## LET US REASON TOGETHER

## HOLLOWAY'S PILLS.

### WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are especially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

## THESE PILLS PURIFY THE BLOOD.

These famous PILLS are expressly combined to open the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

## DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of derangement of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

## GENERAL DEBILITY.—ILL HEALTH.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit, that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as by its invigorating properties never fail to afford relief.

## FEMALE COMPLAINTS.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly course of all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

- |                    |                       |                    |
|--------------------|-----------------------|--------------------|
| Ague               | Drops                 | Inflammation       |
| Anthelm.           | Dysentery             | Jandice            |
| Bilious Complaints | Erysipelas            | Liver Complaints   |
| Bilious Complaints | Female Irregularities | Obstinate          |
| Bowel Complaints   | Female Tonic          | Lumbago            |
| Cholera            | Fever of all kinds    | Piles              |
| Consumption        | Headache              | Rheumatism         |
| Debility           | Indigestion           | Retention of       |
| Sore Throats       | Stone and Gravel      | Kidney's Evil      |
| Secondary Symptoms | The Dolourous Tumours | of the             |
| Ulcers             | Weakness, from kind   | of whatever cause. |

## The British Periodicals and THE FARMER'S GUIDE.

OF THE LATTER PUBLICATION.

1. *Scott & Co., New York*, continue to publish the following leading British Periodicals, viz:—

1. THE LONDON QUARTERLY (Conservative).

2. THE EDINBURGH REVIEW (Whig).

3. THE NORTH BRITISH REVIEW (Free Church).

4. THE WESTMINSTER REVIEW (Liberal).

5. BLACKWELL'S EDINBURGH MAGAZINE (Liberal).

"The great and important events—Religious, Political, and Military—now splitting the nations of the Old World, give to these Publications an interest and value they never before possessed. They occupy a middle ground between the hastily written newspaper and the ponderous tome of the historian, written long after the living interest in the facts has receded, and have passed away. The progress of the War in the East occupies a large space in their pages. Every movement is closely criticized, whether of friend or foe, and all short-comings fearlessly pointed out. The letters from the CAZARA and from the BALTIC in Blackwell's Magazine, and from some of its most popular contributors, give a more intelligible and reliable account of the movements of the great belligerents than can elsewhere be found.

These Periodicals ally represent the three great political parties of Great Britain—Whig, Tory, and Radical;—but politics forms only one feature of their character. As organs of the most profound writers on Science, Literature, Morality, and every subject they stand, as they ever have stood, unrivalled in the world of letters; but considered indispensable to the scholar and the professional man, while to every intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

**EARLY COPIES.**  
The receipt of ADVANCE WRITERS from the British publishers gives additional value to these Periodicals, especially during the present exciting state of the Continent, and the subscribers who can now be placed in the hands of subscribers about as soon as the original editions.

<b>TERMS.</b>	
For any one of the four Reviews	2s 00
For any two of the four Reviews	3 00
For any three of the four Reviews	4 00

For Blackwell's Magazine, while it remains in the hands of the subscribers and the four Reviews	8 00
For Blackwell and the three Reviews	10 00
For the Magazine and the four Reviews	12 00
Payments to be made in full care in advance.	

**The Farmer's Guide**  
To Scientific and Practical Agriculture. By HENRY STEPHENS, F. R. S., of Edinburgh, and the Hon. JOHN MURPHY, Esq., of the Scientific Agriculture in Yale College, New Haven. Royal Octavo, 1660 pages, and numerous Wood and Steel Engravings.  
This is, confessedly, the most complete work on Agriculture ever published, and in order to give it a wider circulation the publishers have resolved to reduce the price to  
FIVE DOLLARS FOR THE TWO VOLUMES!!  
LONDON: SCOTT, BROWN & CO.,  
No. 54, GOLD STREET, New York.  
HASZARD & OWEN, Charlottetown, P. E. I.

## Gleanings from late Papers.

**Proseurs**—Fifth or Royal Ethnology Lect. Infantry Regiment of Middlesex Militia—Esq. signed Robert Henley to be Lieutenant, vice Jaquet, appointed to the 254th Fusiliers.

"Omar Pacha has arrived at Constantinople. Great mortality amongst the French in the Crimea. Health of the French at Constantinople was improving. Fortifications at Nicholsburg are being strengthened. Gen. Ledera had ordered officers on furlough to return."

It is calculated, from statistical papers, that the number of children born on the 15th of March, to all of whom the Emperor and Empress is god-father and godmother, must be about 25000. Each child is to receive a gift of 500 francs. All the boys are to be named "Louis Eugene"; all the girls "Eugene Louise."

**SAN FRANCISCO, March 5**—Afflicting accounts have just reached us from Klammeth Co. on the North California coast, where about 30 families have been slaughtered by the Indians, and the small coast settlements barred.

The country is in a panic. There are no accounts, and an express just arrived here for aid reports that the people there are entirely defenceless, and with no other means of escape. Preparations are now on foot for their relief.

Advices from Oregon and Washington Territories are to 29th ult. At Rouge River, the Indians have resumed hostilities, and the little settlement of the mouth of the river, had been burned. At Unca Creek, seven of the inhabitants had been killed, and the place is reported to be untenable. The well known trapper and mountain guide, Ben Wright, and the late sub-Indian Agent for Southwest Oregon.

We regret to be informed that Doctor Davidson was drowned by the upsetting of a boat in Musquash River on Thursday night. He had been called to visit a patient on the opposite side of the River, and was on his return home when the unfortunate event occurred.

The deceased was a brother of Messrs. James, Thomas and Hugh Davidson, St. John, N. B.

In this month nature begins to smile, and the birds to burst out laughing, after the dullness of winter. The birds of heaven present their bills, and their notes are renewed.—*Punch's Almanack.*

**Gum Arabic**—In Morocco, about the middle of November, and this is after a rainy season, which begins in July, a gummy juice exudes spontaneously from the trunk and principal branches of the acacia tree. In about fifteen days, it thickens in the furrow, down which it runs, either in vermiform, or worm shape, or commonly assuming the form of a gummy round tress, about the size of a pigeon's egg, of different colors, as they belong to the white or red gum trees. About the middle of December, the Moors encamp on the border of the forest, and the harvest lasts several weeks. The gum is packed in very large sacks, and brought on the backs of bullocks, and camels to certain ports where it is sold to the French and English merchants. It is highly nutritious. During the whole time of the harvest, the journey, and of the fair, the Moor of the desert lives almost entirely upon it, and experience proves, that six ounces of gum are sufficient for the support of a man twenty-four hours.
