ELECTRICAL JOURNEYMEN WRITE EXAMS

Yesterday in Charlottetown five young men from various sections of the Province wrote their final examinations for electrical journeymen. In order to sit for these examinations the apprentice must either work for four years with a licensed electrican or have a certificate from the Provincial Vocational School. Having successfully passed the examination he is then required to pass a trade test after which he will be certified as an electrical journeyman. Seen writing their exams (left to right are) Leo Arsenault, Wellington; Eric Millar, Summerside; Dewar MacAusland, Charlottetown and Edward MacLaren, Charlottetown. Also writing but not in the picture was Charles Gillis of Eldon.

Fairchild Buys T. T. S. Assets

NEW YORK (AP) — Fairchild Graphic Equipment, Inc., of Plainview, Long Island, has purchased the assets of Teletypesetter Corp.

Teletypesetter stock was owned jointly by the Gannett Co., Inc., which operates a group of newspapers and radio and television stations, and by Teletype Corp., a subsidiary of Western Electric Co., which is a subsidiary of Aerican Telephone and Telegraph Co.

Fairchild Graphic Equipment is a wholly-owned subsidiary of Fairchild Camera and Instrument Copr.

Financial details of the transaction were not announced.

Fairchild said the purchase covers the inventory and tools of Teletypesetter and provides for temporary use of that company's plant and personnel until operations can be integrated with Fairchild Graphic. The corporate name of Teletypesetter is retained by the former owners.

Western Electric had been ordered under the U.S. anti-trust laws to divest itself of the business being carried on by Teletypesetter Corp. Later the courts approved Fairchild as purchaser of Teletypesetter's assets.

Canadian Linotype Ltd. will continue to act as Canadian agents.

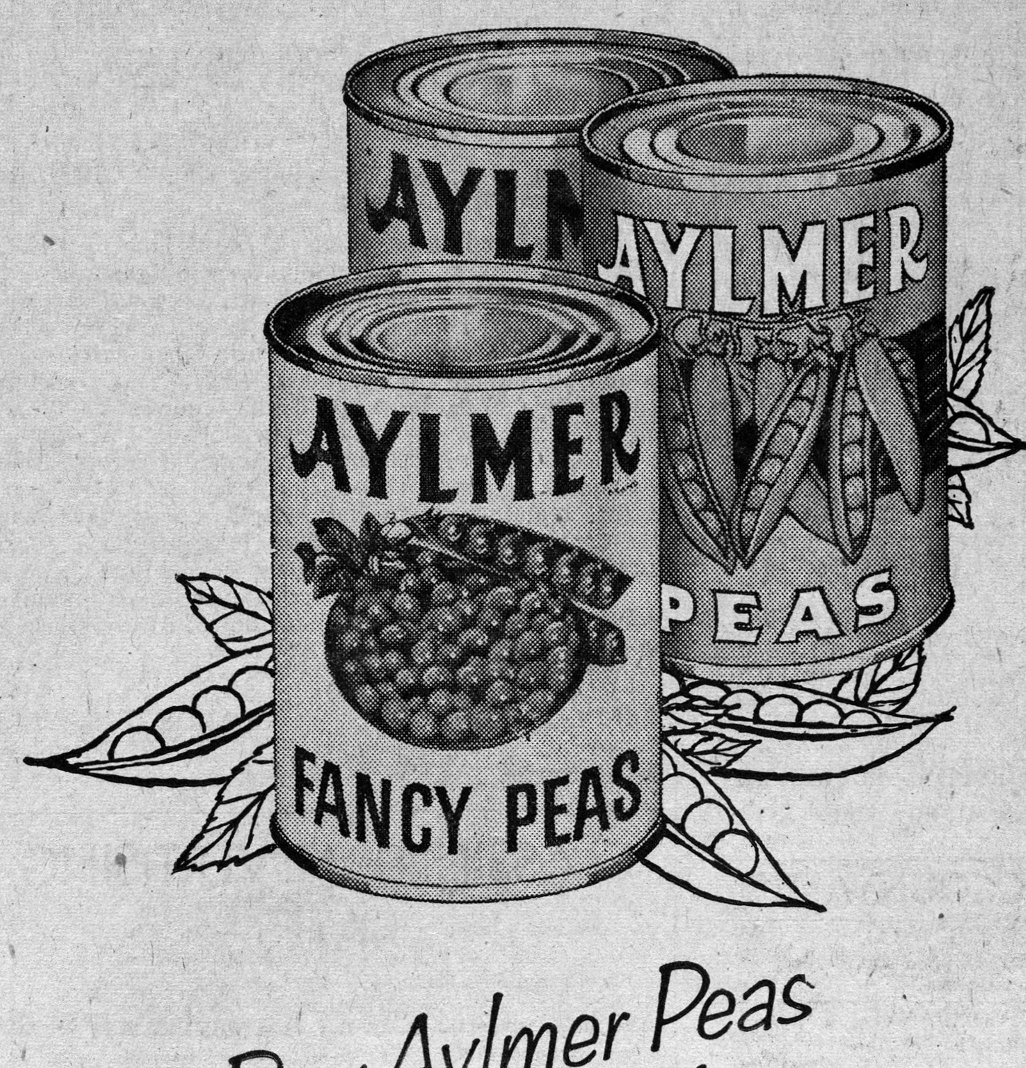
Aylmer Peas taste FRESH because they're packed fresh*

**Average time from vine to tin — 2½ hours!*

When you taste the fresh sweetness of tender young Aylmer Peas, it's hard to believe that such good-tasting peas can be so good *for* you! But just look at the food values you get: Vitamins A, B1, C and D! Minerals and proteins too!



Buy Aylmer Peas By Threes!

How do Aylmer Peas keep so much natural nutritive value—and flavour?

1. Start with QUALITY peas! Aylmer Peas are grown from Aylmer's own premium-quality seed, under Aylmer field supervision, by selected growers. Harvesting time is decided by heat and moisture records and daily tenderness tests. The peas are harvested at the precise moment of perfect flavour and nutrition. (Did you know that, if peas are harvested just 2 hours too late, their sugar content is already turning to starch?)

2. Can them FAST to protect freshness! Aylmer operates canneries in the heart of Canada's pea-growing areas, so fresh-picked peas are never more than minutes away from the factory. Aylmer Peas can be harvested, cleaned, graded, sealed and cooked in an average of 2½ hours!

3. Seal BEFORE cooking! Aylmer Peas are *pressure-cooked* in sealed, sterilized tins, away from air that "kidnaps" their mineral and nutritive values. Cooking time is scientifically controlled, another important nutritional safeguard which brings Aylmer Peas to your table at their peak of flavour and food value!
