Russia Willing to Withdraw Her Financial Adviser.

The 'Official Messenger' publishes a note saying that the Russian Government has instructed its representative at Seoul, the capital of Corea, to inform the Emperor of Corea and his ministers that if, in their opinion, Corea no longer requires foreign help and is capable of preserving with her own resources the independence of her internal administration, Russia will not hesitate to recall the Russian financial adviser. As regards the Russian military officers they will, after leaving the Korean army, temporarily remain at the disposal of the Russian mission. In view of the still unsettled state of the country, the note proceeds: 'No longer bound by the responsibility which the presence of the Russian instructors and financial adviser of that country imposed upon Russia, the latter can now abstain from actively participating in the affairs of Corea, hoping the young state, strengthened by the support of Russia, will be able to maintain, without assistance, order at home and preserve her full independence. In a contrary case, the Imperial Government will take measures for the protection of the interests and rights of Russia, as the great power which is Corea's neighbor.'

PERSONAL

Miss Minnie Kelly left by the Stanley this morning to visit friends in Boston.

Mr John Baker, of Miscouche, celebrated his nineteenth birthday on Monday last. The venerable gentleman was congratulated by many friends.

Montreal Witness: The United States has displayed strength, not weakness, in complying with the request of Spain to withdraw the United States squadron from Key West, its presence there being regarded as an encouragement to the Cuban insurgents to persist in their rebellion. In accordance with the United States' representations as to the measures to be taken to end the rebellion, Spain has been trying to give Cuba responsible government. The trouble is that the insurgents will not accept a measure of autonomy; they want complete independence, which is by no means considered the best thing for Cuba by the United States Government or any other body of intelligent, thoughtful men. In withdrawing her fleet to Hampton Roads the United States notifies the insurgents that their ideas as to the views of the United States Government are wrong, and that they must not count upon the United States interfering to secure their independence, though she may intervene to secure them home rule under proper safeguards.

The things that people see are inside of them and not outside. No two people see the same thing exactly alike. One woman may look out at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look out at the same scene and see nothing. The man who is perfectly well and vigorous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot and the disease will not stay. A man lives on rich, pure blood, and disease dies on it.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 31 cents in one cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

WASHINGTON, March 22.—The procedure in connection with the submission of the report of the Maine court of inquiry by the president to congress is now clearly outlined and a cabinet officer yesterday explained the general line of action at present intended to be pursued upon receipt of the report, which is expected to reach Washington next Thursday. A copy of it will be laid before the Spanish government very early, and as soon as can be consistently done the report will be sent to congress and made public at the same time.

Toronto, March 22.—Steps are being taken for the cancellation of the franchise of the street railway company, on the grounds that it was obtained by bribery and corruption. Astonishing revelations are promised.

ASTORIA, Ore., March 21.—The steamer Oregon arrived from Brea and Skaguay, making the passage in five days. She brings 146 passengers who report the epidemic of spinal meningitis in Skaguay is abating, no deaths having occurred for some days. Frank Clement, of Hillsboro, Oregon, was shot and killed at Sheep Camp on the 14th, by Gottlieb Schneider, of Maryland. A lynching was averted only by the prompt action of the officers in getting the murderer out of the way.

AN OLD AND WELL TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

St. John Sun: Mr. J. M. Mercier, a commercial traveller, and a nephew of the late Count Mercier, informs the Winnipeg North-West that he has secured from the Dominion government the dredging privileges of ten miles of the Yukon river. His uncle, Mr. J. A. Mercier, has secured several sections of the same length, and other members of the family have also been granted sections of different lengths. It is the intention of the Merciers, he says, to pool their interests and form a joint stock company for the purpose of dredging the claims in question or selling them. The Mercier family appear to have secured a chance for a nice little speculation.

A Chapter of Delays.

One evening not long ago a slight blaze was discovered in the neighborhood of the corner of Prospect and Erie streets, and a rush was made for the fire alarm box. As sometimes happens, the whereabouts of the key was not known, and for a minute or two there was a lot of wild anxiety running to waste. All sorts of suggestions were offered, but nobody took advantage of them. Fortunately a short policeman came trotting up and presently produced his key. It was attached to a chain, and the chain was attached to him. It was a short chain, and the box was pretty high up, and the key didn't come within six inches of the keyhole. The short policeman puffed and tugged.

"Well, by George!" he said.
"Lift him up!" roared somebody.
"Hold on, boys," said the officer, "I'll loosen the chain."

He unbuttoned his coat and vest and the waistband of his official trousers and finally released the jangling attachment. A moment later the door of the box flew open.

"Let me see," said the policeman, "you turn something, don't you?"

The fact is, he didn't know anything about it.

"Say," said a funny man in the crowd, "will somebody kindly step around and ask that fire to be as deliberate as possible?"

This made everybody laugh.

"I guess the cop takes this for Lumbon, don't you know," said the funny man again.

"Pull down de knob," yelled a small boy, and the short policeman obeyed.

Luckily it was only a trifling blaze.—Cleveland Plain Dealer.

The New York Times' London correspondent says that on a field day over a big subject the House of Lords can produce a debate superior in form and weight to anything of this kind in Europe. That is a tribute from a republican that tends to justify the English people, who, when they had the choice between Gladstone and the House of Lords, voted for the lords.
