MISCELLANEOUS.

WALL STREET, NEW YORK

The curses that follow in the path of civil war pass over across the threshold of peace, and linger long after the last shot has been fired. They are felt now, in the taint that pervades the moral atmosphere of the land, and especially of the great and populous cities. Among the lower class a the genius murder, rape and robbery aways with a power unknown before; and among those who have moved in a higher sphere, a spirit of boundless avarice impels to lawlessness and crime. The several instances recorded of late of dishonest practice on the part of men who have occupied positions of trust and importance in our financial community are awakening people to a sense of the demoralization that prevails. It will be found that, in most cases, the men who thus yield their honour to the lust for mammon have been eager and mouthing advocates of war. They found their opportunity in gathering riches sent adrift upon the current of civil strife, and they hesitated not to urge the conflict that swelled the stream of the blood of their countrymen upon which the gold waifs floated in their hands. Recklessly they encouraged the convulsion which upheaved to them the elements of wealth; recklessly they squandered the fortunes thus infamously acquired. And now, with equal recklessness they plunge into the vortex of crime to grasp more treasure and support their habits of luxury and vice.

The firm of Morris Ketchum Son and Co, were, in a financial point of view, the pets of the War Administration. The advantages that others toiled for were thrown into their way. They basked in the sunshine of power, and the brightness thereof inspired the business world with an unlimited confidence in the favored ones who were so loyal in their pecuniary transactions, and so peculiarly fortunate in their loyalty. None were more earnest and enthusiastic than the Ketchums in their advocacy of a vigorous prosecution of hostilities. They were black Republicans heart and hand, and to the very bottom of their well filled coffers. They were for war to the bitter end, and it is most strange that in the end they share the bitterness.

But of the end this is but the beginning. The era of defalcation, forgery, and other such offences against the financial code, has set in. The day of war contracts has passed, but there will be no lack of other devices to build up speedy fortunes. We suggest that our people place a little less confidence in the boastful loyalty that has traced the war path because it led to affluence, and a little more confidence in the loyalty that springs from honesty and a conscientious regard for its obligations to society. If instead of studying how to rule and punish the conquered South, we would turn our attention to purging our own social system of its poisonous attributes, it would be a far surer and more profitable employment.

Edward B Ketchum, the respected and aristocratic Wall Street broker a week ago, the forger of to-day, may have been a man of correct impulses and honorable character. But there is slight protection for purity in the midst of the corruption that reeks from Wall street and its polluted vicinity. He was simply one of the many victims of the rage for stock-gambling and gold speculation that has been engendered by the war. It is yet in the power of [illegible] opinion to check this evil. Let us take the beam from our own eyes and leave to the Southerners the task of extracting the mote from theirs. Their crimes, at the worst, was a mistaken conception of patriotism; but the sin that overshadows the temples of the money changers of the North is that which impelled the meek and lowly Christ, for once only in his earthly career of love and humility, to raise his hand in anger.—*Quebec Gazette*

