MISCELLANEOUS.

SLAVES IN RUSSIA.—Of the fifty-three and a-half millions of people which Russia contained in 1842, not less than forty-two millions were slaves; and of these fifteen millions were slaves of the Crown, or the Emperor! The Russian slaves have no legal rights; in that respect they are no better than the negroes of the States. The Russian people are not only slaves to their nobles, but they are also slaves to the soil. The land of Russia is valueless of itself; its value consists in the human property belonging to it, and from which the nobles derive their chief revenue. Practically the private serf of Russia—and there are above forty millions of such—is, life and limb, at the disposal of his owner, as conpletely as slaves have ever been in any country. He can be sold or hired out as a beast of burden. The law, it is true, now wills that a certain portion of the land must be sold with him; but land in Russia is, as we have said, of merely nominal value. The master may remove one or all of his slaves for life, from one estate to another, though thousands of miles apart. In purchasing a slave, he has only to go through the formality of receiving from the former owner a few acres of land with him, of which he soon forgets the possession, and from which he may remove the slave, separating him for ever from his wife and children, and dooming him to perpetual banishment from his home. The Russian slave, male or female, cannot marry without the permission of the owner; and, as in the case of negroes in the States, there are no purposes, even the most infamous, to which the female slave is not always liable to be devoted, and frequently applied. The master may at any time send his male slave to Siberia, or for a soldier—and some he must constantly choose for this service. The owner may flog his slave to death, but the law only permits him to be fined. The law forbids any court to receive the evidence of a slave against his master. By a royal ukase issued by the monster Catherine, and since confirmed by Nicholas, if a serf makes any complaint to his superiors against his lord, "he shall be amenable to the punishment which the laws award"—that is, to the punishment of death! But there is no law in Russia, except the despotic will of the head slave-owner. Puschkin, the Russian writer, emphatically observes. "there is no law in Russia; the law is nailed to a stake, and that stake wears a crown."

A SCRAP OF NATURAL HISTORY.—According to Owen, the highest living authority on such subjects, we have three species of the crocodile tribe, and three only, which, although confounded by ordinary observers, are readily and certainly distinguished by the comparative anatomist.

One of the aforesaid species—the one longest known, and the one that has give its name to the whole class—is the crocodile of the Nile; the second is the gavial of the East Indies, and the third is the alligator or caiman of our country. In Europe nothing of the kind is found, the climate there not affording the amount of heat requisite to sustain a reptile whose blood is so cold and whose circulation is so sluggish.

In the present day, then, notwithstanding that these creatures are so nearly alike,yet are they uniformly separated from one another by thousands of miles, the African, the Asiatic, and the American being constantly confirmed to its peculiar quarter of the globe. It has not always been thus, bewever, for Owen has ascertained that the fossil remains of all three have been found in the island of Sheppy, at the mouth of the Thames, the only locality in the world where such a phenomena has hitherto been observed. And what a field for reflection do such facts open the mind disposed to speculate upon the condition of our planet, long, very long, ere man had been called into existence! But the inquiry is too complicated and vast for the columns of a newspaper, more particularly for one especially devoted to the cause of religion. —[Protestant Churchman.]

WILLS, WONTS, AND CANTS.—Somebody, more wise than his fellows, says there are three kinds of men in this world—the "wills," the "won'ts," and the "can'ts." The first effect everything, the next oppose everything, and the last fail in everything. "I will build our railroads and steamboats; "I won't," don't believe in experiments and nonsence; while "I can't" grows weeds for wheat, and commonly ends his days in the slow digestion of a court of bankruptcy. There is a profundity of philosophy in his words which should profit the rising generation of workers.

'Tis false," as the girl said when her lover told her she had beautiful hair.

What kind of a man do women like best? Why, a *Husband* man of course.

The Wonder of the World!
Devines' Compound Pitch Lozenge.

THE Great Remedy is at last discovered, and COUGHS, COLDS, ASTHMA. COSTIVENESS AND CONSUMPTION have lost their terror, and vanish as as if by magic before this Sovereign remedy. Was it ever before known that, *Hopeless cases of Consumption were crred for less than $5?*

Truly, if any individual is to be pitied, and needs sympathy, it is the consumptive,—always expecting to get well, and yet the painful evidence of decay almost "makes the inner soul shrink with the outer flesh."

"Some bloom as roses bloom,
And live as roses live,
A single morning space !"

While others, in more mature life,—by some imprudence and a slight cold neglected,—in the hectic flush, the painful cough,

"The prints of their parting steps appear."

All we ask is this one question:—If you have got mucous membranes, or any other members of the body that are "heirs to ills."—are you not interested n this *great remedy*, DEVINES' COMPOUND PITCH LOZENGE

Twelvetrees Brothers' Soap Powder
(an entirely new invention.)

IS the cheapest, safest, best, and most effectual article for all washing purposes, a packet of which is equal to ten Pennyworth of Soap!

The saving of Time and Labour is so astonishingly great, that a WEEK'S WASH can be accomplished BEFORE BREAKFAST —no rubbing being required.

