Young Rhodesian Officer To Be Awarded Medal

By JOSEPH MACSWEEN
LONDON (CP) — A young Rhodesian officer, son of a former Canadian woman, has been posthumously awarded the Albert Medal for an heroic rescue of the Royal Navy announced Tuesday.

He was Lieut. Peter Gordon Robertson, drowned Dec. 19 on the day following his 26th birthday and whose parents are Dr. James Robertson, a Rhodesian surgeon, and Mrs. Robertson, the former Olive Lewis of Cayuga, Ont.

He was married with two children.

Robertson drowned while rescuing three Iranians from a sinking ship during a Persian Gulf gale. The Albert award was first instituted by Queen Victoria 100 years ago.

It is a rare award now only granted posthumously for gallantry in saving life at sea or on land. In the last 100 years it has been won by 138 members of the Royal Navy, the last occasion being 11 years ago.

Some observers have seen special poignancy in Robertson's death in view of the present conflict between Britain and Rhodesia, where he received his early education. He was born in England.

Criminal Negligence Charge Is Dismissed At Summerside

SUMMERSIDE — The charge of criminal negligence against Mrs. Louise Rose Arsenault, Egmont Bay, was dismissed by Magistrate W. Chester S. MacDonald in Prince County court Tuesday after the evidence of eleven witnesses had been called by the crown.

The charge arose following the motor vehicle death of Joseph Alfred Caisie, son of Mr. and Mrs. Leo Gaisie, Egmont Bay, on May 24th of this year.

The child was walking to school and had proceeded to cross the highway behind a school bus which had stopped to pick up students, when he was struck by the Arsenault vehicle.

In rendering his decision Magistrate MacDonald commented: "In my mind this has been one of those most unfortunate cases." He felt that too much emphasis had been placed on the matter of the stationary bus. He added that the question of whether or not the misapprehension had been averted had not been there remains unanswered in his mind.

"The magistrate stated that it was apparent Mrs. Arsenault was not a reckless driver who disregarded the lives of other people. It was a case of circumstances, he said, a most unfortunate incident.

Counsel for the defence was Gerald R. Foster, QC, while George R. McMahon acted for the crown.

MP H.W. Herridge Names Supporters

By STUART LAKE
OTTAWA (CP) — British Columbia MP H. W. Herridge said Tuesday magistrates and lawyers are among supporters of his private bill seeking a better financial deal for persons who argue and win their own cases before the Supreme Court of Canada.

Mr. Herridge (NDP — Kootenay West) said letters backing up the principle of his bill have been pouring in since he brought the matter before the Commons in June.

The Supreme Court now allows up to \$600 a day for lawyers pleading cases before it and who are awarded costs against the contesting party. The payment includes travelling expenses, costs of hotels and meals while the lawyer is in Ottawa.

Individuals who argue and win their own cases are not entitled to such costs under Supreme Court regulations.

Mr. Herridge's bill now on the Commons order paper, was inspired by the complaints of Charles Ghirardosi of Trail, B.C., after he won a prolonged court battle against the British Columbia government.

DEATHS

PROWSE — At her home on Monday, July 18, 1966, Mrs. Annie M. Prowse, beloved wife of Hon. T.W.L. Prowse, Resting at her late residence, 17 Villa Avenue until noon today, then to the Kirk of St. James for funeral service commencing at 2 o'clock, interment in the People's cemetery.

Union Officials Plan To Reduce

SUDBURY, Ont. (CP) Union officials, in a bid to avoid trouble, moved Tuesday to reduce the size of United Steelworkers of America (USWA) picket lines at 14 strikebound mines and mills of the International Nickel Company.

Gib Giechriest, representative of USWA Local 6500, said in an interview the union is encouraging the strikers to reduce pickets at Inco properties to lessen the chance of trouble and make demonstrations more orderly.

Monday, 7,000 pickets were reported at various Inco facilities.

There were these developments Tuesday in a wildcat strike that began last Thursday with a shift boss's refusal to allow some men to eat sandwiches while awaiting the day's work assignments:

1. A striker was charged with willful damage, the first charge to be laid since the strike began.
2. The company issued a statement from its New York office terming the walkout an illegal strike.
3. Company and union leaders continued round-the-clock negotiations with a provincial mediator in Toronto hotel rooms.

4. Three carloads of strikers headed for Thompson, Man., in an attempt to encourage a sympathy walkout at Inco properties there.

5. Five families of supervisory personnel were evicted from their homes at Crean Hill town site, 24 miles west of Sudbury, after services to the homes were disrupted and the families had difficulty moving through picket lines.