A "CANNY" SCOTCH LADY.—She was penurious in small things, but her generosity could rise to circumstances. Her dower was an annuity from the estate of Mortonhall. She had a contempt for securities, and would trust no bank with her money, but kept all her bills and bank notes in a green silk bag that hung on her toilet glass. On each side of the table stood a large white bowl, one of which contained her silver, and the other her copper money, the latter always full to the brim, accessible to Peggy, her handmaid, or any other servant in the house, for the idea of any one stealing money never entered her brain. Indeed she once sent a present to her niece, Mrs Cunningham, of a £50 note wrapped up in a cabbage leaf, and entrust it to the care of a woman who was going with a basket of butter to the Edinburgh market. Mrs. Cunningham related to me this and the following stories of her aunt:—One day, in the course of conversation, she said to her niece, "Do you kin Margaret, that Mrs. Thomas K——— is dead. I was gaun by the door this morning and thought I would just look in and speer for her. She was very near her end, but quite sensible, and expressed her gratitude to God for what He had done for her and her fatherless bairns. She said she was leaving a large young family with very small means, but she had that trust in him that they would not be forsaken, and that he would provide for them. Now, Margaret, you'll tell Peggy to bring down the green silk bag that hangs on the corner of my looking-glass, and you'll take twa thousand pounds out of it, and give it to Walter Farier for behoof of the orphans; it will fit out the laddies, and be something to the lassies. I want to make good the words, 'that God would provide for them,' for what else was I sent that way this morning, but as a humble instrument in his hands?' Miss Trotter had a friendship for a certain Mrs. B——— who had an only son, and he was looked on as a simpleton. But his relatives had interest to get him a situation as clerk in a bank, where he contrived to steal money to the extent of five hundred pounds. His speculations were discovered, and in those days he would have been hanged, but Miss Trotter, hearing the report, started instantly for Edinburgh, went to the bank, and ascertained the truth. She at once laid down five hundred pounds, telling them: "Ye maun not only stop proceedings, but ye maun keep him in the bank in some capacity, however mean, till I find some other employment for him." Then she fitted the lad out, and sent him to London, where she had a friend to whom she wrote, offering another five hundred pounds to any one who would procure him a situation abroad, in which he might gain an honest living, and never be trusted with money. After all this was settled, she went herself and communicated the facts to his mother.—*Mystifications, edited by Dr J. Brown.*

A SPLENDID PROSPECT.—The eyes of the world are peculiarly fixed upon British America at this time, some arguing for a mutual position; others, with us, for preparedness for union of action and independence at an early day; and others still, in the strain of an able London weekly, which speaks as follows in a late number: "The day will surely come when the talk of an North American federation as a preliminary to separation from England, will merge in the effort to recognize the great federation of the English Empire, in which there will be dependencies no more, but members large and small of one great body, under one head, equal in rights and duties, working together for all common objects in that freedom which has, so to speak, its home in a peculiarly accepted law. In that day even the idea of customs duties between any one member of the federation and another may become obsolete, and there may be but imperial excise duties where necessary, imposed by the vote of a truly imperial Parliament or council, in which every member of the federation may be duly represented."—*New York Albion.*

The Chilian Congress has passed with some great unanimity a bill prepared by the government giving those who do not profess the Roman Catholic faith liberty to offer worship within the precincts of individual property. Dissenters are also allowed to found and establish private schools for instructing their own children in the doctrines of their religion. By this Legislation, free worship, which has existed in fact in some of the towns in Chili, more especially in Valparaiso, will have required the legal sanction which it lacked; and [illegible] of all denominations may be [illegible] and protected by law.

[EXTRACTS FROM NEWSPAPERS.]

On reference to a return made to Parliament, and ordered by the House of Commons to be printed, 7th June, 1861, it will be seen that the increase of Duty for the year, paid by the "QUEEN," was £2567, being upwards of £1000 more than paid by any other office ever yet established in this City.

[From Gore's General Advertiser, Oct. 24, 1861.]

"Indeed, we believe that we are perfectly justified in saying that no other Company, within the same period, ever attained so large an income in either the Fire or Life Departments as the Queen Insurance Company. In making this statement we make no exception even in favor of our older local companies, namely, the Liverpool and London, the Royal, and the Lancashire Insurance Companies."

[From the Civil Service Gazette, Nov. 2, 1861.]

"Among these important institutions stands eminent for its solidity, as well as for its success, 'the Queen Insurance Company,' which last week held its annual meeting of proprietors in Liverpool. A reference to the ample report in another page will fully satisfy every reader of the signal progress made by this association since its foundation. Such success is, indeed, rarely attained, and it attests at once the excellence of its management, and the public confidence in its constitution."

[From the Liverpool Mercury, Nov. 2, 1861.]

"It must be gratifying to the public generally, and especially to the proprietors, to find that its income during the past three years has increased at the rate of £20,000 per annum. We believe that no other Company, within the same short period, ever attained so large an increase either in the Fire or Life Department. This speaks highly for the activity and zeal of the management, while the promptness with which all the claims arising out of the late disastrous fire in London were met, testifies into their financial ability and the care and prudence which marked the investment of these funds."

