Chugging!

Tuesday

Rock to a full nights fun of the 60's music with Greaser Night at the cafeteria and then the Barn. Jive and spot dances etc. are planned as part of the dance. As an added attraction we are including a take off of the TV game show "Let's Make a Deal". As contestants enter the Barn they receive a ticket which may prove to be a lucky one. The M.C. draws numbers out of a hat and the contestants holding the ticket with those numbers have the chance to make a deal with the M.C. The deals can be good or bad, with a big deal at the end.

Beer Chugging Contest:

Do you like to Drink? Then you are the person we're looking for. The preliminary beer chugging contest will be held at the Barn Tuesday, January 26, at 7:00 p.m. The chugging teams may consist of all males, all females, or both. There will be four members on each team and a limit of eight teams so get your entries in right away. Once you have your team come down

to the Barn and fill out the entry form. The rules for chugging are straight forward:

- 1) At the count of three the first man begins to drink from one of the two glasses set in front of him when he has swallowed the contents of the glass he turns it upside down on his head.
- 2) The second man begins to drink and so on.
- 3) The fourth man, better known as the sucker (excuse us) anchorman after disposing of his first drink must immediately dispose of his second drink. Once the second glass is upside down on his head the third man drinks his second drink then the second and then the first man. It's basically a race against time "1-2-3-4-4-3-2-1."

Judges may disqualify any teams that fail to adhere to the rules. The final chugging contest will be held on Thursday, January 28, at 4:00 p.m. and prizes will be awarded. Start practising and the Best of Luck.

Some of the highlights will be tricycle races, relay races, hockey with the players wearing one skate and one boot and many more. All you have to do is bring your good luck charms and a pair of skates.

P.S. If you don't have skates come anyway because you don't need skates for all the
