There was a large attendance, and the display ranked with the best ever made by the brethren of the Mystic Tie. The sermon by the Rev. T. F. Fullerton was able and eloquent and is highly spoken of. CITY COUNCIL MEETING.

THERE was a full attendance of members at the meeting of the City Council held yesterday afternoon to further consider the application from the Water Commissioners asking the Council to issue debentures amounting to $20,000 for the construction of a second main water pipe line from the pumping station to the pipe on Kent Street via the Malpeque road.

Mayor Dawson, after explaining the purpose for which the meeting was called, presented a letter from the Water Commissioners giving the Board information respecting the cost of the proposed additional pipe and the probable revenue that would be derived therefrom. His Worship referred to the great importance of the matter, pointing out that the subject was one which was entitled to the more serious consideration of every member of the Board. Here is a copy of the letter:—

To His Worship the Mayor and City Councillors:

GENTLEMEN,—The Water Commissioners, by the aid of the Engineer's Report and late quotations of foundry prices, have made the following estimate of the cost of laying the second main pipe line via the Malpeque Road from the pumping station to Kent Street:

Cost of 12 inch pipe.....	$15,729 70
" " special casings.	416 00
" " laying lead, etc.	3,829 84
	$29,975 54

In regard to probable revenue to be obtained from water taken on the route of the proposed line, it is very difficult to arrive at a reliable estimate. In the city itself even after householders have applied to have services put into their dwellings the water is often not applied for until months or years elapse. But in going over the number of housholders on the proposed line the Commissioners think it is likely the revenue will within three years reach $400 per annum.

Yours respectfully,
DAVID LAIRD,
Chairman.

Charlottetown, April 20, 1895.

A general discussion followed the reading of this letter.

Councillor Taylor expressed his intention of voting against the second main pipe, as he did not think it was needed. He thought the majority of people were opposed to it. The people could not afford to pay any more taxes than they were now paying.

Councillor Haszard was favorable to the second main pipe line. The taxation need not be increased in consequence of the second pipe, as a saving might be effected in other directions. He did not hear any objections to the putting down of the second pipe, and thought the people were willing to leave the matter to the discretion of the Council.

Councillor Douse said he had spoken to several of the leading property holders and they did not want the second pipe line. They did not think the Council would entertain the idea. He believed that under the present condition of affairs property was quite safe.

Councillor Hughes expressed himself as still of the opinion that a second main pipe line was necessary. The estimated cost however, was now almost $20,000, and that would probably mean $30,000 before the work was completed. He suggested that the matter stand over for the present and that a plebiscite be taken thereon. He did not feel justified in putting an extra tax on the people which they might not want. He moved the following:

Resolved that this Council take no action respecting the second main water pipe until a plebiscite vote of the property holders be taken on the matter.

Councillor Hooper seconded the motion.

Councillor Tanton endorsed almost all that had been said by Councillor Hughes excepting the necessity for the second pipe. He could not understand what altered conditions would enable the pipe to be built for $500, per mile less now than the same extent of pipe cost five years ago. He believed that at the very least the cost would be $24,000. He thought a plebiscite vote should be taken on the matter.

Councillor Haszard said this looked like an attempt to shift the responsibility to the shoulders of the incoming Council. He was disposed to deal with the matter now, and therefore felt inclined to oppose the resolution.

Councillor Fennell thought a plebiscite should be taken at the next civic election to save expenses.

Councillor Hughes' resolution was then put and carried, Councillor Haszard dissenting.

Council adjourned.

CARTER'S SEED AND STATIONERY STORE.

Messrs. George Carter & Co. have removed from their old stand on Queen Street to the store adjoining, lately known as the Bazaar Store, amalgamating the business of the Bazaar Store with their own. Their new quarters have been fitted up with a view to affording the greatest possible facilities for conducting the seed and stationery business, and present a handsome appearance.

The leading features of the business are farm, vegetable and flower seeds, books, stationery, fancy goods, toys, chinaware and room-paper. The retail department of the seed business is conducted in the rear of their store and on one-half the second floor of their late premises. The book and stationery business is on the first floor, and the fancy goods and toy and room paper business is on the second floor. The third floor is used for packeting, parcelling and storing seeds. Mr. Carter reports trade in all lines exceedingly good, considering the times.

The wholesale department of their seed business is very extensive. In fact, they po the largest trade of any firm in that line in the Maritime Provinces, supplying over one hundred of the leading merchants of P. E. Island, who prefer Carter's seeds to those of any other seed house in Canada. Their warehouses, of which they occupy three, contain many hundreds of bags of wheat, clover, timothy, peas, vetches, corn, etc. They also ship a large quantity of seed from the wharves and railway as it arrives in the city.

"Since beginning business in 1879," said Mr Carter to THE EXAMINER, "we have always taken care to have a good line of seeds of the best quality. A leading feature of the business is the testing of all important seeds before they are sold. This testing is done under the supervision of Mr Richard Burke, a thoroughly reliable and competent man.

"To the great care taken by us in always getting the best seeds," continued Mr Carter, "and to judicious advertising in THE EXAMINER, I largely attribute the success that has attended our business."

OPERATIC.—An opera entitled "Bobbie Shafter" is to be presented in St. Mary's Guild Room on Thursday, the 30th inst. The following Sunday School children have been selected for the characters: Misses Flo Wiggins and Ethel Hunt, Masters Russel Folland, Harry Fraser, Roy Holman and Willie Holman.

SHIPPING INTELLIGENCE.—Cleared: Schr Restive, Capt. Cain, for Shediac, with 2,000 bushels potatoes, $720. These potatoes are intended for the Boston market.

