CREAM OF TARTAR BISCUIT and New York twist, fresh every evening at J. Murphy's, Kent Street.

AN assault case between two women was up before the Stipendiary Magistrate this forenoon. It was dismissed with costs.

MRS. DR. McCLURE, of St. John, on Wednesday night, narrowly escaped poisoning by accidentally taking a heavy dose of chloral, morphia and strychnine.

AT MARKET HALL.—Don't fail to see the World's Greatest Gymnasts, Acrobats, Tumblers, and Contortionists, on Friday and Saturday, at seven o'clock, p. m. Free to all.

THE members of St. Peter's Church Sewing Society intend holding a Fancy Sale on the 10th December next, of which further notice will be given.—M. M. J. Hodgson, President.

REV. HENRY WARD BEECHER is lying ill at his residence in Peckskill. He has been poorly for some time, and as he became rapidly worse a doctor was sent for and remained with him Friday night.

EIGHT dogs belonging to different parties in Truro were poisoned last week. One of the "stiffs" was boxed up by a practical joker and expressed to a young medical student residing in Truro, who paid the charges and took care of the box.

BASEBALL players command high prices in the United States. Good pitchers bring all the way from \$2,000 to \$4,000, catchers are scarce at \$3,000, in-fielders command as much if not more, while very poor out-fielders will bring \$2,000.

AT Hamilton, Ont., a woman named Hank, alias King, while incarcerated for drunkenness in the police station there, tore her skirt into pieces and knotted a rope with which she was hanging herself when a policeman rushed in.

FEJGEKILL, on the island of Mors, Denmark, the reputed birthplace of Hamlet, is for sale by private treaty. On a hillside that forms part of the estate will be found the grave of King Fejge, who was the identical person slain by the young Prince to avenge the "most foul murder" of his father.

THE Toronto Mail's London special says the Jamaicans in London intend calling a meeting for the purpose of requesting the representative of the Jamaica Government now in London to bring the subject of the union of that island with Canada before its Legislature. The question was discussed with Sir John some months ago and a voluminous correspondence has taken place.

SCOTLAND has 5,000,000 acres of waste land which is capable of being converted into valuable timber forests. Ireland has about the same quantity now lying waste and which will grow excellent timber. It is now proposed to utilize these immense tracts by planting them with trees. If this be done, in from thirty to 50 years Great Britain would have an annual supply of timber far greater than her present imports.

THE steamer Carroll, Capt. Brown, sailed for Boston on Thursday evening, with a cargo consisting of 300 bags starch, 200 cases of lobsters, 32 barrels mackerel and 1,200 cases of eggs. She had also the following passengers: Miss Annie Williams, F. Driscoll, Mrs. S. Corey, Miss B. McDonald, Miss K. McDonald, John F. Johnston, Mrs. Johnston and Alexander Doyle.

FIFTY-FIVE of the principal railways of the United States earned \$2,355,466 less during the six months ending June 30th, 1884, than during the like period of 1883. Twelve of the principal railways of Great Britain show a falling off in freight traffic for the half year just passed of \$24,853 compared with the first half of last year, and this, too, in the face of an increased mileage of 160 miles.

MRS. BARBARA CAIRN, her husband, and two sisters arrived at Haekensack, N. Y., from Scotland three weeks since, to visit a brother, John Chapman. Mrs. Cairn was very despondent from the time the party landed in New York city, often expressing a desire to be home again. Arrangements were made for an immediate return, but she grew worse rapidly, and died on the 3rd. The physician says that death was caused by homocystosis.

THE Government steamer Newfield arrived at Halifax on the 5th inst. She brought over two hundred survivors from the wreck of the steamship Amsterdam, which disaster occurred at Sable Island on July 30th. The Amsterdam was on a voyage from Amsterdam to New York. She was owned by the Netherlands American S. S. Co., was 3,000 tons and was commanded by Capt. T. M. Lucas. While landing the passengers from the stranded vessel one of the boats upset and three persons were drowned. The Amsterdam was going full speed so that she lies well up on the bar. She lies on an even keel and has about eleven feet of water in her hold. The between decks cargo, should the weather continue fine, will probably be saved in good condition.

