Mrs. Capt. P. H. LANE.
"They thought I must die."
"THE STRONGEST STATEMENTS COULD NOT TELL HALF IT HAS DONE FOR ME."
Hereditary Liver Trouble,
ENLARGEMENT OF THE LIVER,
Diagnosed by the best Physicians, CURED.

GENTS—My father died of **Consumption of the Liver**, many in my family have died with the same disease, and a large part of the time for the past two years I have been **very sick, no appetite**, bowels alternating between **Constipation** and **Diarrhœa**. Pains all over my body, and **severe pains all through my Liver**, so **nervous I could not sleep nights**, and in fact was much **emaciated** and run down. My Physician said I had **Enlargement of the Liver.**

The day before I commenced the use of SKODA'S REMEDIES, **I had two different Physicians** call upon me. People thought I must die. I had doctored so much and taken so many different kinds of patent medicines, **without any benefit**, that when SKODA'S DISCOVERY was brought to me, I threw away doctor's medicines, and began its use.

Soon **I commenced to gain**; my **appetite increased**; from being **weak and feeble** I began to grow **stronger**; bowels assumed a **natural condition**; **sweet and refreshing sleep** came to me nights; **I began to increase rapidly in flesh.**

I have now taken less than a full course (six bottles) of SKODA'S DISCOVERY, with SKODA'S LITTLE TABLETS, and **to-day I am strong, am able to do my own work.** In fact, am well and happy. The strongest statement I could make would not tell half your wonderful Remedies have **done for me.**

Respectfully yours,
ROCKLAND, ME. MRS. P. H. LANE.

LETTERS TO THE EDITOR

SIR,—As our legislators are making some changes in our laws and constitution, this is the time for thoughtful men to express their opinions on those changes, and to suggest others if they think them needed. I do not think it a good thing to re enact the law giving a non resident a vote on a mortgage; or that the reduction in the expenses of legislation is anything like enough. This, I think, can only be done by establishing municipal councils and having them perform almost all the work now done by our Legislatures; they can do it much better and at less cost. And in order to bring that about some move should be made towards dividing the Island into suitable municipalities. And if any impediment were necessary to be placed in the way of a straight majority vote, a nine-tenths vote, instead of a two-thirds one, was quite sufficient. The amendment regarding women voting should have been inserted in the bill. Our countrywomen are saving and industrious, and are as intellectual and as well educated as the men, and should not be taxed unless they are allowed a voice in chosing the persons that frame the laws.

The small quantity of ice formed on our harbors the past winter, and the heavy ice outside and around the Island, has, I think, closed the mouths of everyone that cavilled against the theory that the cold water and the ice that comes in through the Straits of Belle Isle is the cause of much of our cold weather and late springs, and that if the Straits were dammed incalculable benefits would follow, and the terms of union could be carried out without a tunnel. I am of the opinion that the Dominion Government know very little about this matter, and what little information they have is mostly erroneous. It is probable that they will lay out a considerable amount in a short time boring the bottom of the Straits with the view of making a tunnel. Our Government should memorialize them, showing that closing Belle Isle Straits would be more to our interests than the tunnel; and that if they would offer to connect the Labrador portion of Newfoundland with St. John by rail, and make it the commencement of a northern C. P. R., it would go a long way toward settling existing troubles, and would do more to strengthen the British Empire than any project of like magnitude known. As our geographical position has enabled us to be better informed on this matter than others, our Government should direct the attention of both the Dominion and British Governments to it, and to emphasize their earnestness they should inform them that if they would take means to dam the Bell Isle Straits, we would waive all further claims against the Dominion Government for fulfilment of terms. This offer would certainly engage their attention, especially when they are at their wits' end to devise some plan to terminate the very strained relations existing at present between them and Newfoundland. I believe it is in the power of our Provincial Government to do a great deal of good both to ourselves and the Government's named, and sincerely hope they will seize this favorable juncture to further our interests. A like chance may never arise, and the tide should be taken at the flood. There is scope enough for doing good in such a movement for all the talents of our legislators in both Houses, and would do a million times more good to all concerned than their Barmicidal act, respecting the Legislature. It is the neglecting on the part of our members to study out and bring forward such measures as I have outlined, that brings their expensive uselessness into such prominence. We provide them with an expensive library to enable them to get information on such important matters. Yet, if such matters are thought out at all, and the people educated up to them, persons outside of the Legislature must do it; and to alter an old proverb a little—they do not feel any longer like paying and honoring their dogs, and doing the little barking that is done themselves. With your permission, I may have something more to say when it is known what means have been taken to provide revenue to meet the expenditure.