6. The operations of the Canadian Industries Ltd. sulphur mill at Copper Cliff were disrupted, threatening to close down uranium mines at Elliot Lake which use the sulphur in their processing operations.

7. Bell Telephone services in Copper Cliff were interrupted when four of its main cables were tampered with.

Mayor Richard Dow of Copper Cliff, an executive assistant to Inco general manager J.A. Piggot, said several company supervisors are still inside the various plants shut down last week. They are receiving supplies by helicopter.

BANGER BEATS BAND
SCUNTHORPE, England (CP) — The world's biggest sausage, weighing more than half a ton, was made here for charity. The 3,124-foot-long "banger" was made by local butchers and sold in slices at this Lancashire steel town's carnival.

LEARNING ALFRESCO
PORTSMOUTH, England (CP) — Classes were not suspended when a Hampshire school building had to be closed for repairs after vandals raided it. Lessons were given in a nearby field.

Rocket Launching Reported Success

OTTAWA (CP) — A Black Brant rocket, fired some 100 miles above the Arctic Monsoon night, has radioed back to earth some "interesting and valuable" information. Word of the successful launch was received here Tuesday from the firing site at Resolute, 1,665 miles north of Winnipeg.

The National Research Council said the nose cone of the rocket carried special equipment for determining the characteristics of the cosmic rays normally distorted to some extent by the Van Allen radiation belt and magnetic fields which surround the earth. The Arctic launching site was chosen because the Van Allen belt bends close to earth at the poles and it is easier to get a rocket above them there for uncontaminated readings.

The Black Brant, carrying an instrument payload of 55 pounds, was the first rocket ever fired in the Arctic. A second is to be sent aloft today.

Scientists say the study of cosmic rays may help determine how the universe was formed and whether the universe is expanding or contracting.

Three experiments of this type have been carried out in the United States and another last March by the University of Alberta in Calgary with the co-

Mollison Quits Committee During Heated Meeting

SUMMERSIDE — Councillor Grant R. Mollison, chairman of the electric light committee for the town, announced at a special council meeting here yesterday that effective this morning he would resign from the committee because he felt Mayor George Key had no confidence in his committee.

Councillor Mollison announced his resignation during a heated argument between members of the council and Mayor Key on the matter of the town proceeding immediately with the hiring of an electrical superintendent to replace Tom Richardson, who recently resigned the post.

A resolution was moved by councillor Mollison and seconded by councillor Herb Schurman that the town proceed immediately with the hiring of an electrical superintendent and that during the interval Donald Baker be appointed acting superintendent of the electric utility of the town.

Mayor Key councillor Milton Mellish and councillor Ernest Morrison opposed the resolution.

Mayor Key asked councillor Francis Perry if she would take part in the discussion. Councillor Perry refused to take part in the discussion and she also wished to vote on the matter.

Councillor Mollison, when asked by Mayor Key to take the chair declined for the same reason.

Mayor Key remarked that he felt the electric light committee was "trying to put something down the throats of the council in trying to pass the resolution."

Mr. Baker has carried on the position for at least three months and sometime before this I feel we owe it to him to appoint him as acting superintendent for a trial period of three or four months," Mayor Key stated.

Councillor Morrison told the meeting that he had questioned the previous electrical superintendent whether Mr. Baker was capable of handling the job and Mr. Richardson said he was. He also mentioned that Mr. Baker was a local boy who had "come up through the ranks" and the council should be willing to let him carry on to the end of the year to see how he does.

Councillor Perry in expressing her views said that she was interested in the town as a whole and a plan of that size merits the position of an electrical engineer.

Pointing out that if Mr. Baker received the job he would have to be given a sizeable pay increase, councillor Mellish said that the town would still be saving a great deal of money.

After the matter had been discussed for a time, Mayor Key called for a vote. A total of three councillors voted that the motion be passed and two voted against it. Those in favor were councillors Mollison, Perry and Schurman. Against were councillors Morrison and Mellish.

Councillor D. Alex MacDonald was not present at the meeting.

BORDEN

Howard Kelly of New York is visiting at the home of Mr. and Mrs. John Hanlon.

Master Alan and Lynn Corboil of Toronto are visiting their grandparents Mr. and Mrs. Joseph Kelly.

Mr. and Mrs. Basil Larie, accompanied by Mrs. Angus Larie of Souris were recent visitors of Mr. and Mrs. Joseph Kelly.

Mr. and Mrs. Buddy MacCormack of Souris have been visitors to Borden, guests of Mr. and Mrs. Joseph Kelly.