Sailed, April 25: SS. Northumberland, Capt. Cameron, 300 bags potatoes, $270; 9 cases eggs, $27; 1 box game, $6; 720 lbs. neats leather, $225; 1 horse, $250; total shipment, $778.00.

A number of the crew of the bark Charles E. Lefurgey, Capt. Joseph Read, who were discharged at Baltimore, Md., have returned home. The bark had arrived at that port with a load of marble from West Indies and loaded with coal for Cuba.

VALUABLE HORSE.—Mr. Wm. Bowness, of New Annan, has sold his valuable horse, Fearnot, to parties in Carleton, N. B., for $250. The horse was shipped yesterday by the Northumberland to his present owners.

OBITUARY.—We regret to hear of the death of Rev Wm. Maggs, late pastor of the Methodist Church of Sussex, N B, which occurred at his home at that place on Wednesday. Mr Maggs was born in Bristol, England, and came to this country some twenty-five years ago. He had for a number of years been a member of the N B and P E Island Conference and was well known here, having acted as pastor of different churches on the Island, and for three years of the Methodist Church in this town, and was loved and revered by his congregation and all who knew him. He was a member of Court Chatauqua, No 202, I O F, for about three years. He leaves a wife and seven children to mourn their loss.

OYSTERS.—Fresh oysters have made their appearance in town. Shell out!

POTATO MARKET.—The shipments of potatoes from this port during this spring have been small compared with other years. The prices are too high, and dealers refuse to buy—only a few days ago Mr. P. J. Mahoney, representing a Boston company, was called home by his firm, who refuse to buy while the prices remain as at present. This seems to be the state of affairs all over the provinces and in Maine. A late issue of the Bangor News says that there is a large quantity of potatoes being held in Aroostook county for a further advance. It is estimated by those who have looked through the storehouses of the country that 600 carloads are held in store at the different shipping points. What will be gained by holding these large quantities remains to be seen. Large quantities are now going forward from New Brunswick and Nova Scotia, and it is feared that the opening of Northumberland Straits will throw large quantities from P. E. Island upon the American markets. Your correspondent has interviewed a number of buyers, who inform him that they will not purchase while prices are so high. Mr. T. Berry, who represents Charles Kirch & Co., Boston, received a letter from that company, telling him not to buy until he has received orders from them.

NOTES FROM ABROAD.

Extracts from a Letter written by a young Islander in the Eastern States, to his relatives here.

"There is a strong prejudice against foreigners up here, especially Canadians, who are accused by the people of taking all the money out of the country and spending it at home; and then there are many nasty things said about people from the provinces. So there are many things to contend with.

I see that Newfoundland may be admitted to the Dominion. You probably heard of the large sum of money the people of Boston, and especially the merchants, contributed towards Newfoundland in charity, and how it stirred the poor unthoughtful people in St. John's to go around with the Stars and Stripes and openly declare for annexation with the United States. Perhaps it would interest you to know that the 'charity' manifested here is only a Yankee bluff. They sent the money because their own interests would be involved to keep Newfoundland from joining the Dominion, as they feared if Newfoundland were to unite with the Dominion that all their former privileges of procuring bait would be taken from them by the Dominion Gobernment.

"It is a pity that the American capitalists are controlling the Nova Scotia coal mines, and spend all the profits in this country. Such is the policy of the Grits, and I believe the whole party is rotten to the core, and kept up by American capitalists for their own purposes. The trouble with Canada is that she imports too much American machinery instead of manufacturing it for themselves, which would give more employment and keep the money in the country.

"I hope I shall never see Canada united to this country, as half of the population is composed of foreigners, such as Chinamen, Italians, Huns, etc., while in Canada there is better blood."

THE EVOLUTION

Of medicinal agents is gradually relegating the old-time herbs, pills, draughts and vegetable extracts to the rear and bringing into general use the pleasant and effective liquid laxative, Syrup of Figs. DIED.

TORTURED BY DISEASE.

Victims of Dyspepsia Lose Their Self Control, and are Driven by Their Misery to a State of Helplessness.

"Oh, I am tired of the world, anyhow." So spoke an old man to a friend a few days ago.

Yet he was not a very old man. His words, so terribly significant, so pitifully sad and hopeless, were not the words of one who had met great losses or dreadful disappointments. They were the frantic cry of a man tortured day and night by dyspepsia in its most acute form. Sometimes ravenously hungry, sometimes unable to eat at all; always racked with pain and sleeplessness, never feeling relief, he had come to this stage of hopelessness, and misery had wrung from his lips this wail of despair.

When men and women are in health, or suffering perhaps slightly from the cause of which the state of this man was the result, they do not realize how easy it is by neglect and carelessness to reach a similar stage. If they did realize it there would be fewer emaciated forms and fewer groaning dyspeptics in the land. For they would at the first warning of such a diseased condition seek a remedy.

The remedy of all others most potent in cases of dyspepsia is Hawker's nerve and stomach tonic, to which grateful thousands point as the agency by means of which they found renewed health and strength. By its use nervous and muscular energy are restored to the stomach, and the process of digestion aided and assisted. The blood is renewed and re-vitalized and supplied with the necessary constituents for the reconstruction of wasted tissues and the renewing of nervous energy. The nervous system is invigorated, strengthened, and re-inforced, and mental and physical vigor fully restored. It is for sale by all druggists and dealers at fifty cents a bottle, or six bottles for $2.50 and is manufactured by the Hawker Medicine Company Limited, St. John, N. B., and New York City. d&w.