DR. LA'MERT ON SELF-PRESERVATION.

PRICE WITH ENGRAVINGS AND CASES, 1s 6D., BY POST, 3s. CURRENCY.

SELF-PRESERVATION: A popular Essay on Nervous and Physical Debility, resulting from injurious habits contracted in youth, or excesses in maturity, which, by prematurely exhausting the functions of manhood, destroy the happiness of Married Life, or prevent the fulfilment of engagements that constitute the most cherished objects of existence.

By Dr LA'MERT, 37 Bedford Square, London, Licentiate of the Royal College of Physicians of Edinburgh; Member of the Royal College of Surgeons, England, &c.

The above work contains most useful and interesting information on the physiological changes which occur in the Reproductive System during the periods of youth, puberty, and manhood; and on the due attainment of that degree of functional vigour upon which the hopes of posterity depend. It also points out how all the attributes of manhood can be preserved to an advanced period of life, how they are lost, and how they can be recovered. It is free from the gross exaggerations, alarming descriptions, and dangerous remedies so generally resorted to by persons, who, practising with false medical qualifications, inflict most serious injuries, and render judicious treatment frequently abortive.

The author is the only legally qualified practitioner whose name stands on the 'Medical Register,' (the sole test of medical qualification) who has been exclusively engaged for a series of years in the treatment of the various functional disorders of the nervous and reproductive system, which, owing to the great discoveries of modern science, are rendered subservient to a rational, simple and easy mode of treatment.

At home for consultation daily from ten till two, and from six till eight, either personally or by letter—37 Bedford Square, London, England.

Patients residing in the Colonies can be successfully treated by correspondence, and remedies can be forwarded in secrecy and safety to any address.

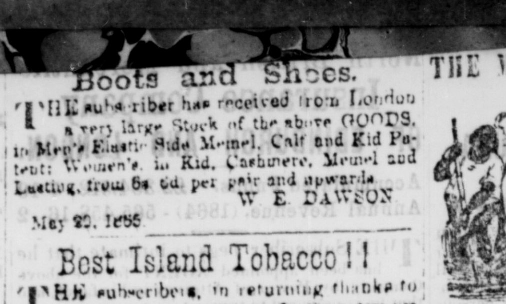
THE MOST RELIABLE FRIEND!



Holloway's Ointment.

Its Searching & Healing Properties are known and recognized throughout the World.

The number of years this invaluable Ointment has stood the test of public opinion, (and the longer known the better appreciated) is a testimony of itself more convincing than anything that could be written in praise of its truly wonderful healing properties. In the cure of bad legs, bad breasts, sores, wounds, and ulcers, its effect is marvellous. For ring-worm, scald head, scrofula, and diseases of the skin generally, there is no remedy to be compared to it. When assiduously rubbed upon the skin (previously well bathed in warm water) this Ointment is quickly absorbed into the system, and cleanses, in its passage, every part to which it is applied.

Glandular Swellings, Mumps, Bronchitis, Quinsey, Sore Throats and Diptheria.

In any of the above diseases, immediate and permanent relief is obtained by effectually rubbing this detergent Ointment, twice a day, upon the neck, chest and back. Its acts upon the very mainsprings of life, for through the glands pass all new matter required for the body's reparation and all old particles detrimental to its preservation. The Ointment, used conjointly with Holloway's Pills, will act so searchingly and certainly as to effect cures in the most hopeless cases.

Rheumatism, Lumbago, Contracted and Stiff Joints.

Many thousands of martyrs from the above complaints have found life almost unsupportable; yet, if Holloway's Ointment be briskly and perseveringly rubbed upon the parts affected, ease may be safely guaranteed, especially if the pores of the skin be previously opened by fomentations with warm water. The gross humors require expulsion from the system; it is therefore necessary to have recourse to Holloway's admirable Pills, which, by purifying and strengthening the system, greatly assist the operation of the Ointment and facilitate and confirm the cure.

Bad Legs, Bad Breasts, and Ulcerations of all kinds.

