MECHANICAL MAN GETS LIT UP

Pop may get lit up occasionally — this fellow lights up any time junior is in the mood for play. Election Battle Features Budget

WINNIPEG (CP) — The campaign for the May 14 Manitoba election became a battle of budgets Friday as opponents of Progressive Conservative Premier Roblin found ammunition in the tax - boosting budget presented Thursday by the federal Conservative government.

Provincial Opposition leaders, who in the first nine days of the provincial campaign had attacked provincial budgeting, seized on the federal budget in a "we-warned-you" frame of mind.

CCF Leader Lloyd Stinson said the federal budget proves Tory election promises a "hoax" and said federal tax increases are directed at the wrong people.

Liberal-Progressive Leader D. L. Campbell said Prime Minister Diefenbaker's vision has reached "the day of reckoning."

NOMINATION ACTION

Nomination meetings have provided almost all of the activity. Up to Friday, 59 candidates had been named—26 Progressive Conservatives, 22 CCFers and 11 Liberal-Progressives.

This left a long way to go because both the Progressive Conservatives and the Liberal-Progressives have announced their intention to contest all 57 seats. Mr. Stinson indicated his party will not seek all.

The Social Credit League announced earlier it would not operate in the election but would give moral support to any candidate nominated as a Social Crediter.

LAST ELECTION

In the election last June 16 which toppled the Liberal-Progressives from office, there were 179 candidates. The Liberals and Conservatives each named 56. Only the CCF opposed Mayor Stephen Juba of Winnipeg, who ran and won as an independent in the city riding of Logan.

In that election, 26 Conservatives were elected and formed a minority government. There were 19 Liberals, 11 CCF members and Mr. Juba. The standing was the same at dissolution, March 31.

The Winnipeg mayor has announced that he will not run this time.

East Berlin Is Also Included In Yanks' Plan For Germany

By JOHN M. HIGHTOWER

WASHINGTON (AP) — The United States will urge its Western Allies next week to demand of Russia that East as well as West Berlin be embraced in any new international plan for the city.

Officials indicated the U.S. government has decided it is essential for the United States, Britain, France and West Germany to follow an "all-Berlin policy" in negotiating with Russia at the foreign ministers meeting due to open at Geneva in a month.

An "all - Berlin policy," these authorities said, means that the West would insist that the Big Four powers accept anew an obligation to hold Berlin in trust pending its restoration as the capital of a reunited Germany.

REAFFIRMS AGREEMENT

In effect, that would be a reaffirmation of the post-war agreement on Berlin among Russia, the United States, Britain and France.

Officials of the four Western governments meet in London next week to resume negotiations on development of policies.

Diplomats of all the Western powers do agree on two tactical points, apart from the broad principle that they will not be driven out of Berlin by Soviet war threats. These points are (1) that there is virtually no chance of winning Soviet agreement to a start of German reunification and (2) that the really tough bargaining will come over the future of West Berlin.

HOW IT SHAPES UP

These facts suggest that the foreign ministers meeting and the prospective summit conference will take the following shape:

1. The first phase of foreign ministers meeting, following the usual wrangle of over procedural issues, will be marked by rival proposals. The West will urge a step-by-step plan for reunifying Germany and adopting new security measures in Europe. The Russians will argue for a German peace treaty to be signed separately with the East German and West German governments. This phase will almost surely end in disagreement between the Soviet and Western powers.

2. The second phase will be concerned directly with the Berlin crisis. This arose because Russia demanded last November that the United States, Britain and France withdraw their troops from West Berlin and let it become a "free city" under some kind of United Nations protection.

It is in this phase that Western policy on Berlin becomes critical. The Western powers so far have reached basic agreement on negative principles: They will not be driven out of West Berlin; they will not abandon the 2,250,000 people there. But the need of the West now is to develop positive counter - proposals for use if and when their effort to solve the Berlin problem in the larger framework of German reunification has collapsed.

Market Declines In Sluggish Week

NEW YORK (AP)—The stock market last week apparently paid heed to a raft of warnings against careless speculation. It declined in sluggish trading.

Probably never in history was a bull market so thoroughly scolded.

Keith Funston, president of the New York Stock Exchange, warned against speculative heedlessness. The exchange also launched a $250,000 advertising campaign cautioning the public to invest only on a sound basis. The Securities and Exchange Commission issued a warning against market manipulation.

The Associated Press average of 60 stocks declined $1.20 to $222.40. Volume on the big board eased to 15,626,110 shares compared with 15,642,380 the week before.

Such blue chips as U.S. Steel, General Motors, Standard Oil (New Jersey), Du Pont and General Electric beat a dignified retreat.

FORD MOST ACTIVE

Ford Motor was strong and the week's most active stock. It was helped by news that it is sparking this year's production comeback by the automotive industry.

At the same time, Ford restored its 60-cent dividend after recent payouts of 40 cents.

General Development, traded on the American exchange, cooled off, dropping 3½ to 50⅛.

Big board gainers included Rohm and Haas, up 34½ to 594, Philadelphia and Reading up 5½ to 114½, Litton Industries up 4⅛ to 98¼ and Polaroid up 5⅛ to 122¾.

The five most active issues on the New York exchange were:

Ford, up 3¾ at 62¾ on 364,700 shares; General Motors off ⅛ at 46½; American Motors, off ⅛ at 36; Aluminum Ltd., off ⅛ at 27⅞; and Pan American, up 1⅛ to 33⅛.

This minister of health and welfare insists on—

The large economy size

Mother, as the family minister of health and welfare, knows the value of vitamins. She also knows that they cost money. So she has an eagle eye for the large economy size in vitamins, and many other things, when she shops. This way she keeps the family budget in line.

The Minister of Health and Welfare at Ottawa has a budget too. He uses it to pay for various important services. Among these are Family Allowances and Old Age Benefits.

Money for the Minister of Health and Welfare's budget comes through the Minister of Finance. This is true of other departments also.

It's no secret how the Minister of Finance obtains this money. He gets it largely in taxes from millions of Canadians like you. If he spends more than he gets from you, he must turn around and *borrow* from you the amount he has overspent . . . or else *create new money.*

The creation of new money is one factor that leads to inflation—when the dollar buys less and less. So, as a thrifty Canadian, you are wise to ask government only for those services you are willing to pay for . . . with taxes.

Personally, *you* try to pay as you go, to live within *your* income. It is important that government try to do the same thing.

You want to live well now and to realize all your ambitions for the best possible future. That future is tied up with a sound dollar—a dollar whose purchasing power you can depend on.

A SOUND DOLLAR MEANS A BETTER LIFE FOR YOU
