

# FARMERS AND FISHERMEN HAVE CREDIT CUT!

## OTTAWA'S "TIGHT MONEY" POLICY THREATENS PRINCE EDWARD ISLAND

A Canadian Press, Ottawa August 14th, report says "The size of the deficit announced tonight by Finance Minister Fleming for the year 1958-59 hits an all-time high of - \$600,000,000 - and for the present year (1959) yet another deficit is anticipated!

This, together with a record-high interest rate and the "tight money" policy of the Conservative Government, has forced local banks to refuse loans to our fishermen and farmers :-

- Ask the farmer, who went to his bank manager on Monday for a \$200.00 loan towards the purchase of tires for his tractor--and was refused!
- Ask the fisherman, whose request to his bank for a \$100.00 loan was refused!

THE FEDERAL CONSERVATIVE GOVERNMENT HAS RACKED UP A WHOPPING  
SIX HUNDRED MILLION DOLLAR DEFICIT!

Is this GOOD government ? . . . . IT IS NOT !!

# VOTE LIBERAL

FOR CONTINUED GOOD GOVERNMENT ON OUR ISLAND
