

100% PROFIT is what many of our clients realized upon their investments during 1899.

**The Iron Monitor Gold Mining Co**

will prove no exception. The company the "IRON MONITOR" claim almost adjoining (less than 300 ft) the famous "REPUBLIC" that last year paid in dividends over

**\$500,000.00 DOLLARS.**

The Superintendent's report is flattering, showing two veins upon which over 430 ft. of development work has been done, which yields good values.

The officers ARE NOTED MINING MEN.

The President, Mr. V. D. Williams, financed the sale of the "REPUBLIC" to Montreal Capitalists for

**\$3,500,000.00**

We believe with the same amount of development work the "IRON MONITOR" will equal the "Republic"

REMEMBER in 1897 shares of the "Republic" sold for less than TEN CENTS are to-day worth ONE DOLLAR and SHAREHOLDERS HAVE RECEIVED MANY TIMES THEIR ORIGINAL INVESTMENT IN DIVIDENDS.

We have a limited number of shares for sale at

**FIVE CENTS**

**\$50.00 for 1000 Shares**

which within two years we predict will be worth \$500.00.

This is an opportunity you cannot afford to miss. The share is bound to advance quickly absolutely upon our merits, therefore it will be necessary for you to act promptly in order to secure shares at the above figure.

**THE DAILY EXAMINER**

MARCH 8, 1900

**A MISTAKE.**

The Patriot seems to labor under the impression that Mr. Tarte and Sir Wilfrid Laurier represent the entire French-Canadian race; and that, in criticising their public works and acts, THE EXAMINER, the Montreal Star, and other newspapers are attacking the whole French-Canadian population of the country. This is a mistake. There was a time when Napoleon stood for France. But we have yet to learn that either Sir Wilfrid or the Lively Master of the Administration is, in any such sense, the French-Canadian people. When we refer to Laurier's expressed desire for a musket that he might take part with Riel on the banks of the Saskatchewan, or to Tarte's more recent declaration, that "France" is his own dear country, and his official use of the Tricolor while yachting about our coasts, we no more attack the French-Canadian people than we attack the Scotch when we point out the absurd inconsistency of Mr. Patterson in respect to the tariff, or the Welsh when we refer to the exaggerations of Sir Louis Davies, or the Irish when we criticise the conduct of Mr. Fitzpatrick, or the English when we point the finger of ridicule at that whilom economist and elevator of the standard of morality, Sir Richard Cartwright. The various races are not to be identified, in this country, with the various politicians who have sprung from them. And yet, because Sir Charles Tupper The Montreal Star, THE EXAMINER and others have criticised the anti-British conduct of the Master of the Administration and Sir Wilfrid Laurier, they have been charged by The Patriot, by La Patrie, and by Tarte, himself, with inciting a war of races. The charge is ridiculous. The Patriot lies under a mistake.

The Mail and Empire remarks that "All England is talking of Canada. All England is praising the courage of Canadian soldiers, the valiant charge the Canadians made, and the great victory that was precipitated by Canadian dash and bravery. Never before has Canada stood so high in the estimation of the Britons of the British Isles. Our people have done us great honor; they have brought glory to themselves and to the country from which they sprung. The people did wisely in insisting that the Dominion should be represented in the great work of Empire defence."

It is said that Mr. Pineau's salary at Paris will be \$10.00 a day. The taxpayers will foot the bill whatever it may be.

**CONTEMPTIBLE AND DISHONEST**

A few days ago THE EXAMINER made a quotation from the letter of an Irish-American soldier in the service of the Boers, purporting to give an inside view of the Boer position, its strength, etc. This quotation the Patriot editorially condemned, and intimated that THE EXAMINER had done something very wrong and contemptible—we believe that was the word—in giving its readers an opposite view of the matter in his own words. We have now to return a rejoinder for the Patriot's Oliver. On the evening of the 5th inst, the Patriot published the following editorial paragraph:

"When the first contingent sailed for South Africa. Sir Charles Tupper was given a good deal of praise by a portion of the press for having effected through a 'friend' insurance upon each man. The precise nature of the insurance was not given out at first, but it afterwards transpired that the conditions covered accidents only. Quite a number of our boys have been wounded on the field of battle and some have since died of their wounds but it still remains to be told how far the conditions of Sir Charles' insurance were of any real use to the insured."