There is no medicinal preparation in the world which may be so thoroughly relied upon, in the treatment of the above ailments, as Holloway's Ointment. Nothing can be so simple or safe as the manner in which it is applied, or its action on the body, both locally and constitutionally. The Ointment, rubbed around the part affected, enters the pores just as salt enters meat. It quickly penetrates to the source of the evil and drives it from the system.

Erysipelas and Scrofulous Sores.

In all irritations of the skin, sores, ulcers, burns or scrofulous enlargements of any kind, Holloway's Ointment presents a ready and easy means of cure. It manifests a peculiar power in restraining inflammation, removing stagnation, cooling the heated blood, and checking all acrimonious and unhealthy discharge.

Diseases attendant on Childhood.

Diseases incident to early life fall more under the management of the mother than the medical man. Holloway's Ointment should therefore be regarded by her as a "Household Treasure," as it never fails in bringing out the rash in measles and scarlatina; and for the removal of all skin diseases its effect is miraculous. In cases of whooping cough and croup, this invaluable Ointment should be rubbed twice a day upon the throat and chest, and the youngest invalid will derive therefrom the most soothing relief. Two or three of Holloway's famous Pills, reduced to a powder, will augment the curative powers of the Unguent.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Corns (soft)	Rheumatism
Bad Breasts	Cancers	Scald Heads
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions		Sore Throats
Bite of Moschetoes and Sand Flies	Elephantiasis	Skin Diseases

Coco-bay	Gout	Sore Heads
Chiego-foot	Glandular Swellings	Tumours
Chilblains	Lumbago	Ulcers
Chapped Hands	Piles	Wounds

THE NEW FRENCH REMEDY.

By Royal Letters Patent, under the special sanction of Her Majesty's Government and the Chiefs of the Faculté de France.

THERAPION:—or CURE OF CURES. This successful and highly popular medicament, as employed in the continental hospitals by Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed. Devoid of *taste odour*, and *appearance* of medicine, it can be left or carried anywhere, and taken from time to time without exciting suspicion. Each package contains full instructions for every case.

THERAPION, No. 1, in three days only removes gonnorrhœa, gleet and all discharges, effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases. In dysentery, piles, irritation of the bowel, lower, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief, where other well-tried remedies have been powerless.

THERAPION, No. 2, for syphilis, disease of the bones, sore throat, threatened destruction of the nose and palate; impurity of blood, scurvy, pimples, spots blotches, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c. to the destruction of the sufferer's teeth; and ruin of health. Under this medicine every vestige of disease rapidly disappears and the skin assumes the pleasing softness of infancy

THERAPION, No. 3, for relaxation, spermatorrhœa, and all the distressing consequences arising from early abuse, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated. To those who are prevented entering the marriage state by the consequences of early error, it will render essential aid by subduing all disqualifications; and restoring the lost tone to the system. Therapion may be procured at 11s. and 33s per package, through all medicine vendors, or in £5 packages for foreign shipment, direct from London only, by which £1 12s are saved; and £10 packages for the more inveterate cases, by which a still greater saving is effected. In ordering the above, the purchaser should state which of the three numbers he requires.

HER MAJESTY'S HON. COMMISSIONERS have graciously permitted the Government stamp, bearing the word "Therapion" in white letters, to be attached to each package; thus insuring the public against fraudulent imitations, and securing to the proprietor the sole right of supply throughout her dominions; and any infringement of which they will prosecute with the utmost severity.

THE MEDICAL ADVISER on the modern treatment of mental and physical incapacity, syphilis, stricture, &c.; with unfailing rules and prescriptions for the speedy cure, by very simple means, of all the more common diseases and supposed incurable maladies of the sexual system By Dr W. De Roos, M. D, &c., *of the Ecole de Medicine, Paris.*

REVIEWS AND NOTICES.

