

# BUSINESS SOCIETY LOOKING FINE FOR '79

As we begin another semester at UPEI, we are faced with the loss of our editor and long-time student, Gerald McKenna. This must be the first semester in 7 or 8 years that Gerald is not registered. We trust his successor will do a more than adequate job.

As for the Business Society we begin our second term as decision makers for the Business students and we hope that each and every student will continue to show interest if they already haven't. It was quite evident in the first semester just which students were KEEN and showed some form of dedication to the UPEI business program because the same students attended all events, both social and academic. We will try to hold their attention this semester and capture the interest of the remaining students.

It was very nice to start receiving a form of feedback from the students as a number of 3rd year students expressed their dissatisfaction over the exam schedule, 2nd year students over the so-called "weeding out" process in the Business program, and 4th year students on the events throughout the semester in policy. Each of these areas were discussed with various professors

and we hope that satisfactory results will take place.

The students will soon be approached by a member of the Business Society and the purpose will be to try and sell a very nice shirt which will have either an emblem of the Business Society or just have the words written on the shirt. The product is top quality and the buyer will be receiving a good deal. Further details will be communicated as time moves on. Also a top priority of our group will be to organize a successful business person dinner in mid-February. In the past, a great number of downtown people as well as our own students have shown interest and it is hoped that this support will continue.

The Business Society will be holding its first party in the near future and hopefully the business students will get together and have a good time. Any suggestions as to entertainment will be welcomed.

I think that I will probably discontinue my discussions concerning the remaining faculties on campus because they seem to be a little hesitant to reply.

Good luck to all in the upcoming semester and I will see you next week.

Brian Gaudet  
President  
Business Society

## CAMPUS COMMENT

QUESTION: What do you think of the newly decorated Panther Lounge and the hard liquor license?

Shelly Pepler, Junior:  
It's good but a waste of money. The students would go whether its decorated or not. The liquor license is good but they went a little overboard on the furniture, since it is our money that being spent.

TOM CLARK (SOPH)  
I have only been to the Panther Lounge a few times. I like the changes made in it physically but I don't think there's enough waitresses a lot of the time for big events.

RADAR (SENIOR)  
Decorations are very good, sturdy chairs and tables that will last. Liquor license is a good idea as some people like hard liquor instead of beer.

Jamie Mortell, Sophomore:  
It's a good idea. Nice lounge, roomy and pleasant to be there. It's much better than before. The hard liquor license makes it available for people who don't like to drink beer and wine all the time.

Ronnie McKenzie, Junior:  
A nice place to go and talk with friends. It's a lot better than last year. You can sit there now with ease and comfort and you couldn't do that last year.

Vivian McKenna, Junior:  
Good idea. If they have money they should keep expanding something like this and spending the money wisely. It's about the same as last year.

Geraldine Johnston, Sophomore:  
I think it's a good idea. I like the atmosphere and having the choice of hard liquor or beer.
