**Sugar Firm Wants Plant Volvo Using**

TORONTO (CP)—A J. Gairdner of Oakville, Ont., board chairman of Atlantic Sugar Refineries Ltd., said Friday Volvo of Canada must relocate after January, 1967, the lease expiry date on the Volvo assembly plant at Dartmouth, N.S.

"We have other uses for the property," he said. "I don't think there is a possibility Volvo will remain there."

Carl Kohler of Toronto-Volvo of Canada president, said Volvo is interested in staying in the Canadian production market and the problem is "simply a matter of lease renewal."

"The 18 months notice of lease expiry is a standard business procedure," he said. "The last word has not been said in this discussion."

The Swedish automobile company's only car assembly plant in North America is located in a converted waterfront warehouse on property formerly oc-

cupied by Acadia Atlantic Sugar Refinery Ltd. Car production started in the spring of 1963.

**CARRIER DISABLED**  
SINGAPORE (AP)—Britain's largest aircraft carrier, the 43,346-ton Ark Royal, has been disabled by a fire in one of its boiler rooms and will not take part in an exercise later this month off the Australian coast, a Royal Navy spokesman announced Thursday. The spokesman said sabotage has so far been ruled out as a cause of the fire, which occurred last Sunday. He said repairs would take two or three weeks.