"The MEDICAL ADVISER, by WALTER DE ROOS, M. D., for the class of diseases upon which it treats is undoubtedly the best and most soundly practical book which has come under our notice. The author is a man of most enlarged experience."—*North of England Telegraph, June 29th, 1861.*

"To those who contemplate marriage its perusal is especially recommended.—*Bap Mag* ——— "The knowledge it imparts must come some time, and happy they who do not possess it too late."—*Politician* ——— "Cure is certain in every curable case, and few indeed are they which are not so."—*Med. Review* ——— "It is calculated to effect a complete revolution in the treatment of these complaints."—*Med. Gaz* ——— "Simple and inexpensive, every sufferer may cure himself speedily privately, and at the least possible cost."—*Scalpel.*

From long practical observation of the treatment pursued in the most famous Institutions of this country and the continent, for those diseases referred to in the above work, the Proprietor has had somewhat unusual facilities for acquiring that uniform success which has hitherto characterized his practice, in which the distressing consequences resulting from the injurious employment of mercury, capivi, sarsaparilla, and similar dangerous medicines are entirely obviated. Lasting benefit in these cases can only be reasonably expected at the hands of those who devote their chief attention to such diseases; and to such only can confidence be safely extended. Dr. De R. refers with pride to the numbers he has been instrumental in restoring to health and happiness, whilst to all who need such aid he offers every assurance of speedy restoration.

FOREIGN RESIDENTS can be successfully treated by correspondence, on sending the detail of their cases, with a Bank note or Bill on a London house for £5 or £10, in order that a package of medicines to meet the exigencies of the case, may be sent out by next mail, thus avoiding the protracted suffering and unnecessary loss of valuable time, which must otherwise occur

DR DE ROOS' GUTTÆ VITÆ or LIFE DROPS; *Protected by Royal Letters Patent of England; Seals of the Faculte de France; Royal College of Prussia, &c.*, have in numberless instances proved their superiority over every other advertised remedy for Spermatorrhœa, languor, lassitude, depression of spirits, irritability, anger, excitement, needless fear, distaste and incapacity for society, study or business; indigestion, pains in the side, palpitation of the heart, giddiness, noises in the head, impotency, impediments to marriage, &c. This medicine strengthens the vitality of the whole system, gives energy to the muscles and nerves, thus speedily removes nervous complaints, renovates the impaired powers of life, and invigorates the most shattered constitution. For skin eruptions, sore throat, pains in the bones, and all these diseases in which mercury, sarsaparilla, &c. are too often employed in vain, to the serious detriment of health, its surprising efficacy has only to be tested to be appreciated.

As these complaints if neglected become chronic or incurable, sufferers will do well before they waste valuable time in seeking aid from instruments, and other absurdities professing to supersede medicines, to make fair trial of a remedy, which concocted on unerring scientific principles, cannot fail, and may be carried about the person, or left upon the toilet table, without exciting a suspicion of its nature. Price, 11s, and four times the quantity at 33s per bottle. The £5 packages containing twelve 11s quantities, by which a saving of £1 12s is effected, will be sent from 25, Bedford Place, only on receipt of the amount per draft on a London house or otherwise

PAINS IN THE BACK, GRAVEL, LUMBAGO, GOUT, RHEUMATISM, DISEASE OF THE KIDNEYS, BLADDER, &c. DR DE ROOS' COMPOUND RENAL PILLS are a most safe and speedy Remedy for the above dangerous complaints Discharges, and Diseases of the Urinary Organs generally, which too frequently harass the sufferer over the best years of life, and end only in an agonizing death. They agree with the most delicate stomach, and in three days effect a cure when capivi, cubebs, &c., have utterly failed. 2s 9d., 4s 6d., 11s., and 33s. per box. The superiority of these celebrated medicines over everything of the kind, is universally acknowledged, and the extraordinary demand for them without precedent.

Many there are, who from natural diffidence, or fear of discovery, would silently bear their afflictions rather than apply for aid to those from whom they may reasonably expect relief. With the above remedies the sufferer may without the knowledge of a second person, cure himself speedily, privately, and at the least possible expense.

C., and they will be sent securely packed per return.

