

this end, the UPEI CFS Committee is presently working on crucial follow-up activities directed toward the 'powers that be'. Two such activities are as follows:

1. lobbying for student representation on the decision-making bodies regarding funding (i.e. MPHEC and Student Aid Committee).

2. preparation and submission of a brief, on behalf of the UPEI Student Union, to the Committee on Secretary of State. This committee is receiving submissions February 20-25 from the regions regarding the areas of Post-Secondary Education and Health.

Students at UPEI should be aware that these types of activities do have an impact on decisionmakers. It is important for us to consistently voice our concerns so that government doesn't forget we exist. Students should not consider themselves extremists, but reasonable adults in protecting

what is of considerable importance to us.

The Week was successful due to student involvement, and continued involvement can only lead to greater benefits for us. Students who are interested in learning more about issues facing them, and/or becoming more actively involved in the discussion of these issues may contact the Student Union Office or your elected representative on council.
