

THE DAILY EXAMINER.

JUNE 5, 1888.

The Salvation Army.

The accident of last evening, by which the life of a member of the community was endangered, has greatly added to the aversion of quiet citizens for the demonstrations of the Salvation Army.

The Pig Question.

WHAT to do with the refuse is a question which many citizens are thinking about and discussing, now that pigs are in banishment. It is quite certain that if thrown out at the back door, it will soon be as foul a source of disease and death as the filthiest of pig styes.

College Training for Journalists.

THE difference between THE EXAMINER and the Pioneer concerning the training of journalists is so small that it is hardly worth talking about. THE EXAMINER is quite willing to admit the great advantage obtained by increase of college training, and that journalists want more learning.

An Ignorant Board of Trade.

The St. John Sun has received a note enclosing a resolution of the Board of Trade of Portland Maine which directs that measures be taken to at once arrange for the most effective and practical method of directing the public attention of the country to the advantages of Portland for varied industries.

It is announced that Mr. J. F. Brennan, who formerly edited and published The Islander, in this city, and who has for many years been prominent in our journalistic circle has passed away.

Mr. J. J. Millman (of the firm of Millman Bros., Woodstock, Ontario), has been on the Island for about six weeks, engaged in the purchase of potatoes for the Ontario market.

The Colonist, of St. John's, Nfld., having declared that the Maritime Provinces of Canada are brought to ruin as a result of Confederation, the Mercury of the same city quotes statistics showing that in P. E. Island the expenditure by government on education had increased from \$22,854 in 1871 to \$110,484 in 1887.

The Manifesto of the Bishops.

The following are the resolutions adopted at the meeting of the Irish Bishops, on the 30th May, and ordered to be published: In obedience to the commands of the Holy See and in willing discharge of the duty thus placed upon us, we desire to put on public record that the recent decree of the Holy Office, addressed to the Irish Hierarchy was intended to affect the domain of morals alone and in no way to interfere with the politics in this country.

The document is signed by the Archbishop of Armagh, Primate of all Ireland, and twenty-six other archbishops and bishops.

Mr. Depew's Candidacy.

HE WILL ACCEPT THE NOMINATION IF NO STRONGER MAN CAN BE FOUND.

Mr. Depew in a recent interview, stated: "Of course I cannot talk of my own candidacy for the Presidency, but I will say this: I would not take the nomination were it unconditionally tendered should I be of the opinion that any considerable number of voters would leave the party because I am president of a railroad."

A Great Hardware House.

The wholesale hardware house of Farwell, Ozmun & Kirk is the largest as well as the oldest concern in this line of business in St. Paul.

Two elevators, run by their own engine, are kept constantly in use receiving and delivering goods. The building is heated by steam and lighted throughout by electricity operated from their own engine in the basement.

The system of this company in handling their enormous and very intricate business is so perfect, that everything moves like clock work, and, with the facilities they enjoy, are enabled to turn out goods more rapidly and promptly than any house in their line in the Northwest.

It is announced that Mr. J. F. Brennan, who formerly edited and published The Islander, in this city, and who has for many years been prominent in our journalistic circle has passed away.

Mr. J. J. Millman (of the firm of Millman Bros., Woodstock, Ontario), has been on the Island for about six weeks, engaged in the purchase of potatoes for the Ontario market.

The Colonist, of St. John's, Nfld., having declared that the Maritime Provinces of Canada are brought to ruin as a result of Confederation, the Mercury of the same city quotes statistics showing that in P. E. Island the expenditure by government on education had increased from \$22,854 in 1871 to \$110,484 in 1887.

Stipendiary Magistrate's Court.

John Smith, drunk, \$1 or 4 days. The City vs. Patrick Connolly, opening up a cellar-hatch on Dorchester Street, contrary to City by-law. Evidence heard and case adjourned.

The case of Bartolomeo Casei, charged with the murder of Cesare Lucignani, the Italian image vendor, was next proceeded with. Mr. A. A. McLean appeared for the prisoner.

Mrs. Catherine Simpson was the first witness examined. In addition to the evidence given at the inquest, she testified that the prisoner was a quiet old man who never had a quarrel with any of the neighbors, and who was different in that respect from the deceased who was somewhat quick-tempered and apparently did not care how the world went so long as he had enough to live on.

Dr. Kelly's evidence was substantially the same as given at the inquest. John Quinn knew little or nothing about the occurrence, and his evidence was not taken.

Michael Duffy's testimony did not throw any new light on the affair. Police Sergeant Cameron's evidence was the same as at the inquest.

Customs Appointment.

Sir, I congratulate ex-Marshal Flynn on his appointment to a position in the Civil Service of Canada. (Customs) at this port, and trust the Department will have as little fault to find, after twenty years' service, as an ungrateful city pretended to at the "beck and nod" of temperance (so-called) fanatics. Verily, the Scott Act farce is well high everywhere played out.

Personal.

The Governors of Kings College have appointed the Rev. V. E. Harris (formerly of St. Peter's Church in this city and Rector of Amherst.) Examiner in Divinity. Erastus Snow, one of the "twelve apostles" of the Mormon church, died a few nights ago, aged 70.

John McLean, M. P. P., Souris, is registered at the Davies. John Bright's health is steadily improving. The Emperor of Brazil is much better.

SPECIAL TRIP.—The steamer Princess of Wales made a special trip to Pictou last night for a cargo of earthenware, imported by Messrs. Carvell Bros., direct from Liverpool to Pictou by steamship Aline. The Princess of Wales will bring the balance of the cargo on her regular trip to-morrow.

POISON IN THE CAN.—A Moncton family ate canned rhubarb for supper, on Saturday evening, and shortly afterwards all who had partaken became ill. A doctor was summoned and gave an emetic which brought relief. He expressed the opinion that had the call been delayed there might have been serious results.—Times

THE WEALTH OF MONTREAL.—The Montreal Star publishes a list of "the principal landlords of Montreal," which includes 6 who are assessed for over a million, 12 over half a million, 14 over \$400,000, 21 over \$300,000, 37 over \$200,000, 84 over \$100,000, 108 over \$75,000, 155 over \$50,000, 254 over \$25,000 and 291 over \$10,000.

FISHING ON THE NOVA SCOTIA COAST.—About 100 sail of western Nova Scotia, bankers obtained their supply of bait at Malaga-watch, Bras d'or Lake, last month, and distributed over \$4,000 cash among the fishermen and farmers of that neighborhood. Several St. Pierre (French) fishing vessels also obtained their supply of bait there.—Hx. Herald.

EXHILARATING FEUDS.—The steamer Princess of Wales left here for Pictou at 11 o'clock last evening, and returned at 2 1/2 this afternoon. Her freight consisted of 200 cases "exhilarating fluids," 179 crates crockeryware, and some other merchandise. Yesterday there were 800 cases of "exhilarants" transferred from Bonded Warehouse, No. 2, to the brick warehouse on Water Street.
