## SUCCESS CROWNS EVERY EFFORT!

### A Grateful Community Takes Advantage of Our Great Clothing Sale and are Thankful!

Special Attractions make Special Business. We realized this to the fullest extent during the past week. Our Great Clothing Sale kept the buying public all agog from morning till night during the past week; and so far from letting the excitement decline, we purpose that this week shall out-rival the last, and make the people even more enthusiastic.

### AN IMPORTANT VERDICT!

It has been decided by the best people that misrepresentation of goods don't pay, but that it pays well to always buy Men's, Boys' and Children's Clothing from the **WONDERFUL CHEAP MEN**, who always back up every advertisement with the goods as represented. The public are most respectfully asked to call and see their immense stock, even if they don't want to buy.

## Prowse Bros., the Wonderful Cheap Men.

Charlottetown, June 8, 1891—eod & wky

#### Notes and Comments.

—Montreal Gazette: Some Liberals complain that they know nothing about Mr. Abbott, the new Conservative Premier. This source of trouble, they may rest assured, will gradually wear away.

—The Montreal Gazette announces that the old Conservative firm will continue to do business at the old stand, and hopes by strict attention to business to merit a continuance of the public favor so generously accorded during the life of the late chief partner.

—The Church of England Synod, now meeting in Montreal, has spoken with a clear ring against the prevailing tendency to remove the sanctities which formerly hedged in the Lord's Day. The wicked course of the Board of Trade, in defying the divine law by securing the running of trains on the Lord's Day, and by demanding the opening of the canals on that day was sharply rebuked. The spending of part of the Lord's Day in amusement received unqualified condemnation.

—The Montreal Gazette remarks that for some time the Globe has had a daily article on the prospective injury to trade due to the lack of rain and on the trouble to come to the country from the weakness and divisions in the Government at Ottawa. The night it was announced that the Conservative Government was formed, with a united following at its back, copious showers fell in a large section of Ontario. There has not been such trouble as exists in the Globe office in mundane affairs since the stars in their courses set themselves to fight against Sisera.

—The last letter written by Sir John Macdonald is said to have been one to Premier Robson, of British Columbia as follows:—

"EARNESLIPPE,

"OTTAWA, May 19, 1891."

"MY DEAR ROBSON.—It has occurred to me that the present would be an opportune season for your Government to discuss with ours the various questions still unsettled between them. You, I presume, can get away from Victoria with little or no inconvenience, and you will find us here in Parliamentary session until the first of July, or later. We will then scatter until October, and at that season you, I suppose, will be wanted at home. Besides it will be a pleasant season for your journey—so, give yourself leave of absence, and Dewdney, you and I can take up—and any other unsolved questions that may remain. Herein fail not.

"Yours sincerely,

"JOHN A. MACDONALD."

According to the Victoria Colonist, Mr. Dewdney and Mr. Joseph Pope both vouch that this was his last letter. The subject on which it treats, that of the relations between the Provinces and the Dominion, is one which must soon be dealt with in a statesmanlike manner.

#### Some Orchard.

Mr. John Dowling, of Stevensville, Montana, in writing to a friend in Charlottetown, says:—

"This spring I set out 1,100 more apple trees, and now the largest orchard in Montana is owned by a Bluenose. This addition makes 30 acres in my orchard, or about 4,500 trees—or otherwise an orchard a half a mile long and 30 rods wide; or, if you should walk up and down each row of trees you would have walked 15 miles.

"This orchard is situated in the famous Bitter Root Valley, between two ranges of the Rockies, and is the most fertile valley in Montana, but, owing to the very slight rainfall, nothing would grow were it not for irrigation. Water for this purpose is supplied by the melting of the perpetual snows upon the mountain peaks. The manner in which the farmers in those western valleys bridge the mountain streams and send off little rivulets coursing down between every dill of potatoes or row of corn, over meadows and through waving grain fields, is a novel sight to a P. E. Islander. So completely is this water under control that it can be turned on and off at pleasure. The farmers are therefore wholly independent of rain, and never fail to raise a good crop. Their productions are wheat, corn, potatoes and hay, besides apples, peaches, plums, cherries, currants, gooseberries, strawberries, raspberries, etc."

Mr. Dowling's orchard is about twenty miles up this fertile valley from Missoula, the county capital, and is easily reached, as a branch line of the great Northern Pacific Railway runs to Grantsdale, a distance of thirty miles further up. He is one of the successful men who have gone west. We understand that he is also interested in some mining operations, which, we trust, will prove successful. Mr. and Mrs. Dowling are both Nova Scotians, the former being a native of Gay's River, Halifax County, and went to the land of the setting sun—that land of mountain and prairie, sunshine and snow—in 1880.

#### News Notes.

In Sweden you can get a competent servant girl for \$14 a year.

During May French imports decreased 73,128,000 francs, and exports decreased \$31,062,000 francs, as compared with the same month in 1890.

In the Presbyterian General Assembly at Kingston a few days ago a motion to require all church members to be total abstinents failed of consideration for lack of a second. This was bringing prohibition within too close range. It is more satisfactory to ask parliament to undertake the work of coercion.

TURNIPS—The rush for turnip seeds is to Geo. Carter & Co's. The varieties most in demand are the Hazzard's Improved and Carter's Prize Winner. dylw

#### Presbyterian General Assembly.

KINGSTON, June 18.—In the General Assembly Dr. Reid was empowered to receive a large bequest left by the late Mrs. Nichol, Peterboro.