On the morning of the day on which this paragraph appeared in the Patriot, the newspapers on the Patriot's editorial table contained Parliamentary reports which included the following letter, read in the House of Commons:

MONTREAL, March 1, 1900. Sir Charles Tupper, Ottawa: "In regard to the insurance of one million dollars effected by you on the lives of the members of the Canadian contingent, covering death and accident contingencies, we have this morning received the cable despatch which follows:

LONDON, 1st March, 1900.—To the Canadian Branch Ocean Accident and Guarantee Corporation Montreal: The directors authorize you to pay the sum insured in each fatal claim of the Canadian contingent, expressing at the same time their admiration of the loyal and gallant conduct of the Canadians."

"This prompt settlement will cover the twenty-eight deaths by \$28,000, leaving the wounded to be settled with according to the policy of insurance when the claims are received."

"The Ocean Accident and Guarantee Corporation."

"Per ROLLAND, LYMAN AND BURNETT" This letter was quoted by THE EXAMINER of the same evening (5th March) and was thus brought directly to the Patriot's notice. But though three days have passed, we have not noticed any withdrawal or explanation of the false statement and mean insinuation contained in The Patriot's editorial paragraph, above quoted. Such conduct we say is "contemptible;" and not only contemptible, it is dishonest.

**THE PURCHASE OF PINEAU.**

WHEN we quote L'Impartial's report of a rumor that Mr. Pineau had been approached by the myrmidons of Premier Farquharson and offered a position at \$5 a day, we treated the matter as a huge joke. Some of our friends found fault with THE EXAMINER for even intimating that the Government would dare to approach Mr. Pineau—the elect of the Tignish Conservatives—with any such corrupt proposition. They could not believe,—as we could not—that the report had any other foundation than gossip. But it is now certain that Mr. Pineau is out of the way and that the Conservatives of the First District of Prince County will not have an opportunity to elect another man in his stead. Other arrangements have, it is said, been made; and the Patriot now announces that it is the intention of the Government "to meet" the House at as early a date as possible." Apparently the leading lights of the Liberal party have come to the conclusion that it would not be safe to risk an election at this juncture! Or perhaps the impossibility of obtaining Lieutenant Governor McIntyre's consent to a dissolution may have dawned upon them.

**CLEVER PLAN OF CAMPAIGN.**

The Liberals' plan of campaign seems to be to unite the French-Canadian electors of Quebec in favor of Tarte and Laurier—in the same way that they were united in favor of Mercier after the Riel Rebellion—and thus obtain a large Liberal majority from Quebec, while the other Provinces are expected to divide upon party lines as usual. Mr. Tarte, who conceived the idea, is as crude as he is unscrupulous; but he may be disappointed in the anticipated result of his play. It is not likely that the majority in Quebec will again be successfully manipulated by Mr. Tarte and Sir Wilfrid; and if that should prove to be likely, all those who are opposed to the supremacy of the Tarte influence in Parliament will unite to balk the scheme.

**INTERESTING EXPERIMENT.**

AN experiment in primary school education that will be watched with much interest is under trial at Ithaca, N. Y. A class of twelve five-year-old children was organized and a skilful teacher was put in charge to see what might be done on the basis of one hour's instruction per day, the children to have all the rest of the time for play and home life. The experiment has been encouragingly successful, and the conclusion of the teachers and the school officials who have studied the case is that it would be better in all primary schools to divide the school into four sections or groups, each group to be present but one hour in the day, and no two groups at the same time. The confident belief is cherished that the children in question can do the full amount of study without overcrowding; that the room can be kept well ventilated, and that better work will be accomplished by the primary teacher herself.

**NOTES AND COMMENTS.**

The students of McGill have explained that their visit to Laval was made with the same friendly intentions as actuated their visit to the other colleges and high schools of Montreal; and the authorities of Laval have declared that there was no intention on the part of the students of Laval to insult the British flag.

The Montreal Gazette remarks upon the fact that "Liberal papers are explaining to their readers that Mr. McShane's appointment as harbor master of Montreal was a political move" and says "they would add to the popular understanding if they would further explain what kind of politics are helped by a job that in the chief commercial city in the country sets every commercial body against those responsible for it."

There is great probability in the opinion held by many that the fields, now bare and ice-covered, this remarkable season, will afford a short hay crop next summer. With such a contingency staring them in the face and the necessity of putting all the energy into the production of cheese at high prices, farmers should prepare early to get in a big amount of green fodder and ensilage for their cattle. Forewarned is forearmed.

Professor Fletcher, Dominion Entomologist, writes Rev. Father Burke that a mixture of one pound of Paris Green, one pound of soap and 100 gallons of water sprayed on the grass or grain fields will kill the army worm, and after the first shower of rain in no wise affect the animals feeding on sprayed fields. A broadcast sowing of land plaster or lime (50 lbs lime and 1 lb Paris Green) is also advised. Those concerned should take particular notice of this. It will be useless to lament when the crop is eaten up.