CAUTION.—*Sufferers should guard against the recommendation of useless imitations by dishonest [illegible], who thereby obtain a larger profit. All sufferers from general nervousness, debility, low spirits, sleeplessness, harassing dreams, unnecessary fears, mental irritability, failure of the mental and bodily powers, weakness of the nerves, noises in the head, giddiness, indigestion, rheumatism, pains in the back, and other symptoms of chronic disease, will hail with joy the discovery of Dr. De Roos' Life Pills, that speedily and almost magically remove pain and disease of whatsoever nature, restore cheerfulness of spirit and vigor to the mind, and strengthens all the organs on which health and life depend. They do not contain a particle of mercury, but are purely vegetable. They act mildly on the bowels, without pain or griping, impart strength to the stomach, promote a healthy action of the liver, thus preventing, or when present curing the jaundice and dropsy, clearing the skin, removing sallowness and pimples, purifying the blood, and marvellously invigorating the whole system. For elderly people or when an occasional aperient is required, nothing can be better adapted. Owing to the great and increasing demand for these pills, and in order to protect the public from fraudulent imitations, Her Majesty's Commissioners have graciously permitted the proprietor to have his name "WALTER DE ROOS, LONDON," impressed upon the government stamp affixed to each box. Sold by all medicine vendors in the world; price 2s. 9d., 4s. 6d., 11s., and 33s. per box.

MOFFAT'S LIFE PILLS AND PHŒNIX BITTERS.

THESE Medicines have now been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

IN MANY THOUSANDS

of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and indulging them with renewed tone and vigor, that they were indebted for their name.

Unlike the host of pernicious quackeries which boast of vegetable ingredients the LIFE MEDICINES are purely and solely vegetable; and contain neither *Mercury*, nor *Antimony*, nor *Arsenic*, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened fæces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind to produce habitual Costiveness with all its train of evils, or sudden Diarrhœa with its imminent dangers. This fact is well known to all regular anatomists who examine the human bowels after death; and hence the prejudices of these well informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infallible.

FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The LIFE MEDICINES have been known to cure *Rheumatism* permanently in three weeks and *Gout* in half that time, by removing local inflammation from the muscles and ligaments of the joints.

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and hence they have ever been found a certain remedy for the worst cases of *Gravel.*

Also *Worms*, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

Asthma and *Consumption*, by relieving the air vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces those dreadful diseases.

Scurvy, Ulcers and *Inveterate Sores*, by the perfect purity which these LIFE MEDICINES gives to the blood, and all the humors.

Scorbutic Eruptions and *Bad Complexions*, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of *Salt Rheum*, and a striking improvement in the clearness of the skin. Common *Colds* and *Influenza* will always be cured by one dose, or by two even in the worst cases

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind, *Flatulency, Loss of Appetite, Heartburn, Headache, Restlessness, Ill-Temper, Langour* and *Melancholy*, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence: all violent purges leave the bowels costive within two days.

DIARRHŒA and CHOLERA, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucous membrane.

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this city, that the former proprietor of these valuable medicines was himself afflicted with this complaint for upwards of THIRTY FIVE YEARS, and that he tried in vain every remedy prescribed within the whole compass of the *Materia Medica*. He, however, at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

FEVER AND AGUE.

For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent.—TRY THEM, BE SATISFIED, AND BE CURED.

Bilious Fevers and Liver Complaints.

General Debility LOSS OF APPETITE, AND DISEASES OF FEMALES—these medicines have been used with the most beneficial results in cases of this description. KING'S EVIL and SCROFULA, in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. NIGHT SWEATS, NERVOUS DEBILITY, NERVOUS COMPLAINTS of all kinds, PALPITATION OF THE HEART, PAINTER'S COLIC, are speedily cured.

MERCURIAL DISEASES.

Persons whose constitutions have become impaired by the injudicious use of MERCURY, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla. A single trial will place them beyond the reach of competition, in the estimation of every patient.

Be Careful of Counterfeits.

Severs have lately been discovered, and their nefarious authors arrested, both in the City of New York and abroad.