The question of a summer session was referred to the presbyteries of the church for consideration, which shall report to the general assembly at its next meeting. The Presbyterian church has about 800,000 adherents. The scheme for the distribution of probationers will be sent down to the presbyteries for consideration.

Respecting the question of teaching theology in one of the colleges, it was carried that the assembly ask presbyteries who may affirm the principle of a summer session in theology to suggest a practical scheme for the working of a system. A proposition from the assembly of the United States to have the consensus of creed was referred to the delegates to the Presbyterian Council.

Dr. Reid presented the report on civil and religious rights. No active measures were taken during the year, because none were necessary.

Dr. Laing protested against the interference with the rights of religion, complaining that while the Roman Catholics taught anti-Protestant principles in their schools, Protestants could not teach Protestant principles in theirs.

#### Orwell Cove Notes.

Most of our farmers have finished cropping, although it was a very dry season, but we hope after this that the heavenly rain may come to quench the ground.

One of our most enterprising scholars has left us to be Mr. Higgs' apprentice (the editor of the Guardian) to learn the printing. All we wish for is that Mr. Higgs and his staff will use him well. After he gets through with his business he is going to set up a printing press in his native place.

There is a good post office in this part of the country. All I have to say about it is that it is well kept by Messrs. Stephens and McDonald. We wish the same to continue.

Brush Wharf is being repaired—that is, two blocks—one built by Mr. Pantou, of Pinette, Mr. Levi Ings being foreman, and the other built by Mr. Thomas Mellish, of Montague Bridge, and Mr. Charles Gillis is foreman.

There are five churches here, viz., one Roman Catholic, two Presbyterian and two Methodist. The Roman Catholic Church is conducted by Rev. Wilfred Draelan, the Presbyterian by Rev. D. B. McLeod, and the Methodist by Rev. John McKinley. There are two shoemakers, three joiners, one tailor, one blacksmith, one carriage builder and two house haulers. There are four government offices, five stores and a tannery. This section is mostly Conservative.

Here is a puzzle:—A fish was caught, the tail of which weighed 20 lbs. Half his body weighed as much as his tail and head together. What did the fish weigh? Send your answers to Charles Gillis, Orwell Cove. He will give you a month, and then the competitors' names will be published. Five cents in silver or stamps must accompany each answer, otherwise it will be no good.

The annual school meeting was largely attended on Tuesday, 16th inst. The sum of \$63 was voted for school expenses and an supplement. Neil A. Gillis, John Grant and Neil M. Gillis were appointed Trustees, and Neil A. Gillis, Secretary. John Gillis was appointed teacher.

We are sorry to hear that Mr. McPhail, Superintendent of the Hospital for the Insane, is about to lose his position, and also Mr. Nicholson.

Police men are badly needed around here. We will have to hire Sergt. Bradley for a few nights, and also Marshal Cameron.

The Orwell Cove people have chartered the steamer Heather Belle for an excursion on the 29th. A gala day is expected. Hurrah for Capt. McLean and his staff!

CHURCH DAMAGED.—During the thunder-storm on Tuesday evening the steeple of the Methodist Church, Jolicure, was torn off and thrown across the road. Inside the church the chandeliers were torn down and considerable other damage done.

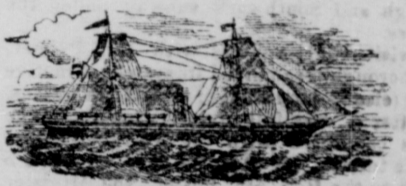

THE CHICAGO WAY.—If it be true that a Chicago physician, Dr. L. W. Whitney, having demanded \$3 for sewing up a wound in a patient's head, ripped up the wound with his operating knife because the patient had but \$1.80, and said: "Get out of my office you dirty old man, I'll teach you not to come around here and beat me out of my fee." It is a thousand pities that Chicago is a civilized center. This alleged doctor would be a good subject for a first-class endeavor on the part of Judge Lynch.

EXHIBITION.—The arrangements for holding Canada's International Exhibition and Mammoth Horse Fair at St. John, have been proceeding quietly but eff actually during the last few months. But a new impetus has just been given to the Exhibition Association, by a liberal guarantee fund which has been subscribed by private citizens and the City Council of St. John. The most gratifying feature of the work has been the manner in which both buyer and seller are entering into the idea of the horse fair. A letter just received from Agent General Fellows, London, Eng., informs the Association that in order to secure buyers of horses for the British Army, it will be necessary that the authorities be advised as early as possible of the number and classes of horses which are likely to be offered for sale. Equally gratifying results are noted in the industrial section of the exhibition, as already applications for space have been received from a larger number of manufacturers than exhibited last year. Arrangements for special attractions are being made both in England and the United States, and there cannot be any doubt but that some of the best drawing entertainments will be offered to the public.

Bermuda Bottled.  
"You must go to Bermuda. If you do not I will not be responsible for the consequences." "But, doctor, I can afford neither the time nor the money." "Well, if that is impossible, try

## SCOTT'S EMULSION

OF PURE NORWEGIAN COD LIVER OIL.  
It sometimes kills in Bermuda Bottled, and many cases of CONSUMPTION, Bronchitis, Cough or Severe Cold  
I have CURED with it; and the evidence is that the most sensitive stomach can take it. Another thing which commends it is the stimulating properties of the SYPHOCHEMICALS which it contains. You will find it for sale at your Druggist's, in Salmon wrapper. He will not get the genuine.
