BARLEY AND RYE FOR HORSES.

My first experience in feeding barley to horses was in California, where there was no other grain raised for feed at that time. All our horses were fed on it for two years without any change, and never got tired of it, always thriving and looking remarkably well for the amount of labor they performed. This induced me to raise it to feed after my return from that country, and I have learned to esteem it higher than any other grain (when ground) for horses. It is too hard to feed in the grain. It is less liable to founder than corn, wheat, or rye, yet contains but very little less nutriment than either of those grains. I have raised a great many colts, and have made breeding trotting horses a study, and in all my experience I have found nothing equal to barley meal to make a mare give milk. I have found it no disadvantage to a mare's getting foal, and not any while she was so. Oats are a better food for colts from weaning time until they go to work. Rye is a dangerous grain to feed alone; it is more liable to founder than any other grain; but to mix with shorts or to grind with feed oats, and without hay or straw, it makes excellent feed.

FACTS WORTH REMEMBERING.—A correspondent gives the following facts worth remembering:

It is worth while for all farmers everywhere, to remember that thorough culture is better than three mortgages on their farm.

That an offensive war against weeds is five times less expensive than a defensive one.

That good fences always pay better than lawsuits with neighbours.

That hay is a great deal cheaper made in summer than purchased in winter.

That a horse who lays his ears back and looks lightning when any one approaches him is vicious. Don't buy him.

That scrimping the feed of fattening hogs is a waste of grain.

That over-fed fowls wont lay eggs.

That cows should always be milked regularly and clean.

REMEDY FOR WORMS IN HORSES.—A lady writes to the Independent:—"Put a handful of sifted wood-ashes in a quart bottle, and fill the bottle with cider vinegar. It will foam like a glass of soda; and it should be given to the horse that has worms the moment it foams. Two bottles will cure the worst attack of worms. If much is wasted in giving it to the animal, prepare the third bottle. The first bottle will generally bring the horse upon his feet; but no time should be wasted in giving the second bottle, for if the worms have time to eat through the intestines nothing can save the horse. For forty years I have never known an instance of failure where this remedy was applied at once. I have myself saved the lives of several valuable horses that have dropped down in the harness, with only a common coachman to assist me."

New Triumphs of Roger's Medicines.

Run your eye over them and tell your afflicted neighbour about it. Maitland, August 17, 1865.

Messrs. ROGERS & Co.— Gentleman—Your medicines have cured my wife of a Cancer of the Breast. It had existed about nine months before she began with your medicines, grew rapidly, accompanied by darting pains. No doubt it would soon have gone beyond cure; but by a few months application of your medicine, she has got entirely well. Your preparations are invaluable, and without hesitation I recommend them to the afflicted. Yours truly, ALEXANDER GILLIS.

WESTMORLAND, N. B., August 28, 1865. Messrs ROGERS & Co. — Gentleman—I with much pleasure add my feeble testimony to the great healing powers of your wonderful Medicines. One of my children was sorely afflicted as follows: there first appeared blotches over her body like ringworms; they spread all over her body, limbs, head and all. She continued in this way for three months. She was really a pitiful sight. The smell from the sores was very offensive. The sores at the end of three months all disappeared, and she became very sick, and so low that no person who saw her thought she would live many hours, and the general opinion was that there was no use to try to do anything for her. We heard of your medicines and got some, and applied it. The sores again came out as before; but she soon got well, and is now smart and cheerful. Mrs. L. and I can say of a truth, this is a wonderful medicine. Yours truly, ALFRED LAWRISON. Amherst Oct. 1st, 1865.

Gentlemen—I have been for some time perfectly satisfied as to the extraordinary virtue of your medicine, but until recently have not had any occasion for the use of them. About three months ago, a member of my family was taken down with the acute rheumatism. I immediately applied the use of your medicine. The result is a complete cure is effected. I am 63 years of age, and have been a great deal in sickness during my life; have seen many cases of acute rheumatism, some of which have resulted in lameness for life, but have never seen so speedy and a hopeful recovery. With the most anxious desire that the above medicines may have a world-wide circulation, I am yours respectfully, AMOS PACE.

MRS. WINSLOW, An experienced Nurse and Female Physician, presents to the attention of mothers, her SOOTHING SYRUP, FOR CHILDREN TEETHING.

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain and spasmodic action, and is SURE TO REGULATE THE BOWELS

Depend upon it, mothers, it will give rest to yourselves, and Relief and Health to your Infants.

We have put up and sold this article for over thirty years, and can say, in confidence and truth of it, what we have never been able to say of any other medicine—never has it failed in a single instance, to effect a cure, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this manner "what we do know," after thirty years' experience, and pledge our reputation for the fulfillment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most experienced and skillful nurses in New England, and has been used with never failing success in thousands of cases. It not only relieves the child from pain but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GIBBING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the best and surest remedy in the world, in all cases of Dysentery and Diarrhea in Children, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prejudices, nor the prejudices of others, stand between your suffering child and the relief that will be sure—yes, absolutely sure—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None Genuine unless the face-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by Druggists throughout the world. Principal office, No. 48 Dey Street, N. Y. Price, only 35 Cents per Bottle.

Look Here. J. B. FITCH'S GOLDEN OINTMENT is used for all complaints, that skin, flesh, bones and muscles are afflicted with; with wonderful success. Try it.