CHILD MUTILATED BY A DOG.—A little girl between one and two years old, the daughter of Mr. George N. Cannon, of Shediac, was terribly mutilated by a dog, yesterday, at the residence of Mr. Elder, who lives on the Lewisville Road, near the railway bridge. The child undertook to caress the dog as he lay under the table, when the savage brute knocked her down, bit her in the face, and would seemingly have killed her then and there, but for interference. The brute was, with difficulty, kicked off. He was the property of a lodger, who, three weeks ago, got him from Prince Edward Island. He had bitten his owner previously. He will bite no more. Drs. Ross and Baxter dressed the child's wounds. There is danger of the child dying of inflammation of the brain.—Montreal Times.

Now is the time to give your orders for a crock of baked beans and Boston brown bread, at J. Murphy's, Kent Street.

At Hamilton, Ont., a Salvation Army enthusiast tried to commit suicide by hanging from a tree in his garden. He was cut down.

MISS ELLEN TERRY is suffering from the effects of vaccination but the doctors hope that she will be able to remove to the seaside next Thursday.

AN Ottawa boy named Scott, 11 years old, a week ago stepped on a broken beer bottle in that city and cut several arteries. Some days after lockjaw set in. He was buried on the 6th inst.

THE steamer M. A. Starr sailed for Halifax on Thursday evening, with 500 cases of lobsters and 500 bushels of malt. Hon. E. P. Flynn, of Arichat, and two others were passengers.

A QUACK in a small town near Denver, Col., undertook to treat a patient, whom he killed at the first dose. The friends of the deceased hung the practitioner to a high tree in front of the patient's house. The Popular Science News calls it "elevating the profession."

A SINGLE box of Mack's Magnetic Medicine will prove to any sufferer from nervous prostration or weakness of the generative organs, that it is the best and cheapest medicine ever sold for this class of diseases. Sold in Charlottetown at Apothecaries Hall. Read the advertisement in another column and send at once for the great Brain and nerve food. [aug 1 w wkly]

THIRTEEN of the specialists or doctors who advertised in the papers to cure secret diseases have been indicted by the grand jury, at Chicago. Warrants have already been issued for "Doctors" Bates, Keene, Williams, Lucas, and Bigelow. Warrants will be issued for eight others. The indictments were found in the prosecution of the state board of health, and all are practicing medicine without a license. It is the opening of the long threatened campaign against the disreputable specialists.

REV. WM. TAYLOR, the recently appointed Methodist Episcopal Bishop for Africa, at his farewell reception in Boston, made this statement:—"It is reported that a most extraordinary discovery has recently been made in Africa in a tour from east to west. There have been found nations of people hitherto unknown, who number 50,000,000, and live in houses built of stone, with gardens in the rear and properly laid out streets, who work in iron, copper, and ivory, and are pretty well up in the industrial arts, many of them being well-to-do."

THE MOONLIGHT EXCURSION.—Between two and three hundred ladies and gentlemen attended the excursion last night. The good steamer Heather Belle steamed gallantly off on the Hillsborough River and Harbor, and shortly before eleven o'clock the excursionists were brought safely back. There were three balloon ascensions on the river, which were much admired. An effort was made to send one up outside the harbor; but owing to a strong wind prevailing it proved unsuccessful. Worth's Band rendered good service. The refreshment tables were well patronized and the excursionists speak in the highest terms of the care and attention evinced by Captain McLean and the other officers of the boat. The Sons of Temperance are to be congratulated on their efforts to provide an evening's enjoyment for our citizens.

LOSS OF LIFE AND PROPERTY AT SEA.—Returns issued by the British Board of Trade show that the loss of life at sea during the six years ending December 31st, comprising only losses occurring in British cargo and passenger ships and steamers, and excluding tug steamers, barges, lighters, and fishing vessels, was, in steam and sailing vessels belonging to the United Kingdom, 9,946 crew and 725 passengers, in colonial vessels, 2,342, crew and 613 passengers; total in steam and sailing vessels 12,288 crew and 1,248 passengers. Last year the total loss in home and colonial vessels, steam and sailing, was 2,226 crew and 190 passengers. The number of vessels lost which had certificates from the Board of Trade at the time of their being lost, during the same period, was 68, all steamers, and the number of lives lost was 728, of whom 339 were passengers. The number of ships lost under this head last year was 18; in 1882, 13; in 1881, 12, in 1880, 11; and in 1878, 10.