This wonderful Article is MORE SERVICEABLE THAN SOAP, as it produces a better and much quicker lather, and is adapted for purposes for which Soap cannot be safely or effectually used.

It will not injure the hands, or the most delicate material; but whilst it is incomparable for permanently whitening Linens, &c., after they have become discoloured by age, or injured by bad Washing, it is also unsurpassable for improv ing the colors of FLANNELS, BLANKETS, WOOLLENS, COLORED PRINTS, MUSLIN and LACE. AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors. and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

PROF. VALENTINE MOTT, the distinguished Surgeon of New York City.

DOCT. A. A. HAYES, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

IRA L. MOORE, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. SOUTHWICK, Esq., one of the first merchants in New York City.

C. A. DAVIS, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities; by this, each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind; the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have n. mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.

HOLLOWAY'S PILLS.

SURPRISING CURE OF A CONFIRMED ASTHMA, AFTER FIVE YEARS' SUFFERING.

The following testimonial has been sent to Professor Holloway, by a gentleman named Middleton, of Scotland Road, Liverpool.

Sir,—Your Pills have been the means, under Providence, of restoring me to sound health, after five years of severe affliction. During the whole of that period, I have suffered the most dreadful attacks of Asthma, frequently of several weeks' duration,attended with a violent cough, and continual spitting of phlegm intermixed with blood. This so shook my constitution that I was unfitted for any of the active duties of life. I was attended by some of the most eminent medical men of this town, but they failed to give me the slightest relief. As a last remedy, I tried your Pills, and in about three months they effected a perfect cure of the disease, totally eradicated the cough, and restored tone and vigor to the chest and digestive organs.

I am, Sir, your obedient Servant,
(Signed) H. MIDDLETON.

Dated Jan. 1st, 1853.

A PERMANENT CURE OF A DISEASED LIVER, OF MANY YEARS' DURATION.

Copy of a Letter from Mr. Gamis, Chemist, Yeovil, to Professor Holloway.

Dear Sir,—In this district your Pills command a more extensive sale than any other proprietary medicine before the public. As a proof of their efficacy in Liver and Bilious complaints, I may mention the following case: A lady of this town, with whom I am personally acquainted for years, was a severe sufferer from disease of the Liver and digestive organs; her medical attendant assured her that he could do nothing to relieve her sufferings, and it was not likely she could survive many months. This announcement naturally caused great alarm among her friends and relations, and they induced her to make a trial of your Pills, which so improved her general health that she was induced to continue them until she received a perfect cure. This is twelve months ago, and she has not experienced any symptoms of relapse, and often declares that your Pills have been the means of saving her life.

I remain, Dear Sir, yours truly,
(Signed) J. GAMIS.

AN ASTONISHING CURE OF CHRONIC RHEUMATISM, AFTER BEING DISCHARGED FROM THE HOSPITAL INCURABLE.

Copy of a Letter from Mr. W. Moon, of the Square, Winchester.

To Professor HOLLOWAY,

Sir,—I beg to inform you that for years I was a sufferer from Chronic Rheumatism, and was often laid up for weeks together by its severe and painful attacks. I tried everything that was recommended, and was attended by one of the most eminent surgeons in this town, but obtained no relief whatever; and fearing that my health would be entirely broken up, I was induced to go into our County Hospital, where I had the best medical treatment the Institution afforded, all of which proved of no avail, and I came out no better than I went in. I was then advised to try your Pills, and by persevering with them was perfectly cured, and enabled to resume my occupation, and although a considerable period has elapsed, I have felt no return whatever of the complaint. a

I am, Sir, your obliged Servant,

AN EXTRAORDINARY CURE OF DROPSY, AFTER SUFFERING FOR EIGHTEEN MONTHS.

Copy of a Letter from Mr. G. Briggs, Chemist, Goole, dated February 15th, 1853.

To Professor HOLLOWAY,

Sir,—I have much pleasure in informing you of most surprising cure of Dropsy, recently effected by your valuable medicines. Captain Jackson, of this place, was afflicted with Dropsy for upwards of eighteen months, to such an extent that it caused his body and limbs to be much swollen, and water oozed as it were from his skin, so that a daily change of apparel became eecessary; notwithstanding the various remedies tried, and the different medical men consulted, all was of no avail, until he commenced using your Pills, by which, and a strict attention to the printed directions, he was effectually cured, and his health perfectly re-established. If you deem this worthy of publicity, you are at liberty to use it.

These celebrated Pills are wonderfully efficacious in the following complaints.

Ague	Dropsy	Inflammation
Asthma	Dysentery	Jaundice
Bilious Complaints	Erysipelas	Liver Complaints
Blotches on the skin	Female Irregularities	Lumbago
Bowel Complaints	Fevers of all kinds	Piles
Cholics	Fits	Rheumatism
Constipation of the Bowels	Gout	Retention of Urine
Consumption	Head-ache	Scrofula, or King's Evil
Debility	Indigestion	Tumours
Sore Throats	Stone and Gravel	Worms of all kinds
Secondary Symptoms	Tic Doloureux	
Ulcers	Venereal Affections	
	Weakness, from whatever cause, &c.
