

# CIMN RADIO

## The Island's Only Alternative

# CIMN TOP 25

Situated on the 3rd floor of the Barn, CIMN Radio is broadcasting thanks to 55 volunteer DJ's. These DJ's are students of UPEI, representing all faculties and some clubs and sports teams. Without the time and effort they put into their shifts, CIMN Radio would not be able to broadcast.

At this time, our hours are 9am-12 midnight seven days a week. On campus, it can be tuned into on 700am and off-campus, on 102.3fm cable.

In 1987-1988, CIMN was plagued with technical difficulties throughout the year. This year, CIMN is now heard in the Pit of the Robertson Library. This has been described as "NOT HOT" in the last issue of the GEM, but WE feel that it adds to the relaxing atmosphere of this socializing area. Many students have commented on the programming and the availability of CIMN in the pit. I thank those students who let us know how they feel. It's easy to complain about something, and so much more difficult to praise, but it allows us to know that our work is appreciated.

A note on our programming format. Each DJ can choose the music they play in their shift. Because of this, the diversity of music is vast; the listening audience is able to hear many forms of

music such as European, heavy metal, blues, jazz, top 40, and alternative music from today's "music scene" as well as from the past.

There have been several bands which have been featured on student radios across Canada which have gone on to be quite successful (ie. the Northern Pikes and the Grapes of Wrath). CIMN is proud that we can offer new talent to our audience.

Our Top 25 is featured each week in the GEM. This list is compiled (by our Music Director) from the DJ playlists. Phoned-in requests will influence this list, so feel free to call in for your favorite songs at \* 566-0417\*

CIMN is UPEI's radio station. We support all faculties, teams and clubs. Feel free to come down to the Barn and have a look around. If your group is having a meeting or special event... Let us know and we can broadcast it over the air. As part of the Student Union, CIMN wants to keep you informed of affairs concerning students. This is to help you get a better understanding of current issues on campus.

I'd like to thank all staff of the Radio Station for getting involved and devoting their time as volunteers. Also, the members of

management who put in ALOT of extra hours:

RODNEY ST. PIERRE - ASST. MANAGER

KEVIN SMITH - MUSIC DIRECTOR

KRISTINE SUZUKI - ADVERTISING MANAGER

There are two paid positions open for applications: Assistant Manager and Advertising Manager. The hiring board will be meeting soon so please obtain more details from the SU Office or the Mini-Centre in the Pit. Also, a student at-large is needed to sit on the Board of Directors for CIMN. Applications for all positions are available from the SU Office.

Watch for a shift schedule in upcoming issues of the GEM and... Keep listening to the Island's Best Kept Secret - CIMN, PEI's only alternative, 700am and 102.3fm cable.

Rhonda McLellan Station Manager - CIMN

| 25. She Rips My Lips...       | Teenage Head                          |

## SHOULD ASPIRING ACCOUNTANTS SELECT A PROFESSIONAL PROGRAM THAT INTEGRATES MICROCOMPUTERS?

(Should aspiring airline pilots take ground school and flying lessons?)

### CGA offers opportunities.

The NEWS is out! Canada's Certified General Accountants (CGA) have taken a dramatic leap into the future. Their lead in accounting education, innovation and quality is now further enhanced. CGA has become Canada's first professional accounting body to integrate hands-on microcomputer technology into its five-level program of studies

CGA is still the only professional accounting program in Canada which allows you options during your final year of study. With a view to your future in industry, government, commerce or accounting practice, the CGA designation is recognized as a hall mark of accounting excellence.

UPEI Business Administration students can earn important credits towards a CGA designation as part of their regular program of studies.
