept in every house. Sept. 21, 1887—end & wky

W. Vinnicombe, Fitzroy Street, near St. James Church. Orders for piano tuning left at C. P. Fletcher's, will be attended to promptly. N. B.—I have two fine old Violins for Sale. August 20, 1887.

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of those ailments. Dr. Pierce's Favorite Prescription is the outcome of this experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect specific for woman's peculiar ailments. As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic. As a soothing and strengthening nervine, it is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, nervousness, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep, relieves mental anxiety and despondency. Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove very beneficial. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhoea, excessive flowing, painful menstruation, unnatural suppressions, prostrations, or falling of the womb, weak back, female weakness, anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with "internal heat." As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for the purpose of removing impurities incident to that later and most critical period, known as "The Change of Life." "Favorite Prescription" is a safe and reliable medicine, and when taken in connection with the use of Dr. Pierce's Golden Medical Discovery, and small laxative doses of Dr. Pierce's Purgative Pellets (Little Liver Pills), cures Liver, Kidney and Bladder diseases. Their combined use also removes blood taints and abolishes cancerous and scrofulous humors from the system. "Favorite Prescription" is the only medicine for women, sold by druggists, under a positive guarantee, from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years. Large bottles (100 doses) \$1.00, or six bottles for \$5.00. For large, illustrated Treatise on Diseases of Women (100 pages, paper-covered), send ten cents in stamps. Address, World's Dispensary Medical Association, 205 Main St., Buffalo, N. Y.

JOHNSON'S ANODYNE LINIMENT. FOR INTERNAL AND EXTERNAL USE. Cures Diphtheria, Croup, Asthma, Bronchitis, Neuralgia, Pneumonia, Rheumatism, Bleeding at the Lungs, Hoarseness, Influenza, Hacking Cough, Whooping Cough, Catarrh, Cholera Morbus, Dysentery, Chronic Diarrhoea, Kidney Troubles, and Spinal Diseases. We will send free, postpaid, to all who send their names, an illustrated Pamphlet. All who buy or order direct from us, and request it, shall receive a certificate that the money shall be refunded if not absolutely satisfied. Retail price, 25 cts.; 6 bottles, \$1.50.
