ular time. The cost has to be balanced against the service." He said the Railway has taken steps that will, it is hoped, improve the service. By having shippers give certain data in advance regarding potato holdings and their location, etc., he felt that a considerable amount of the delay experienced in the past can be eliminated.

Mr. Fairweather said he would like to see an expansion of dairy products shipments to Newfoundland. He was pleased to hear that a frozen food plant was about to be started in the Province and expressed the opinion that the Island was a natural basin for the supplying of large markets near at hand.

If this pictured development takes place the Canadian National Railways expects to play an important part in the transportation of your products," said Mr. Fairweather.

FISHERY EXPANSION—He predicted that the products of the sea will become of increasing importance to the Province. He felt that every effort should be made to enlarge the harbours of the north side of the Island so that larger shipping