Three Murders.

After several months consideration, the Quebec Provincial authorities have arrested the man Osborne, who shot and killed his son-in-law at Gatineau Point, opposite Ottawa. This arrest is the outcome of editorial denunciations of official negligence. Another murderer will be arrested in the same county for a crime committed a few months ago. A terrible murder was committed at Norton Mills, on the Vermont frontier, on Friday night last. Two Americans got off the train at Lake Vermont and walked along the track to Norton Mills, Que. Later in the evening one of them obtained shelter at a farm house. He was badly bruised about the face and had two black eyes. He was interrogated as to his companion's whereabouts and replied that he was afraid he had lost him, as he left him lying along the track. A search was made and the second man was found on the track but cut in two. His head, however, was bruised and battered. These blows were sufficient to cause death in themselves. Further inspection discovered a stick all covered with blood and human hair. When the searchers returned to the farm the suspected murderer had disappeared. The telegraph was called into requisition and a man, corresponding to the murderer's description, was arrested at Island Pond.

Horsford's Acid Phosphate

IN CONSTIPATION. Dr. J. N. Robinson, Medina, O., says "In cases of indigestion, constipation and nervous prostration, its results are happy."

ELEVEN REASONS

Why the Liberal-Conservative Candidate Should be Elected.

- 1. Because no interest can be promoted by the election of an opponent of the Government.
2. Because no interest in the County demands a contest at this juncture but that of Mr. L. H. Davies; and electors should show Mr. Davies and all other factious politicians, that they do not care to be put to the expense and loss of time involved in an election when there is no necessity for it, and no public good to be promoted or gained.
3. Because there is in Mr. Welsh's "Independent candidature," at the instance of "red hot Grits," an attempt to play fast and loose with the County which should be punished.
4. Because the Liberal-Conservative Government, led by Sir John A. Macdonald, have acted in a more friendly spirit towards the Island than their opponents have acted.
5. Because the Liberal-Conservative Government gave us the Cape Traverse Railway in spite of the protests of Mr. McKenzie that the Dominion had "done very well for the Island" and had "carried out the Terms of Union to the utmost possible extent."
6. Because, notwithstanding the false statement of Mr. Blake that the Dominion is losing millions of dollars by the Island, the Government continue to make liberal grants for the maintenance of our Railway, etc.
7. Because the general policy and administration of the Government are admirable, and have been followed by results which, when compared with the "fly-on-the-wheel" policy and administration of the Grits, are truly splendid.
8. Because the honor of the country has been saved, and our Great Lone Land opened up for British settlers, without loss to the tax-payers, by the construction of the Canadian Pacific Railway—a gigantic task, successfully undertaken by the Government, though their predecessors had repeatedly failed in it.
9. Because we are more likely to obtain Reciprocity by supporting the present policy of the Government than by throwing our markets open to the Americans free gratis for nothing, and going down on our knees to beseech them to give us fair trade in return.
10. Because the country is prosperous under the Liberal-Conservatives, and does not need "Independent—Grits" to assist in its Government.
11. And because, while trade has been expanding, and while the wages of the people have been increasing, the prices of most of the commodities of life have been lowering, and "goods" are now "cheaper than ever."

To the Free and Independent Electors of Queen's Co.

GENTLEMEN.—Having been called upon, by representative men from all parts of the County, I have decided to offer myself as a candidate for the seat vacated by the acceptance of the Charlottetown Postmaster'ship by your late representative, Frederick de St. Croix Brecken. As my opinions on Reciprocity and Free Trade are well known to you, I need not at the present time reiterate them. Suffice it to say that, if elected, I pledge myself to give my time and energy to do all I possibly can, irrespective of party, to advocate the best interests and to secure the just rights of this my native Province. I have the honor to remain, gentlemen, Your obedient servant, WILLIAM WELSH, Ch'town, Aug. 1, 1884. aug1-pat n tra hbr pres tl 18th.
