SPECIAL DESPATCHES TO THE EXAMINER.

TURKEY AND GREECE.

LORD SALISBURY ON THE ISSUES INVOLVED.

Those Who Encouraged Greece
to Break the Peace are
Guilty of Blood.

Not Sympathy, but Strict Obedience to
International Engagements Must
Govern Action of Nations.

LONDON, May 19.—Speaking at the Junior Constitutional Club last evening, Lord Salisbury touched briefly on the complications in southeastern Europe. The Premier said that the armistice which had been declared was due to the pressure exerted by the powers, especially by Russia. It was a very important step, giving time for reflection. But it did not very seriously diminish the difficulty that had to be faced. Neither Turkey nor Greece ought to be under an illusion as to the real state of feeling in the United Kingdom. He had mentioned both countries, he said, because in the dim future no one could know to which of the two it might become necessary to appeal for a solution of problems which must be solved. The peculiarity of this strange crisis, said Lord Salisbury, is that the war cannot be left to work out its natural result. It is impossible that Europe should allow Christian communities to fall under the Sultan. But it must not be thought, because this document throws its agia over Greece, that therefore she is to be free from all the penalties attaching to unwise or unrighteous action, and in this connection I may say that the sending of an address such as was sent to Greece by a hundred members of the House of Commons ought, in its thoughtlessness, to be recorded as a disgrace to the House of Commons. They are guilty of blood which has been shed in consequence of the false calculations generated in the minds of those they affected to support. Lord Salisbury referred to the sympathy of England for Greece, as founded upon classic association, Liberalism in politics and community of religious conviction, as well as upon other influences. But such consideration as these, he said, could not be suffered to guide the politics of nations, for their policy was to maintain peace by a strict obedience to international engagements.

NOTES FROM THE CAPITAL.

Government Delaying the Tariff.

Statesmen in a Quandary.

OTTAWA, May 19.—Before going into supply yesterday Hon. Mr. Fielding stated that the Tariff Bill would be taken up next Tuesday.

Hon. Mr. Foster expressed regret at this further delay. The Government had simply been wasting time for a fortnight since the budget debate ceased. If the Government hopes to get supply while withholding the tariff, it will find its expectation not realized. There are, he continued, many elements of doubt in the tariff itself, and apparently the Ministers themselves were still in a state of uncertainty. Meanwhile the business was being carried on from hand to mouth. Both manufacturers and traders are anxious to have the matter settled as soon as possible. They want the financial conditions reduced to a state of certainty, so soon as the Ministers are able to reduce themselves to that state.

Hon. Mr. Fielding did not agree with the proposition that the business people of Canada desired the tariff settled at once. They were rather anxious that their representations should receive favorable and careful consideration.

Sir Hibbert Tupper observed that the late government, after 1897 never changed a principle of the tariff and the public always knew that the principle would be maintained but this government which claimed to be the ablest assembly of statesmen ever collected and which declared that it proposed to revolutionize the tariff had spent more time getting its tariff bill ready than had been spent by any government of this country or of any other country.

The debate was continued by Messrs. Craig and Davin after which the house went into supply.

P. E. Island Fish Report.

Georgetown.—Lobster and herring fishery fair.
Malpeque.—Lobsters fairly good but herring scarce.
Alberton.—Herring good and lobsters fair at North Cape, Tignish and Alberton.
Mimisingash.—Good catches of lobsters and herring are reported here and at Campbellton.

LATEST NEWS BY WIRE AND MAIL.

LONDON, May 16.—A special despatch from Melbourne Victoria says that no fewer than ninety earthquake shocks have been felt in South Australia during the last three days. The subterranean disturbances were particularly severe at Kingston, where buildings were damaged and the inhabitants are living in tents for safety.

MONTREAL, May 16.—Queen Victoria has been asked through Lord Aberdeen, and her consent is expected to touch the button in London and thus start the big electric works of the Lachine Hydraulic & Land Company, which is to supply some hundred thousands of horse-power to Montreal. Eighty miles of conduits have been laid, and arrangements have been completed with the Commercial Cable Company for the event. This is the largest electric installation in the British dominions.

St. John Sun: Mr. Davies asserts that an alien labor bill can be passed by parliament to apply to persons coming into Ontario from the United States, but not into Quebec and the Maritime Provinces. This is sectional legislation with a vengeance. As the Montreal Gazette remarks: "The wisdom of the law that would compel a United States citizen seeking employment in Ontario to go around by Quebec is of the undeciphered order."

WINNIPEG, May 16.—Dr. Jones, the dominion immigration agent in the Scandinavian countries has returned from the west where he has been visiting the foreign colonies previous to his departure for Europe. The doctor states that he found the settlers prosperous and contented. In most cases rapid progress is being made, and the condition of colonists will compare favorably with the best English settlements.

ELDORADO CANON, Nevada, May 16.—An Indian named Aivoic shot and killed two teamsters of the Southwestern mining Company named Lee Franzen and Ben Jones, on the Ore Road, between the mines and the mill, yesterday, and then went on to the cabins of Christopher Neilson, a prospector, and Charles Monahan, and killed them also. It is feared that the Indian has several more victims who lived alone on the route he probably took after killing the teamsters.

BUFFALO, May 17.—A special to the Enquirer from New York says: Mr. Geo. A. Kittredge, who has been a merchant in Bombay, India, since 1862, arrived in the steamer Teutonic on Wednesday last. In an interview Mr. Kittredge said: "Not a single person has yet died of starvation in India." "When I say that no one had died of starvation," continued Mr. Kittredge, "I do not wish to infer that the people of that country don't need all the help that can be extended to them. The government and private charity are feeding 81,000,000 people, more than the total population of the United States. All the people are receiving enough money, little as it is, to keep them all alive. But, their condition could not be bettered. I do not believe that grain could be properly distributed, for it would take a very large organization, formed for the purpose, to do the work in a beneficial way. How much better it would be to send money, with which they could buy to eat. The current reports of death from starvation and the pictures exhibited showing the natives in an emaciated and miserable condition are not only overdrawn, but are outrageously false. The people are in great need however, and help should be given them, but I am sure money and not grain is what is needed."

LONDON, May 17.—A despatch to the Daily Mail from Berlin says it is reported there that a plot to murder King George has been discovered at Athens, and that many arrests have been made.

TORONTO, May 17.—The University of Toronto conferred the degree of LL. D. on the Right Honorable Lord Lister, the Right Honorable Lord Kelvin, Sir John Evans, the Right Honorable Lord Rayleigh, Dr. Wolcott Gibbs, Honorable Wilfrid Laurier, and Honorable A. S. Hardy.

KID GLOVES.—Lock Fasteners: Tan Shades: 102 Pairs: a good Glove, made to sell for \$1.25, our price 75c.—T. J. Harris, London House.