ESOTERICIST

A Conservative's Opinion.

SIR,—The apparently inconsistent and injudicious course pursued by Dr. Jenkins in supporting the present Government is depreciating him to a considerable extent in the estimation of those who were his true friends, and who always regarded him as a consistent and honorable politician. It is well known that Dr. Doctor was elevated to the very honorable position of a representative in the Dominion House of Commons by the Liberal Conservative Party. When he was elected to the seat which he at present occupies it was with the unmistakable understanding that he would still continue to faithfully espouse the cause of the party who so well and disinterestedly exerted themselves on all occasions to give him a prominent political position.

Under the circumstances, it appears very inconsistent on the part of Dr. Jenkins not to manfully adhere to the political principles which he on all occasions openly professed. But to our great surprise we behold him backing up the Liberal (?) Party and supporting a bill the object of which is to neutralize the influence of the very men who were instrumental in securing his election. He must now draw the line. Insincerity will not do. He must nail his colors to the mast and then the intelligent public will be in a position to draw their conclusions as to his political merits.

CONSERVATIVE.

Written for the Examiner

April.

Fair April time, the mildest of the year,
If not the brightest yet she brightest seems,
Since the long-wished-for pictures of our dreams
In smiling garbs and tender lights appear;
Glad sequel of the past so cold and drear:
Old winter's tears are died beneath her beams
And ever fitful March with transient gleams
Has ceased to fret us with her fickle ways:
The oft-repeated promise fulfilled
Of gentle moods and uneven ful days;
The warring elements of Nature stilled,
Lulled into slumber by her genial rays:
Fair April, fittest season for the birth
Of fairest flowers and sweetest gifts of earth.

JACOB B. DOCKENDORFF.

Imitating the "Claymore."

A firm of liquor dealers at Woodstock, Ont., have put upon the market in the west a colorable imitation of "Claymore" whiskey. From one firm in Windsor, Ont., L. A. Wilson & Co., of Montreal, the proprietors of the Claymore brand, received a full case of the suspected goods.

Of course it was not "Claymore." That goes without saying. Neither the bottles nor the labels were the same. And certainly the contents were not. Wilson & Co. at once took steps to protect themselves. The new "Claymore" was put up in a different shape of bottle and was labelled "Glenlivet Old Claymore Scotch, 1885," but still they hold that it is a colorable imitation of the genuine "Claymore" and that country customers asking for "Claymore" Scotch are liable to be deceived thereby. Proceedings have therefore been taken by their attorneys, asking for an injunction against the further sale of Nesbitt and Co's "Claymore," the destruction of the whiskey, and further for an account of the sales and for damages for the injury thus done to their brand.

THE "Myrtle Navy" plug correctly represents the whole plan upon which its manufacture is conducted. There is not a fractional part of a cent expended upon it for mere appearance. It is neither wrapped in tin foil nor worked into fancy shapes, nor put in fancy cases, nor subject to any kind of expense merely to please the eye or captivate the fancy. The manufacturers rightly believe that tobacco was not purchased for ornament, but for smoking, and therefore all extraneous expense was avoided and added to the quality of the tobacco. The public have testified in its case that they prefer paying their money for a high quality of article than for ornament put out of place.
