The Future of Butterfat

In the commercial history of milk, butterfat has had to bear most of the load in the establishing of a value on nature's perfect food.

The attitude of the consumer regarding skim milk and the solids not fat in it as a commodity undervalued product has had the effect of placing a higher value on butterfat than was perhaps warranted.

The Efficient Cow

There is a wide variation in the relative efficiency of farm animals in converting feed into human food.

F. E. I. and The Royal

As a means of setting standards of perfection the Royal Winter Fair stands in a class by itself. To get in the money at this fair is an achievement, to win is an indication of outstanding excellence.

Strange But True

To reach the pinnacle of success most people have to go up the ladder, one rung at a time. Those that find themselves famous overnight are as hard to find as the proverbial needle in the proverbial haystack.

Farm Prices & Market Report

Following are excerpts from the weekly marketing report of the Provincial Department of Agriculture, prepared by Mr. W. R. Shaw, Deputy Minister of Agriculture:

Livestock

Livestock prices are mostly steady with last week, although Charlottetown cattle are revised upward from \$1.00 to \$1.50, which leaves them more or less in harmony with the Moncton prices.

Feed prices have strengthened in some respects since our last broadcast. No. 1 feed oats in carlots, delivered, is \$2.93 3-4; barley \$3.18 for No. 1, and hard to get; wheat \$2.99 for No. 5. Retail prices on oats, when bagged, are \$3.25, with barley meal, bagged, at \$3.55. Sack wheat in carlots is \$3.30; oats \$3.12; and barley meal \$3.35. Very little local grain is offering, and the price seems to range anywhere from 80c-95c per bushel. Hay is off, and delivered at Charlottetown is in the vicinity of a strong \$15.00 per ton.
